PROCLAMATION 2689

MOTHER'S DAY 1946

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS it has become customary on one day of each year to unite our hearts in public celebration of the common bond of humanity which we share in the memory and enjoyment of a mother's love, a mother's training, and a mother's care; and

WHEREAS it is especially appropriate this year after the achievement of victory on a thousand momentous fields of battle that we express the debt of gratitude which each of us owes to his own mother and which we all owe to the mothers of America; and

WHEREAS by Public Resolution 25, 63d Congress, approved May 8, 1914 (38 Stat. 770), the second Sunday in May is designated as Mother's Day and the President is authorized and requested to issue a proclamation calling for the observance of that day:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby request that Sunday, May 12, 1946, be observed as Mother's Day with public and private expressions of honor, reverence, and love; and I call upon the officials of the Government to display the flag of the United States on all Government buildings on that day and the people of the United States to display the flag at their homes or other suitable places as a public expression of honor for the mothers of this country.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the city of Washington this 27th day of April, in the year of our Lord nineteen hundred and [SEAL] forty-six, and of the Independence of the United States of America the one hundred and seventieth.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Acting Secretary of State.

PROCLAMATION 2690

NATIONAL FARM SAFETY WEEK, 1946

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS an increased supply of food is vitally needed to promote peace and happiness in the postwar world; and

WHEREAS farm accidents rob the nation of thousands of lives and millions of dollars worth of food and other property each year; and

WHEREAS experience in previous observances of National Farm Safety Week has clearly shown the necessity and benefits of a coordinated and constant educational farm-safety program:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby call upon the Nation to observe the week commencing July 21, 1946, as National Farm Safety Week.

And I request all persons and organizations concerned with agriculture and farm life to do everything in their power to discover and publish the facts about farm accidents, and to develop practical safety programs which farm people everywhere can translate into direct action against hazards which daily threaten their lives and happiness. As a start, I specifically suggest that the farm people of the country observe National Farm Safety Week by resolving to eliminate at least one hazard a day until their farms are as safe as they can possibly make them.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 27th day of April in the year of our Lord nineteen hundred and [SEAL] forty-six, and of the Independence of the United States of America the one hundred and seventieth.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Acting Secretary of State.

§ 260.40 *Philadelphia suburban and other designated Pennsylvania areas*—(a) Commodity will make a payment to each handler, regardless of whether or not such handler purchases milk from producers, on Class I milk containing not more than 6.0 percent butterfat disposed of in the Philadelphia, Pennsylvania, suburban area and in the Pennsylvania Areas Nos. 4, 6, 8, and 12, by such handler, as determined by Commodity or its designated agent, from July 1, 1945 through June 30, 1946, except (1) any such milk sold by such handler to another handler, and (2) any such milk disposed of by such handler for use by the armed forces of the United States, as follows:

PART 601—LAND UTILIZATION PROGRAM UNDER THE BANKHEAD-JONES FARM TENANT ACT

REMOVAL OF TRESPASSING HORSES, MULES, AND BURROS IN THE NORTHERN NEW MEXICO GRANT LANDS PROJECT—RIO ARRIBA, SANDOVAL, SANTA FE, AND TAOS COUNTIES, N. MEX.

Whereas a number of horses, mules, and burros are trespassing and grazing on lands in the Northern New Mexico Grant Lands Project, NM-LU-25, administered by the Soil Conservation Service, in Rio Arriba, Sandoval, Santa Fe, and Taos Counties, in the State of New Mexico; and

Whereas these horses, mules, and burros are consuming forage needed for livestock grazing under permits, are causing extra expense to permittees, and are injuring project lands;

(2) Officers of the Soil Conservation Service are hereby authorized to dispose of, in the most humane manner, all horses, mules, and burros found trespassing or grazing in violation of this section.

(c) Public notice of intention to dispose of such horses, mules, and burros shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Northern New Mexico Grant Lands Project is located.

PART 1401—DAIRY PRODUCTS

REQUIREMENTS FOR PRODUCERS AND AUTHORIZED RECEIVERS TO SET ASIDE BUTTER

The fulfillment of requirements for the defense of the United States will result in a shortage of the supply of butter for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1401.202 *Butter to be set aside*—(a) *Definitions.* (1) "Butter" means the food product usually known as butter and which is made exclusively from milk or cream, or both, with or without common salt, and with or without additional coloring matter, and containing not less than 80 percent by weight of milk fat, all tolerances having been allowed. Unless otherwise specified by the Administrator, such term shall include butter made from milk or cream containing whey cream and shall exclude butter made entirely from whey cream.

(2) "U. S. 89 score," means U. S. Grade C, or 89 score, butter, determined in accordance with the Official United States Standards for Grades of Creamery Butter, issued by the Secretary of Agriculture on January 30, 1943 (8 F. R. 1327).

(3) "Person" means any individual, partnership, corporation, association, or any other business entity or organized group of persons, whether incorporated or not.

(4) "Authorized receiver" means any person who holds a letter of authority in force and effect, issued to him by the Administrator, to receive butter set aside pursuant to the provisions hereof. The term "authorized receiver" shall also include any person who is authorized pursuant hereto to receive such butter.

(5) "Set aside" means to set aside and hold for sale and delivery to any designated agency.

(6) "Designated agency means (i) the Armed Services of the United States (excluding, for the purposes of this order, the United States Army post exchanges, the United States Navy ship service departments, and the United States Marine Corps post exchanges); (ii) War Shipping Administration; (iii) Veterans' Ad-

[1] 50 Stat. 522, 526 (1937), 7 U.S.C. §1011f (1940).

ministration; and (iv) any other agencies designated by the Administrator.

(7) "Armed Services of the United States" means the Army, the Navy, the Marine Corps, and the Coast Guard of the United States.

(8) "Producer" means a person who produces butter subject to the provisions of this order.

(9) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture, or any officer or employee of the Department to whom the Administrator has heretofore lawfully delegated, or to whom he may hereafter lawfully delegate, the authority to act in his stead.

(b) *Restrictions on producers and authorized receivers of butter.* (1) Each person who produced more than 12,000 pounds of butter in any calendar month from May 1945 to April 1946, inclusive, shall set aside in May 1946, and in each subsequent calendar month, a quantity of butter equal to such percentage as the Administrator may order of all butter produced by such person during each such calendar month, regardless of the quantity of butter produced by him during or after May 1946.

(2) Each person who did not produce more than 12,000 pounds of butter in any calendar month from May 1945 to April 1946, inclusive, but who produces more than 12,000 pounds of butter in May 1946 or in any subsequent calendar month shall, during each calendar month thereafter, set aside a quantity of butter equal to such percentage as the Administrator may order of all butter produced by such person during each such calendar month, regardless of the quantity of butter produced by such person in such month.

(3) In the event of a change in ownership with respect to a creamery, the production record of the former owner with respect to such creamery shall be the basis for reporting and setting aside butter by the new owner; and the purchaser of the creamery shall so report and set aside butter if (i) the person from whom he purchased the creamery was obligated to report and set aside butter, or (ii) such purchaser is required by other provisions hereof to report and set aside butter.

(4) Notwithstanding the restrictions in paragraphs (a) (1), (2), and (3) hereof, any person required by the provisions of such paragraphs to set aside butter may, at his option, sell and deliver all or part of the butter set aside pursuant to the provisions hereof to any authorized receiver who agrees to set aside, upon receipt of such set-aside butter and out of butter owned by him, a quantity of butter equal to the quantity of such set-aside butter so sold and delivered to him; and such authorized receiver shall so set aside such quantity of such butter. An authorized receiver may sell and deliver set-aside butter to another authorized receiver who agrees to set aside, upon receipt of such set-aside butter, out of the butter owned by him and in addition to all other butter required to be set aside by him, a quantity of butter equal to the quantity of set-aside butter so sold and delivered to him. Each person who sells and delivers set-aside butter to an authorized receiver shall deliver, with each such delivery, a certificate, in duplicate, in substantially the following language (with the appropriate information inserted in the blank spaces):

This is to certify that of the ____ pounds of butter sold and delivered by me on ------, ------, ---------- pounds are butter set aside pursuant to the provisions of War Food Order No. 2, issued on April 29, 1946, and you are required, pursuant to the provisions of said order, to set aside, upon receipt of such set-aside butter, out of butter owned by you, a quantity of butter equal to the aforesaid quantity of set-aside butter. The balance of ____ pounds is butter free from the restrictions of said order.

I ---------- an authorized receiver.
(am) (am not)

Name	Location	Signature

This will acknowledge receipt of the above indicated quantity of set-aside butter.

Name	Location	Signature

The aforesaid certificate, in duplicate, shall be signed (i) by the person selling and delivering set-aside butter, and (ii) by the authorized receiver accepting such set aside butter; and such authorized receiver shall retain, for two years, one copy of such certificate and return the other to the person who sold and delivered such set-aside butter.

(5) All butter set aside pursuant to the provisions hereof shall be salted and shall be U. S. 89 score, or better, and shall be packed as bulk in domestic packages, unless otherwise specified by the Administrator, or, with respect to any particular quantity of butter required to be set aside, as aforesaid, unless

(i) The producer arranges with an authorized receiver to sell and deliver to such authorized receiver unsalted butter, butter below U. S. 89 score, or butter packaged other than as specified herein and such authorized receiver agrees to set aside, upon receipt of such butter, an equal quantity of butter which is salted, is U. S. 89 score, or better, and is packaged as specified herein; or

(ii) The producer or authorized receiver has previously arranged with a designated agency to sell and deliver to such agency unsalted butter, butter below U. S. 89 score, or butter packaged other than as specified herein; or

(iii) The producer manifests by butter grading certificates issued by the Production and Marketing Administration, as aforesaid, or by other written evidence satisfactory to the Administrator, that the total quantity of U. S. 89 score, and better, produced by such producer in the calendar month in which such butter is required to be set aside, is less than the total quantity required to be set aside by such producer in such month, in which event the producer shall set aside all of the U. S. 89 score, and better, produced by him in such month; and thereupon he shall be deemed to have fulfilled the set-aside requirements, as aforesaid. The Administrator may require any person who is required to set aside butter pursuant to the provisions hereof to submit butter grading certificates issued by the aforesaid Production and Marketing Administration or other evidences satisfactory to the Administrator relative to the grade of all butter produced or owned by such person.

(6) All butter set aside pursuant to the provisions hereof shall be stored under the same conditions of storage customarily observed to maintain the quality of butter.

(7) Any person who sold and delivered any quantity of butter to any designated agency during April 1946 may consider such quantity of butter as having been set aside, pursuant to the provisions hereof or Administrator's order pursuant hereto, by such person during May 1946 or any subsequent calendar month of 1946. Any person who sells and delivers any quantity of butter to any designated agency during any calendar month of 1946 subsequent to April 1946 in excess of the quantity thereof required to be set aside during such month by such person, pursuant to the provisions hereof or Administrator's order pursuant hereto, may consider such excess quantity of butter as having been set aside by such person during any calendar month of 1946 subsequent to May 1946.

(8) No person may serve as an authorized receiver unless he has received from the Administrator a letter of authority in force and effect to serve as an authorized receiver pursuant hereto. Any letter of authority heretofore issued pursuant to War Food Order No. 2, as amended on April 1, 1945 (10 F.R. 3512), shall be deemed to be a proper letter of authority in force and effect as if issued pursuant to the provisions of this order.

Any person who desires to serve as an authorized receiver on or after May 1, 1946, and who does not hold a letter of authority as aforesaid, shall file with the Administrator an application therefor, upon a form approved by the Administrator, setting forth the information requested in said form of application. Thereupon, the Administrator shall consider such application and issue a letter of authority if, in the opinion of the Administrator, the issuance of such letter of authority is necessary or appropriate in the public interest and to promote the national defense. Any letter of authority effective hereunder may be revoked at any time by the Administrator; and all letters of authority issued to become effective on or after April 1, 1945, shall expire on March 31, 1947, or on such other date as the Administrator may specify by order. No person shall represent himself to be an authorized receiver unless he holds a letter of authority, as aforesaid, in force and effect. No person other than an authorized receiver shall, unless otherwise authorized herein, purchase, receive, or deal in butter set aside pursuant to the provisions hereof.

(c) *Inventory restrictions.* (1) On and after June 1, 1946:

(i) No producer shall, during any calendar month, unless authorized in writing by the Administrator, produce butter so long as the total quantity of butter, set aside pursuant to the provisions of this order, owned by such person is equal at least to the total quantity of all butter required, by the provisions of this order, to be set aside by such person during the immediately preceding calendar month; and

(ii) No authorized receiver shall, during any calendar month, unless authorized in writing by the Administrator, buy, contract to buy, accept delivery of, or otherwise acquire butter so long as the total quantity of butter, set aside pursuant to the provisions of this order, owned by such person is equal at least to the total quantity of butter required, by the provisions of this order, to be set aside by such person during the immediately preceding calendar month.

(2) Each producer and each authorized receiver, respectively, shall retain in his possession at all times a quantity of set-aside butter which is equal to the total quantity of butter required to be set aside by each such person minus the quantity of set-aside butter (i) sold and delivered by such person to authorized receivers or designated agencies, and (ii) released from the set-aside provisions hereof.

(d) *Releases by the Administrator.* The Administrator shall release any set-aside butter from the restrictions of this order upon receipt of a request for such release from the person owning such set-aside butter, if the Administrator determines that no designated agency has contracted for, or declared its intention or desire to contract for, such butter within 15 days after the date on which such butter was offered to designated agencies in accordance with the respective agency's customary procedure for accepting offers.

(e) *Existing contracts.* The provisions of this order and of any regulation or order pursuant hereto shall be observed without regard to contracts heretofore or hereafter entered into or any rights accrued or payments made thereunder. This order shall not, however, be construed as reducing the amount of butter which any person is required to offer or deliver, under existing contracts or contracts subsequently entered into with any designated agency, to any such agency.

(f) *Records and reports.* (1) The Administrator shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person as may be necessary or appropriate, in the discretion of the Administrator, for the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person subject to this order shall, for at least two years (or for such other period of time as the Administrator may designate), maintain an accurate record of his transactions in butter.

(g) *Audits and inspections.* The Administrator shall be entitled to make such audits and inspections of the books, records and other writings, premises or stocks of butter of any person and to make such investigations as may be necessary or appropriate, in the discretion of the Administrator, for the enforcement or administration of the provisions of this order.

(h) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Administrator. Such petition shall be addressed to Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. Petitions for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Administrator may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(i) *Violations.* Any person who violates any provision of this order or of any regulation or order pursuant hereto, may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using butter. In addition, any person who willfully violates any provision of this order or of any regulation or order pursuant hereto is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(*c*) A "manufacturer" of repair and replacement parts covered by this section who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation except that it need not be currently offered for sale, and who, because he purchased that part for resale must establish his ceiling price for the repair or replacement part under § 1499.3 (a) of the General Maximum Price Regulation after April 30, 1946, shall calculate his ceiling prices by adding to his invoice cost for the article being priced his mark-up on that comparable article computed by dividing its current ceiling price as adjusted under this section by its current invoice cost, according to the method and procedure set forth in § 1499.3 (a).

(*d*) A "manufacturer" of repair and replacement parts covered by this section who is currently producing or has produced within the preceding twelve months an article which meets the definition of "most comparable commodity" contained in § 1499.3 (b) (1) of the General Maximum Price Regulation and who establishes his ceiling prices for such an article after April 30, 1946 under § 1499.3 (b) (1) of the General Maximum Price Regulation shall calculate his ceiling price by applying to his current direct cost for the article being priced the percentage determined by dividing the current ceiling price of the most comparable commodity (as adjusted under this section) by the current unit direct cost of such commodity.

(*e*) If a "manufacturer" cannot determine his ceiling price for a repair or replacement part under any of the three preceding subparagraphs he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (b) (2) of the General Maximum Price Regulation if he produces the part himself or under § 1499.3 (c) if he purchases the part for resale. Ceiling prices established under either of those sections will reflect either the price of the "most comparable commodity" or the supplier's prices as the case may be, adjusted in accordance with this paragraph.

(iv) *Resellers' ceiling prices.* A purchaser for resale, other than a "manufacturer" as defined above, of repair or replacement parts covered by this § 1499.75 (a) (28) who purchases such parts after April 30, 1946 shall determine his ceiling price as follows:

(*a*) A purchaser for resale who delivered or offered for delivery during March 1942 an article which meets the definitions of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall determine his ceiling prices for resales of such parts by adding to his invoice cost the same mark-up he had on that comparable article, according to the method and procedure set forth in that section.

(*b*) If a purchaser for resale cannot determine his ceiling price under the above method, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices adjusted in accordance with this paragraph.

(v) *Filing.* The determination of a ceiling price under subdivisions (iii) (*c*), (iii) (*d*), or (iv) (*a*) need not be reported to the Office of Price Administration. Each seller, however, must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his resale ceiling price for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(vi) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale of articles covered by this § 1499.75 (a) (28) showing prices adjusted or determined in accordance with this paragraph, the seller shall notify the purchaser in writing of the method established by this paragraph for determining resale ceiling prices for the articles. This notice may be given in any convenient form.

(vii) *Definitions.* Unless the context requires otherwise, the definitions set forth in the General Maximum Price Regulation shall apply to the terms used herein.

This amendment shall become effective on the 30th day of April 1946.

NOTE: The reporting and record-keeping provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 30th day of April 1946.

Chapter XIV—War Contracts Price Adjustment Board

RENEGOTIATION REGULATIONS

The changes and additions to Parts 1602, 1603, 1604 and 1607 set forth below are also contained in Revision 24 of the Renegotiation Regulations dated April 5, 1946.

MAURICE HIRSCH,
Colonel, General Staff Corps,
Chairman.

PART 1602—PROCEDURE FOR RENEGOTIATION

SUBPART E—COMPLETION OF RENEGOTIATION

In § 1602.254 paragraph (b) is amended to read as follows:

§ 1602.254 *Progress reports.* • • •

(b) The several Departmental Boards and Services will prepare and furnish to the Assignments and Statistics Branch biweekly as at the close of business each alternate Friday (counting from Friday, March 22, 1946) the appropriate Progress Report covering 1944 and 1945 fiscal year assignments, and every four weeks (counting from Friday, March 22, 1946) the appropriate Progress Report covering the 1943 fiscal year assignments. (Form SPRA-O in the case of Departments, see §§ 1607.751–1 and 1607.751–2 of this chapter, and Form SPRA-I in the case of Services, see §§ 1607.751–3 and 1607.751–4 of this chapter.) On the basis of the information supplied in the Progress Reports of the several Departments, the Assignments and Statistics Branch will prepare Status of Renegotiation Reports (Form SPRA I-BB) and Operations Reports (Form SPRA I-CC) and will furnish the same to the War Contracts Board and the Departmental Boards (see §§ 1607.751–6 and 1607.751–8 of this chapter). On the basis of the information supplied in the Progress Reports of the Services, the Assignments and Statistics Branch will prepare Status of Renegotiation Reports (Form SPRA I-B, set forth in § 1607.751–5 of this chapter) and Operations Reports (Form SPRA I-C, set forth in § 1607.751–7 of this chapter). In reporting for 1943, 1944 and 1945 cases, separate reports in similar form will be used for each year.

PART 1603—DETERMINATION OF RENEGOTIABLE BUSINESS AND COSTS

SUBPART A—FISCAL YEAR BASIS FOR RENEGOTIATION AND EXCEPTIONS

In § 1603.313–2 the last sentence is amended to read as follows:

§ 1603.313–2 *Renegotiation with respect to fiscal year ending after July 31, 1945.* • • • The provisions of this section shall not apply (a) with respect to a determination of excessive profits or no excessive profits which is made after the date on which the termination date of the Renegotiation Act, as defined in subsection (h) thereof, becomes fixed or which is made for a part of contractor's fiscal year under § 1603.313–1 (c) (1), which part ended on or before July 31, 1945; (b) with respect to a determination of no excessive profits if the renegotiating agency determines that such determination of no excessive profits would not, under any circumstances, be affected by a change in such termination date. [RR. 313.2]

SUBPART H—COSTS ALLOCABLE AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

1. In § 1603.384–2 paragraph (c) is amended to read as follows:

§ 1603.384–2 *Costs in connection with the discontinuance of renegotiable business.* • • •

(c) *Losses from and costs in connection with sale, exchange or abandonment of facilities used in performing renegotiable contracts and subcontracts.* (1) Losses from sale, exchange or abandonment of facilities used in performing renegotiable contracts and subcontracts are allocable to renegotiable business in accordance with the provisions of §§ 1603.385–4 and 1603.385–5. Notwithstanding the method of computing such losses for Federal tax purposes, (i) the costs of moving, dismantling, demolishing, protecting and storing such assets will be taken into account in determining whether losses have been sustained and in computing the amount of such losses for the purposes of renegotiation; and (ii) depreciation or amortization incurred with respect to such assets during a period between the end of their use in the performance of renegotiable business and their sale or other disposal will be disregarded in computing such losses. The excess of such losses over gains from the sale or exchange of such facilities or the excess of such gains over such losses, all as computed under § 1603.385–4 (d), is hereinafter referred to as a "net loss" or a "net gain," as the case may be.

(2) If the cost of facilities used in performing renegotiable contracts and subcontracts has been deducted as an expense rather than treated as a capital expenditure, a loss of the type described in §§ 1603.385–4 and 1603.385–5 will not be realized. In such a case, if the facilities are sold, exchanged or abandoned in connection with the discontinuance of war business, the excess of the total cost of moving, dismantling, demolishing, protecting and storing such facilities over the aggregate of the amounts received or accrued (including therein the salvage value of facilities abandoned) from such a sale or exchange will be treated as a discontinuance cost and is allocable to renegotiable business to the extent that such facilities were used in the performance of renegotiable contracts or subcontracts. The excess of such expenses over such amounts received or accrued, or the excess of such amounts received or accrued over such expenses, is hereinafter referred to as a "net expense" or a "net receipts or accruals" as the case may be.

(3) The net loss, if any defined in subparagraph (1) of this paragraph shall be allowed as a cost in renegotiation only to the extent such net loss exceeds the net receipts or accruals, if any, as defined in subparagraph (2) of this paragraph. The net expense, if any, as defined in subparagraph (2) of this paragraph shall be allowed as a cost in renegotiation only to the extent such net expense exceeds the net gain, if any, as defined in subparagraph (1) of this paragraph.

2. Paragraph (a) of § 1603.385–4 is amended to read as follows:

§ 1603.385–4 *Losses from sale or exchange of facilities used in performing renegotiable contracts or subcontracts.* (a) If, as a result of the sale or exchange of tangible property used in performing renegotiable contracts or subcontracts with respect to which depreciation is allowable under section 23 (l), or amortization is allowable under section 124, of the Internal Revenue Code, a contractor sustains a loss, there will be allowed as an item of cost chargeable to renegotiable contracts and subcontracts an amount equal to that portion of such loss which bears the same ratio to the whole of such loss as the aggregate amount of depreciation or amortization on such property allocable to renegotiable business for all fiscal years of the contractor to the date of such sale or exchange bears to the total amount of depreciation or amortization allowed or allowable on such property as a deduction in computing taxable income of the contractor under the Internal Revenue Code for all taxable years to the date of such sale or exchange; subject, however, to the provisions of paragraphs (d) and (c) of this section and subject to the provisions of § 1603 384–2 (c) (3).

PART 1604—DETERMINATION AND ELIMINATION OF EXCESSIVE PROFITS

SUBPART B—RECOVERY OF EXCESSIVE PROFITS ALREADY REALIZED

Paragraph (b) of § 1604.423 is amended to read as follows:

§ 1604.423 *Withholding as a method of recovery.* • • •

(b) Withholding on subcontracts will be effected by a contractor or subcontractor upon a direction issued by a Secretary of a Department or pursuant to his authority. The contractor should make payment to his subcontractor in accordance with the terms of the subcontract until otherwise so directed. The 1943 Act indemnifies any contractor or subcontractor against all claims on account of compliance with a direction to withhold issued by a Secretary of a Department or pursuant to his authority. Any amount so withheld by a contractor or subcontractor shall be held by him for the account of the United States and shall be paid over to a Department upon a direction issued by or pursuant to the authority of a Secretary of a Department.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 87, Amdt. 2]

PART 95—CAR SERVICE

SUSPENSION OF DEMURRAGE RULES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 29th day of April A. D. 1946.

Upon further consideration of Service Order No. 87 (7 F.R. 8066), as amended (7 F.R. 8434), codified as § 95.500 of Title 49 C. F. R., and good cause appearing therefor:

It is ordered, That Service Order No. 87, as amended (codified as § 95.500 C. F. R.), be, and it is hereby, further amended by substituting the following paragraph (a) for paragraph (a) thereof:

§ 95.500 *Suspension of demurrage rules; Trunk Line Tariff Bureau Tariff No. 139–C I. C. C. No. A–751 (coal).* (a) The operation of demurrage rules contained in Trunk Line Tariff Bureau Tariff No. 139–C I. C. C. No. A–751, and supplements thereto, is hereby suspended, to the extent that the free time allowed on cars loaded with bituminous and cannel coal and the coal products described in said tariff exceeds six days; that the average free time on cars delivered to storage plants for subsequent delivery to vessels exceeds three days; subject to the exception shown below, that the settlement period for the average account exceeds two months; and that the operation of all of the provisions of said tariff inconsistent with this order is hereby suspended.

Exception: Any excess debits accruing in the account of any particular consignor or consignee during the settlement period ending at 7:00 a. m., May 1, 1946, which are not offset by credits accruing to the same party during that same period because sufficient such credits have not accrued to the particular consignor or consignee due to presently existing strike conditions at coal mines and the holding of bituminous coal at mines under Solid Fuels Administration for War Regulation No. 1 and orders issued pursuant thereto, may be offset by excess credits accruing to the same consignor or consignee in the settlement period ending at 7:00 a. m., July 1, 1946.

It is further ordered, That this amendment shall become effective at 7:00 a. m., May 1, 1946; that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. CARRIER CORP.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* The Carrier Corporation, 300 South Geddes Street, Syracuse 1, New York, may compute its adjusted ceiling prices for the line of portable room coolers and self-contained air conditioners which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 9.1 percent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to, his supplier.

(2) If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration: however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(3) If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to the seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The adjustment charge determined in accordance with this order must be separately stated on all invoices of all sellers of the articles covered by this order.

(f) The provisions of Supplementary Order No. 153 shall not apply to sales of any articles covered by this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

(h) This order shall become effective on the 30th day of April 1946.

Issued this 29th day of April 1946.

Administrator.

Cast Iron Radiation and Accessories

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 under section 22 of Maximum Price Regulation No. 591 is amended by adding a new section to read as follows:

SEC. 5.5. *Cast iron radiation and accessories*—(a) *Scope of this section.* This section applies to all manufacturers and resellers of the following types of cast-iron radiation and accessories covered by Maximum Price Regulation No. 591:

I—*Cast-Iron Radiation*
- Cast-Iron Convectors
- Cast-Iron Convector Radiators
- Cast-Iron Baseboard Radiators
- Cast-Iron Bathroom Radiators
- Cast-Iron Radiators for blower and ventilation systems.

II—*Cast-Iron Radiation Accessories*
- Cast-Iron Radiator Bushings
- Cast-Iron Radiator Plugs
- Cast-Iron Radiator Nipples
- Cast-Iron Radiator Brackets
- Cast-Iron Radiator Pedestals
- Cast-Iron and Steel Radiator Chaplets

(b) *Manufacturers' maximum prices.* Manufacturers of the type of cast-iron radiation and accessories set forth in (a) above may increase their properly established maximum prices in effect on October 1, 1941, to each class of purchaser by 37 percent.

(c) *Manufacturers' increase for items not having an October 1, 1941, price.* A manufacturer may not increase his properly established maximum price for any type of cast-iron radiation and accessories set forth in (a) above for which he does not have an October 1, 1941, price without specific authorization from the Office of Price Administration.

A manufacturer desiring to modify his presently established maximum price for any of the types of cast-iron radiation and accessories set forth in (a) above for which he does not have an October 1, 1941 price shall file an application for such modification of his maximum price to reflect the increases obtained by other manufacturers for similar articles under (b) above setting forth the following:

(1) Full description of the item. Cuts or detailed sketches should be supplied.

(2) Established maximum price for the item and the section and regulation under which the maximum price was established.

(3) If possible, the name of competitors marketing a similar item for which they had October 1, 1941 prices.

(d) *Optional use of this section.* Since the provisions of this section are not intended to reduce properly established maximum prices, any manufacturer whose price in effect to each class of purchaser on October 1, 1941, plus the increase provided for under (b) is less than his maximum price as established under Maximum Price Regulation No. 591, may continue to use as his maximum price the maximum price properly established under that regulation.

(e) *Notification by manufacturers.* Any manufacturer who applies the increase permitted under (b) shall notify each purchaser, in writing, at or before the issuance of the first invoice after April 30, 1946, of the actual dollar-and-cents increase for each type of cast-iron radiation over his maximum price to that class of purchaser in effect on April 29, 1946.

(f) *Resellers' maximum prices.* The maximum price for sales by any reseller of the types of cast-iron radiation and accessories covered by this section shall be his maximum price to each class of purchaser in effect on April 29, 1946 plus the actual dollar-and-cents increase in cost resulting from the increase granted the manufacturer under this section and of which he is notified by the manufacturer.

(g) *Reports.* Any manufacturer who increases his maximum prices under this section must submit to the Prefabrication and Building Equipment Price Branch, Office of Price Administration, Washington, D. C., his new price list,

discounts sheets or other notification made to his purchasers, within 20 days after such adjustment is put into effect.

This amendment shall become effective April 30, 1946.

NOTE: All reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 30th day of April 1946.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1271]

COLUMBIA GAS & ELECTRIC CORP. AND DAYTON POWER AND LIGHT COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of April 1946.

Notice is hereby given that Columbia Gas & Electric Corporation (Columbia), a registered holding company and a subsidiary of The United Corporation (United), also a registered holding company, and Columbia's public utility subsidiary, The Dayton Power and Light Company (Dayton), have filed a joint application-declaration pursuant to the provisions of the Public Utility Holding Company Act of 1935. All interested persons are referred to said joint application-declaration, which is on file in the offices of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

(1) Columbia will offer to its stockholders the right to purchase 1,530,000 shares of common stock of Dayton and, concurrently therewith, it will, pursuant to the competitive bidding provisions of Rule U-50, publicly invite bids for the underwriting of such offer and the purchase by the underwriters of such shares of common stock as are not purchased by Columbia stockholders. In its public invitation, Columbia will request that the bidders specify the price per share which they will pay for the shares of common stock which they will purchase, which price will also be the price at which the common stock will be offered to the common shareholders of Columbia. The bidders will also specify the compensation to be charged Columbia by the bidders for their services in underwriting the stockholders' offering and purchasing the shares of common stock which are not disposed of pursuant to such offering.

Columbia common stockholders will be offered the right, evidenced by warrants, to purchase Dayton common stock on the basis of one share of Dayton common stock for each eight shares of Columbia common stock held by them.

(2) Columbia will apply the proceeds realized from the sale of Dayton common stock, together with treasury cash, if required, to redeem, at the redemption price, all of its 5% Debentures, presently outstanding in the principal amount of $44,854,000.

(3) Incidental to the above transactions Dayton will (i) increase the authorized amount of its common stock from 500,000 shares without par value to 2,000,000 shares of a par value of $7 a share and will issue and exchange 1,530,000 shares of new common stock for 260,000 shares of its present common stock, all of which are owned by Columbia; and (ii) transfer to Common Capital Stock Account $2,000,000 of capital surplus and $680,000 of earned surplus.

(4) Dayton will amend its Articles of Incorporation to provide, among other things, for contingent voting rights for preferred stockholders in connection with the issuance of additional shares of preferred stock, the merger of the company, the issuance of unsecured debt and the sale of assets. The Articles of Incorporation will also be amended to limit the payment of common stock dividends under certain circumstances.

The proposed issue and exchange of new common stock have been submitted to the Public Service Commission of Ohio for its approval and Dayton seeks exemption from the provisions of sections 6 (a) and 7 of the act in respect of such matters.

Columbia requests that the order to be issued with respect to the proposed transactions conform with the provisions of sections 371, 373 and 1808 (f) of the Internal Revenue Code, as amended, and Section 270-c (10) of the New York Stock Transfer Tax.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said application-declaration and that said application should not be granted or said declaration should not be permitted to become effective except pursuant to further order of the Commission;

It is hereby ordered, That a hearing be held upon said matters on May 15, 1946 at 10 a. m., e. d. s. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve, by registered mail, a copy of this order on the Public Service Commission of Ohio, United, Columbia, and Dayton; and that said notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard in connection with these proceedings or proposing to intervene herein shall file with the Secretary of the Commission on or before May 13, 1946 his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed issue and exchange of new common stock is solely for the purpose of financing the business of Dayton and has been expressly authorized by the State Commission of the State in which it is organized and doing business;

(2) Whether the proposed method of sale of the common stock of Dayton and the terms and conditions thereof are appropriate in the public interest and the interests of investors and consumers;

(3) Whether the proposed accounting entries to be recorded on the books of Columbia in connection with the proposed transactions are consistent with sound accounting principles and conform to the standards of the act;

(4) Whether the fees, commissions or other remunerations to be paid in connection with the issue, sale or distributions of the Dayton common stock are reasonable;

(5) Generally, whether the proposed transactions comply with the applicable provisions of the act and the rules, regulations and orders promulgated thereunder;

(6) Whether, in the event the application-declaration shall be granted and permitted to become effective, it is necessary to impose any terms or conditions to ensure compliance with the standards of the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[WFO 15, Amdt. 5]

PART 1401—DAIRY PRODUCTS

War Food Order No. 15, as amended (9 F.R. 2072, 4321, 4319, 9584; 10 F.R. 103, 126, 10419), is hereby further amended to read as follows:

§ 1401.1 *Cheddar cheese and process Cheddar cheese.*—(a) *Definitions.* (1) "Cheddar cheese", frequently called "American cheese" or "American Cheddar cheese", means Cheddar cheese (produced in the United States) as defined in the definition and standards of identity for Cheddar cheese (21 CFR, 1941 Cum. Supp. 19,500), issued on January 6, 1941, pursuant to the Federal Food, Drug, and Cosmetic Act.

(2) "Process Cheddar cheese" means the product prepared by grinding and mixing one or more lots of Cheddar cheese into a homogeneous plastic mass (i) by the action of heat, with or without the addition of salt, water, or color, and with or without the incorporation of not more than 3 percent of a suitable emulsifying agent, and (ii) containing not more than 40 percent, by weight, of moisture, and in the water-free substance containing not less than 50 percent, by weight, of milk fat (sweet cream may be added to increase the fat content to the required percentage).

(3) "Person" means any individual, partnership, corporation, association, or any other business entity or organized group of persons, whether incorporated or not.

(4) "Authorized cheese assembler" means any person who holds a letter of authority, in force and effect, issued to him by the Administrator, to receive Cheddar cheese set aside pursuant to the provisions hereof.

(5) "Set aside" means to set aside and hold for sale and delivery to any designated agency.

(6) "Designated agency" means (i) United States Department of Agriculture (including, but not being limited to, any corporate agency thereto); (ii) Dairy Products Marketing Association, Inc.; (iii) the Armed Services of the United States (excluding, for the purposes of this order, United States Army Post Exchanges, United States Navy Ship's Service Departments, and United States Marine Corps Post Exchanges); (iv) War Shipping Administration; (v) Veterans' Administration; and (vi) any other instrumentality or agency designated by the Administrator.

(7) "Armed Services of the United States" means the Army, the Navy, the Marine Corps, and the Coast Guard of the United States.

(8) "U. S. No. 1" and "U. S. No. 2" mean Cheddar cheese of U. S. No. 1 grade (U. S. Grade A) and U. S. No. 2 grade (U. S. Grade B), respectively, as defined in the "Tentative U. S. Standards for Grades of American Cheddar Cheese", issued by the Food Distribution Administration, effective as of May 1, 1943. Whenever new standards are issued by the Production and Marketing Administration or promulgated by the Secretary of Agriculture, "U. S. No. 1" and "U. S. No. 2" shall mean Cheddar cheese of U. S. No. 1 (U. S. Grade A) and U. S. No. 2 grade (U. S. Grade B), respectively, as specified in such new standards.

(9) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture, or any officer or employee of the Department to whom the Administrator has heretofore lawfully delegated, or to whom he may hereafter lawfully delegate, the authority to act in his stead.

(b) *Restrictions.* (1) Each person who has produced more than 8,000 pounds of Cheddar cheese in any calendar month from May 1945 to April 1946, inclusive, shall set aside in May 1946, and in each subsequent calendar month, a quantity of Cheddar cheese equal to such percentage as the Administrator may order of all Cheddar cheese produced by such person in May 1946 and each subsequent calendar month regardless of the quantity produced by such person during or subsequent to May 1946.

(2) Each person who has not produced more than 8,000 pounds of Cheddar cheese in any calendar month from May 1945 to April 1946, inclusive, but who produces more than 8,000 pounds of Cheddar cheese in May 1946, or any subsequent calendar month, shall thereafter, in each calendar month, set aside a quantity of Cheddar cheese equal to such percentage as the Administrator may order of all Cheddar cheese produced by such person in each such calendar month regardless of the quantity of Cheddar cheese produced by such person in any month subsequent to the one, as aforesaid, in which he produced more than 8,000 pounds of Cheddar cheese.

(3) In the event of a change in ownership with respect to a cheese factory, the production record of the former owner with respect to such cheese factory shall be the basis for reporting and setting aside Cheddar cheese by the new owner; and the purchaser of the cheese factory shall so report and set aside Cheddar cheese, if (i) the person from whom he purchased the cheese factory was obligated to report and set aside Cheddar cheese, or (ii) the purchaser is required by other provisions hereof to report and set aside Cheddar cheese.

(4) Any person who, during a particular calendar month, sets aside and sells, in the aggregate, to any designated agency or agencies a quantity of Cheddar cheese in excess of the quantity required to be set aside by the provisions hereof or Administrator's order pursuant hereto may be permitted by the Administrator, if the Administrator determines that such is necessary or appropriate in the public interest and to promote the national defense, to utilize as a credit against his set-aside obligation, during any subsequent calendar month specified by the Administrator, the quantity which he set aside and sold to said agency or agencies in excess of his set-aside obligation.

(5) Any person who is required by the provisions of this order to set aside Cheddar cheese may, at his option, sell or deliver all or part of the Cheddar cheese set aside, pursuant to the provisions hereof, to any authorized cheese assembler who agrees to set aside, out of the Cheddar cheese owned by such person, a quantity of Cheddar cheese equal to the quantity of such set-aside Cheddar cheese received by him; and such authorized cheese assembler shall so set aside such quantity of Cheddar cheese. An authorized cheese assembler shall not, however, sell or deliver set-aside Cheddar cheese to another authorized cheese assembler unless the authorized cheese assembler to whom such Cheddar cheese is to be delivered has applied to, and received from, the Administrator specific written authorization to receive such Cheddar cheese. Each person delivering or shipping Cheddar cheese to an authorized cheese assembler shall deliver with each such delivery or shipment, a certificate, in duplicate, in substantially the following language (with the appropriate information inserted in the blank spaces):

This is to certify that of the ------ pounds of Cheddar cheese shipped or delivered on ---------- ---------- pounds are Cheddar cheese set aside pursuant to the provisions of War Food Order No. 15, as amended, and such amount of set-aside Cheddar cheese is required to be set aside by you pursuant to the provisions of said order, as amended. The balance of ------ pounds is Cheddar cheese free from the restrictions of said order, as amended.

(Signature of manufacturer)

This will acknowledge receipt of the above indicated quantity of Cheddar cheese set aside pursuant to said order, as amended.

(Signature of authorized cheese assembler)

The aforesaid certificate, in duplicate, shall be signed (i) by the authorized cheese assembler who shall return one copy to the person who delivered or shipped the Cheddar cheese, and (ii) shall retain the original for two years after the date of receipt thereof.

(6) All Cheddar cheese set aside pursuant to the provisions hereof shall be stored under the same conditions of storage customarily observed to maintain the grade and quality of Cheddar cheese, and shall be packaged and assembled for delivery in accordance with requirements and specifications of the designated agencies purchasing such cheese. At least 80 percent of the Cheddar cheese thus set aside pursuant to the provisions hereof shall be U. S. No. 1 grade or better, and the remainder shall be not less than U. S. No. 2 grade: *Provided, however*, That if the manufacturer shows by grading certificates issued by the Production and Marketing Administration, United States Department of Agriculture, that all of the Cheddar cheese of U. S. No. 1 grade or better produced by him is less than the quantity required to be set aside pursuant hereto, the quantity to be set aside shall include all of the U. S. No. 1 grade or better manufactured or received by such person and the remainder may be U. S. No. 2 grade: *Provided, further*, That if the manufacturer shows by grading certificates, issued by the said Production and Marketing Administration that the total quantity of Cheddar cheese of U. S. No. 2 grade or better produced by him in the month in which it is required to be set aside is less than the quantity of Cheddar cheese required to be set aside in such month, he shall set aside all of the Cheddar cheese of U. S. No. 2 grade or better produced by him in such month and an additional quantity of lower grade Cheddar cheese to fulfill the total set-aside requirements of this order. Grades as determined by official inspectors of the Production and Marketing Administration shall be final in all cases.

(7) Any person who has contracted with or hereafter contracts with any designated agency for the delivery of process Cheddar cheese may deliver such cheese, in accordance with the contract, and credit it against his set-aside obligation, pursuant to the provisions of this order, at the rate of 95 pounds of Cheddar cheese for each 100 pounds of process Cheddar cheese delivered, as aforesaid, to a designated agency: *Provided*, That no person is authorized to convert such set-aside Cheddar cheese into process Cheddar cheese prior to the execution of a contract, as aforesaid, for the delivery of such process Cheddar cheese.

(8) No person may serve as an authorized cheese assembler unless he has received from the Administrator a letter of authority in force and effect to serve as an authorized cheese assembler. Any person who desires to become an authorized cheese assembler, or to serve as an authorized cheese assembler after May 1, 1946, shall file with the Administrator an application, upon a form approved by the Administrator, setting forth the information requested in said form of application. The application shall contain, among other things, a statement by the person submitting such application that he will not refuse to purchase or accept delivery of set-aside Cheddar cheese solely because the vendor is not willing to sell to the respective authorized cheese assembler an additional quantity of Cheddar cheese not set aside or required to be set aside hereunder. An authorized cheese assembler shall have the following facilities and be able to perform the following functions: (i) Accumulate carlots of Cheddar cheese for shipment; (ii) storage space with ample capacity and satisfactory temperature and humidity controls; (iii) maintain adequate equipment and facilities for paraffining Cheddar cheese, moisture analysis, grading, branding, shipping, and ample capital for financing the inventories of Cheddar cheese; (iv) substitute for Cheddar cheese of quality unacceptable to any designated agency and in packages not suitable for export, according to the standards specified by said agency, Cheddar cheese of acceptable

quality and in packages meeting the specifications of said agency; and (v) maintain a satisfactory system of records and accounts with respect to Cheddar cheese, and supply promptly, from month to month, correctly prepared reports with respect to Cheddar cheese and process Cheddar cheese. The Administrator shall consider each such application and issue a letter of authority for such period of time as may be specified therein, if the Administrator determines that the issuance of such letter of authority to serve as an authorized cheese assembler is necessary or appropriate in the public interest and to promote the national defense. No person shall represent himself to be an authorized cheese assembler unless he holds a letter of authority duly issued by the Administrator and in force and effect at the time of such representation. No person other than an authorized cheese assembler holding a letter of authority in force and effect shall receive or, after receipt, deal in Cheddar cheese set aside pursuant to the provisions hereof.

(9) On and after July 1, 1946:

(i) No producer of Cheddar cheese shall, unless authorized in writing by the Administrator, produce Cheddar cheese so long as the total quantity of Cheddar cheese, set aside pursuant to the provisions of this order, owned by such person is equal at least to the total quantity of all Cheddar cheese required, by the provisions of this order, to be set aside by such person during the two calendar months immediately preceding the then current calendar month; and

(ii) No authorized cheese assembler shall, unless authorized in writing by the Administrator, buy, contract to buy, accept delivery of, or otherwise acquire Cheddar cheese so long as the total quantity of Cheddar cheese, set aside pursuant to the provisions of this order, owned by such person is equal at least to the total quantity of Cheddar cheese required, by the provisions of this order, to be set aside by such person during the two calendar months immediately preceding the then current calendar month.

(10) Each producer, as aforesaid, and each authorized cheese assembler, respectively, shall retain in his possession at all times a quantity of set-aside Cheddar cheese which is equal to the total quantity of Cheddar cheese required to be set aside by each such person minus the quantity of set-aside Cheddar cheese (i) sold and delivered by such person to authorized cheese assemblers or designated agencies, and (ii) released from the set-aside provisions hereof.

(11) The Administrator may release any Cheddar cheese from the restrictions of this order if he determines that no designated agency has contracted for, or declared its intention or desire to contract for, such Cheddar cheese within such period as he may specify, or that such Cheddar cheese is not required for such agencies. The Administrator may issue such administrative rulings, regulations, interpretations, and exemptions as he deems necessary to facilitate, expedite, and accomplish the purposes of this order.

(12) The provisions of this order and of any regulation or order pursuant hereto shall be observed without regard to contracts heretofore or hereafter entered into or any rights accrued or payments made thereunder. Petitions for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Administrator may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(f) *Violations.* Any person who violates any provision of this order or of any regulation or order pursuant hereto, may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using Cheddar cheese or process Cheddar cheese. In addition, any person who wilfully violates any provision of this order or of any regulation or order pursuant hereto is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(g) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture of the United States, insofar as such powers relate to the administration of this order, are hereby delegated to the Administrator; and the Administrator is hereby authorized to redelegate to any employee or employees of the United States Department of Agriculture any or all of the authority vested in the Administrator by this order.

(h) *Communications.* All reports to be filed pursuant hereto and all communications concerning this order shall, except as provided herein or unless instructions to the contrary are issued by the Administrator, be addressed to the Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. DRIED SKIM MILK

The order (10 F.R. 11847), issued on September 13, 1945, which, among other things, suspended the provisions of § 1401.25 (b) (2) of War Food Order No. 54, as amended (8 F.R. 7210; 9 F.R. 2875, 4321, 4319, 9584; 10 F.R. 103, 126, 10419), is hereby vacated, effective as of 12:01 a. m., e. s. t., May 1, 1946.

Also, the said War Food Order No. 54, as amended and as herein reinstated, is further amended, effective as of 12:01 a. m., e. s. t., May 1, 1946, to read as follows:

§ 1401.25 *Dried skim milk required to be set aside*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent thereof:

(1) "Skim milk" means cows' milk from which the milk fat has been separated.

(2) "Dried skim milk" means all products containing 1½ percent or less, by weight, of butterfat, which are made by drying cows' milk, from which all or part of the milk fat has been separated and to which no other substance or ingredient has been added, and which are sold for human consumption or used in the manufacture of any other product which is sold for human consumption.

(3) "Spray dried skim milk" means dried skim milk made by a spray process.

(4) "Roller dried skim milk" means dried skim milk made by a roller process.

(5) "U. S. Standard Grade" means U. S. Standard Grade as defined in "Tentative U. S. Standards for Grades of Dried Skim Milk and Dried Whole Milk," issued by the then Food Distribution Administration, and dated May 14, 1943, and whenever new standards are issued by the Department of Agriculture, or promulgated by the Secretary of Agriculture, the term "U. S. Standard Grade" shall mean U. S. Standard Grade as specified in such new standards.

(6) "Person" means any individual, partnership, corporation, association, or any other business entity.

(7) "Producer" means any person who makes dried skim milk.

(8) "Authorized receiver" means any person who has facilities or access to facilities which enable him to receive, store, and ship dried skim milk in carload lots, who customarily ships dried skim milk in carload lots, and who holds a letter of authority, issued by the Administrator, to receive dried skim milk pursuant to the provisions hereof.

(9) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture, or any officer or employee of the Department to whom the Administrator has heretofore lawfully delegated, or to whom he may hereafter lawfully delegate, the authority to act in his stead.

(10) "Set aside" means to set aside and hold for sale and delivery to designated agencies.

(11) "Designated agencies" means any of the following agencies: (i) The Armed Services of the United States (excluding, for the purpose of this order, the United States Army post exchanges, United States Navy Ships' Service Departments, and United States Marine Corps post exchanges); (ii) the United States Department of Agriculture (including, but not limited to, any corporate agency thereof); (iii) the War Shipping Administration; (iv) the United States Veterans' Administration; and (v) any other instrumentality or agency designated by the Administrator.

(12) "Armed Services of the United States" means the Army, the Navy, the Marine Corps, or the Coast Guard of the United States.

(b) *Restrictions on producers or authorized receivers of dried skim milk.* (1) The provisions of this order shall apply separately to spray dried skim milk and roller dried skim milk.

(2) Every producer shall set aside, in each calendar month, a quantity of dried skim milk equal to such percentage as the Administrator may order of all dried skim milk produced by him in that month.

(3) Any person required by the provisions of (b) (2) hereof to set aside dried skim milk may, at his option, sell or deliver all or a part of the dried skim milk, set aside pursuant to the provisions hereof, to any authorized receiver who agrees to set aside, out of the dried skim milk in his possession or control, and in addition to any dried skim milk otherwise required to be set aside by him, a quantity of dried skim milk equal to the quantity of set-aside dried skim milk thus purchased or received by him, and such authorized receiver shall so set aside such quantity of dried skim milk. An authorized receiver shall not sell or deliver set-aside dried skim milk to another authorized receiver unless the authorized receiver thus purchasing dried skim milk has applied to the Administrator for, and received from him, specific authorization to receive such dried skim milk. Each person delivering or shipping dried skim milk to an authorized receiver shall deliver to such authorized receiver a certificate, in duplicate, in such form as may be prescribed by the Administrator, stating the quantity of set-aside dried skim milk so delivered or shipped. The aforesaid certificate shall be signed in duplicate by the authorized receiver who shall return one copy to the producer, who delivered

or shipped the dried skim milk; and the authorized receiver shall retain the original certificate for two years after the date of receipt thereof.

(4) On and after July 1, 1946: (i) No producer shall, unless authorized in writing by the Administrator, produce dried skim milk so long as the total quantity of dried skim milk set aside pursuant to the provisions of this order, and owned by such person, is equal at least to the total quantity of all dried skim milk required, by the provisions of this order, to be set aside by such person during the two calendar months immediately preceding the then current calendar month; and (ii) no authorized receiver shall, unless authorized in writing by the Administrator, contract to buy, buy, accept delivery of, or otherwise acquire dried skim milk so long as the total quantity of dried skim milk set aside pursuant to the provisions of this order, and owned by such person, is equal at least to the total quantity of dried skim milk required, by the provisions of this order, to be set aside by such person during the two calendar months immediately preceding the then current calendar month. Each producer and each authorized receiver, respectively, shall retain in his possession at all times a quantity of set-aside dried skim milk which is equal to the total quantity of dried skim milk required to be set aside by each such person minus the total quantity of dried skim milk (i) sold and delivered by each such person to authorized receivers or designated agencies, and (ii) released from the set-aside provisions of this order.

(5) Upon receipt of specific authorization from the Administrator, any producer may enter into an agreement with a second producer, and any producer or authorized receiver may enter into an agreement with a second authorized receiver, whereby the second producer or second authorized receiver will set aside, in addition to any dried skim milk otherwise required to be set aside by him, a quantity of dried skim milk equal to all or part of the dried skim milk required to be set aside by the first producer or authorized receiver, and the second producer or second authorized receiver shall so set aside such quantity of dried skim milk within such period as the Administrator may specify, thereby fulfilling the requirements of the first producer or authorized receiver pursuant to (b) (2) and (b) (3) hereof, with respect to such quantity of dried skim milk.

(6) All dried skim milk set aside pursuant to the provisions hereof shall be of U. S. Standard Grade or better, unless (i) the producer arranges with an authorized receiver to deliver dried skim milk below U. S. Standard Grade to such receiver who will set aside an equal quantity of dried skim milk which is of U. S. Standard Grade or better, (ii) the producer or authorized receiver arranges with a designated agency to accept delivery of dried skim milk below U. S. Standard Grade, from such producer or authorized receiver, or (iii) the producer submits evidence to the Administrator, in the form of grading certicates issued by the Department of Agriculture, or in such other form as is satisfactory to the Administrator, that the quantity of dried skim milk of U. S. Standard Grade or better produced by such producer in the month is less than the quantity required to be set aside by him in such month, in which case he shall set aside a quantity of dried skim milk of U. S. Standard Grade or better equal to the quantity of dried skim milk of U. S. Standard Grade or better produced by him, in such month, and an additional quantity of lower quality dried skim milk sufficient to fulfill the total set-aside requirements of this order. The grades of dried skim milk as determined by official inspectors of the Department of Agriculture shall be final in all cases.

(7) All dried skim milk set aside pursuant to the provisions hereof shall be packaged in new standard commercial barrels, in accordance with "Specifications for Barrels and Liners for Dried Skim milk" (Form FSC 1718-B), and any amendments thereo, issued by the Agricultural Marketing Administration, United States Department of Agriculture, or in such containers as may be acceptable to the designated agencies purchasing the dried skim milk. It shall be stored under the same conditions of storage customarily observed to maintain the grade and quality of dried skim milk for human food, and it shall be assembled for delivery to designated agencies in carload lots or such other quantities as may be acceptable to the designated agencies purchasing the dried skim milk.

(8) Any receiver who desires to become an authorized receiver shall file with the Administrator an application, upon a form approved by the Administrator, setting forth the information requested in said form of application. Thereupon, the Administrator shall consider such application and issue a letter of authority if, in the opinion of the Administrator, the issuance of such letter of authority will tend to effectuate the purposes of this order. Any letter of authority may be revoked at any time by the Administrator. No person shall represent himself to be an authorized receiver unless he holds a letter of authority duly issued by the Administrator pursuant to the provisions hereof. No person other than a designated agency or an authorized receiver shall receive, or after receipt, deal in dried skim milk set aside pursuant to the provisions hereof.

(9) The Administrator may release any dried skim milk from the restrictions of this order if he determines that no designated agency has contracted for, or declared its intention or desire to contract for, such dried skim milk within such periods as he may specify, or that such dried skim milk is not required for such agencies. The Administrator may issue such administrative rulings, regulations, interpretations, and exemptions, as he deems necessary to facilitate, expedite and accomplish the purposes of this order.

(10) The restrictions hereof shall be observed without regard to the rights of creditors, existing contracts or payments made. This order shall not, however, be construed as reducing the amount of dried skim milk which any person is required to offer or deliver to any designated agency under existing contracts, or contracts subsequently entered into with any such designated agency.

(c) *Records and reports.* (1) The Administrator shall be entitled to obtain such information from, and to require such reports and the keeping of such records by, each producer and each authorized receiver, as well as any other person to whom this order applies, as may be necessary or appropriate, in the Administrator's discretion, to the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Administrator may designate) maintain an accurate record of his transactions in dried skim milk.

(d) *Audits and inspections.* The Administrator shall be entitled to make such audits or inspections of the books, records and other writings, premises, or stocks of dried skim milk, of any producer, authorized receiver, or any other person to whom this order applies, and to make such investigations as may be necessary or appropriate, in the Administrator's discretion, to the enforcement or administration of the provisions of this order.

(e) *Applicability of order.* Any person doing business in one or more of the forty-eight States of the United States or the District of Columbia is subject to the provisions of this order, but the provisions of this order shall not apply to any person doing business in any territory or possession of the United States with respect to such business.

(f) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may petition in writing for relief to the Administrator, setting forth all pertinent facts and the nature of the relief sought. The Administrator may thereupon take such action as he deems appropriate, and such action shall be final.

(g) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using dried skim milk. In addition, any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(h) *Communications.* Each report required to be filed hereunder and each communication concerning this order shall, unless otherwise provided herein, or in instructions issued by the Administrator, be addressed to: Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., Ref. WFO-54.

(i) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture of the United States, insofar as such powers relate to the administration of this order, are hereby delegated to the Administrator. The Administrator is authorized to redelegate to any other officer or employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

With respect to violations, rights accrued, liabilities incurred, or appeals taken under the said War Food Order No. 54, as amended, prior to the effective time of the provisions of this order, all provisions of the said War Food Order No. 54, as amended, in effect prior to the effective time of the provisions of this order shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

(p) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Assistant Administrator. After said review, the Assistant Administrator may take such action as he deems appropriate, which action shall be final.

AUTHORITY: §§ 1.1 to 1.19 inclusive, issued under sec. 2, Art. II, United States Constitution; sec. 327, 35 Stat. 1151, sec. 10, 36 Stat. 821; 18 U.S.C. 568, 723.

§ 1.1 *Submission of petition.* A formal petition for Executive clemency, addressed to "The President of the United States", executed in duplicate and signed by the petitioner, must be submitted to "The Attorney General" before the question of Executive clemency will be considered. Appropriate forms of petition will be supplied by the Department upon application therefor. These forms may also be obtained from the wardens of the several Federal institutions.

§ 1.2 *Contents of petition; endorsement.* The petition should state the name of the applicant, his age, previous criminal record, if any, whether a citizen of the United States or an alien, and if naturalized, his nationality, the date of his naturalization, his previous occupation and place of residence, the crime of which he was convicted and the court, district, State, sentence, date of sentence, the penitentiary or prison to which he was sentenced, and the grounds upon which clemency is asked. The petition should be endorsed by two or more credible persons who know the petitioner and are familiar with the facts in the case. (See also § 1.16 as to petitions for Executive clemency after completion of sentence). Additional petitions may be presented signed by citizens generally, but the post-office address of each person so signing should be plainly stated.

§ 1.3 *Time of filing petition.* Petitions should be filed sufficiently in advance of the date when action is desired to enable the pardon attorney to secure the necessary reports and prepare the case, and to allow the Attorney General and the President time to give the petition appropriate attention.

§ 1.4. *Petitions of persons convicted by military or naval courts.* Petitions for Executive clemency by persons convicted in military or naval courts or tribunals should be sent to the Secretary of War or the Secretary of the Navy.

§ 1.5 *Offenses against United States laws in Territories.* Petitions relating to offenses committed against the United States in Puerto Rico, Hawaii, Virgin Islands and Canal Zone, and both Federal and Territorial offenses committed in Alaska should be addressed to the President of the United States, and follow the outline indicated in § 1.2. In an urgent case such a petition may be presented to the United States attorney for the Territory or division in which the petitioner was convicted, who will proceed in accordance with § 1.11 and forward the petition with the required reports and recommendations to the Attorney General. If the petitioner is confined in an institution within the Territory, the United States attorney will procure and forward reports from the warden and the institutional physician.

§ 1.6 *Offenses against Territorial laws.* Petitions relating to offenses against Territorial laws, except in Alaska, should be sent to the Governor or Board of Pardons of the Territory where the offense was committed.

§ 1.7 *Eligibility for filing petition.* A petition for Executive clemency will not be regularly entertained until after the person convicted has served some portion of the term of imprisonment, nor, if such term is more than one year, unless he has reached his parole eligibility date and been denied parole. Every prisoner applying before his parole eligibility date must show why parole procedure, in due course, would not substantially meet the requirements of his case.

§ 1.8. *Persons on parole.* A petition for Executive clemency by a person on

parole will not be entitled to be referred under § 1.11, unless the petitioner has been under parole supervision not less than four years. (See § 1.16.)

§ 1.9 *Petitions pending appeals.* Petitions for Executive clemency will not be submitted to the President pending appeals from judgments of conviction; nor shortly before the expiration of sentence, except in unusually urgent and meritorious cases.

§ 1.10 *Time spent in jail.* Time spent in jail before commitment to imprisonment pursuant to final judgment of conviction will not be regarded as a ground for Executive clemency.

§ 1.11 *Referral to United States attorney.* When a petition is received it shall, subject to §§ 1.7, 1.8 and 1.16, be referred at once, with the accompanying papers, to the United States attorney for the district where the trial took place, directing him to submit his report and recommendation thereon, sending also the statement of his predecessor if he had charge of the case, and the statement of any assistant United States attorney or special attorney for the Government who took part in the trial. He is also directed to secure the recommendation and statement of the sentencing judge, if obtainable, and to furnish excerpts from the docket entries from which a warrant of pardon may be prepared. Reports shall also be secured from the appropriate officers of the several executive departments, from the warden or other custodian, and, if deemed advisable, from the prison physician.

§ 1.12 *Advance report of United States attorney.* It is also permissible, where the exigencies require it, for the United States attorney to submit his report and recommendation, together with the other required reports, in advance of, and without a definite request from the Attorney General.

§ 1.13 *Submission to President.* When none of the officers consulted in compliance with § 1.11 advises clemency, the papers shall not be sent to the President, except in capital cases or by his special request, or by special order of the Attorney General, but, subject to §§ 1.7, 1.8 and 1.16, when any one of the officers consulted advises clemency the papers shall be submitted to the President.

§ 1.14 *Reopening of cases.* A case once referred for reports will not be again referred without a written request from the United States attorney or the sentencing judge, and a case once acted upon by the President will not be reopened except upon the presentation of new and material facts.

§ 1.15 *Reports confidential.* Reports to the President, by United States attorneys, judges and other officials are confidential, and are not open to inspection by the petitioner or by any other persons, except with the written assent of the attorney, judge, or official making the report, nor, if such assent be given, unless it be shown that the ends of justice require its disclosure. All other papers, except reports or communications to the President or to the Attorney General by officials, are open to inspection by the petitioner and his attorney or representative.

§ 1.16 *Pardon after completion of sentence, period of time required.* A petition for pardon after completion of sentence will not be referred for reports unless the petitioner has been released from custody not less than three years and is not on parole or probation. A longer period may be required before favorable action is taken, dependent largely on the nature of the offense and the character of the petitioner, both before and since his conviction. In cases of perjury, subornation of perjury, or violation of a public trust involving personal dishonesty, or other crimes of a serious nature, the lapse of five years after release is usually required: *Provided further*, That, when the sentence of a prisoner on parole has been commuted upon a petition presented under § 1.8, a petition for pardon will not be referred for reports unless the petitioner has been discharged from supervision not less than two years.

§ 1.17 *Pardon after completion of sentence, affidavits of character.* A petition for pardon after completion of sentence must, in addition to the requirements of § 1.2, state the present address of the petitioner, and be accompanied by affidavits from at least three reputable citizens stating their knowledge of the applicant's character, reputation and occupation since his release from custody. Blank petitions and affidavit forms will be forwarded on request.

§ 1.18 *Investigation of petitioner's record and conduct.* The record and conduct of each petitioner for pardon after completion of sentence shall be thoroughly investigated by the Federal Bureau of Investigation on request of the United States attorney to whom the petition has been referred.

§ 1.19 *Notification of result.* When final action is taken, the petitioner or his attorney is notified of the result. Where clemency is extended to a person in confinement the official warrant of pardon or commutation is sent to the petitioner through the United States Marshal or the officer in charge of the place of confinement. In cases where sentence has been completed the warrant is sent to the petitioner.

TOM C. CLARK,
Attorney General.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 17]

SALE OF CARBON STEEL BLACK ANNEALED OR GALVANIZED WIRE BY WAR ASSETS ADMINISTRATION

The following direction is issued pursuant to Priorities Regulation 13:

(a) *What this direction does.* There is an urgent need for carbon steel black annealed or galvanized wire suitable for use in making wire bale ties for baling hay, straw, alfalfa, other farm products, paper and rags, since this type of wire is not readily obtainable in sufficient quantities from new production.

The purpose of this direction is to earmark not more than 7,500 tons of carbon steel black annealed or galvanized wire in gauges 12–16 inclusive held by War Assets Administration as surplus property, and to make this material available for the above uses. It permits sales by WAA only to buyers who give the certification described in paragraph (b), except that 15% of any lot may be disposed of to other buyers. The direction only applies to wire of the type described which is declared surplus in Iowa, Minnesota, Missouri, or states east of the Mississippi River.

Although this direction restricts certain sales to persons who will use the wire for the purposes specified, it does not prohibit WAA from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as WAA may determine; and preference ratings have no effect upon any sales which may be made by WAA, either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction who shall get the material from WAA.

(b) *Restriction on sales by WAA.* WAA may not sell wire of the type described in paragraph (a), except to purchasers described below:

(1) With respect to any lot of wire which WAA determines is available for sale, 85% may be sold only to buyers who give a certificate with their purchase orders in substantially the following form:

> The undersigned certifies to the seller and CPA subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that (1) he is a producer of wire bale ties; and (ii) the material obtained under this purchase order will be used only for the production of wire bale ties suitable for use in baling hay, straw, alfalfa, other farm products, paper and rags.

The standard certificate in Priorities Regulation 7 may not be used instead of this certificate.

(2) The other 15% may be sold freely to other buyers in accordance with the Surplus Property Act of 1944 and applicable regulations of WAA.

(c) *Obligations of persons giving certificates.* Any person giving the certificate described above may obtain and use the material he gets with the certificate only in accordance with its terms.

(d) *Expiration date.* Unless sooner revoked this direction shall expire on July 31, 1946, or as soon as WAA has sold to buyers under paragraph (b) (1) 7,500 tons of the type of wire described in paragraph (a), if that occurs before July 31, 1946. The expiration of the direction shall not relieve any person who has obtained wire by use of the certificate referred to above from the obligation of using the wire in accordance with the certificate which he has given.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 1A, as Amended May 1, 1946]

SOFTWOOD PLYWOOD

The fulfilment of requirements for the defense of the United States has created a shortage in the supply of softwood plywood for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) *What this direction does.* Priorities Regulation 33 and Direction 8 to Priorities Regulation 33 provide for the assignment to builders and prefabricators of priorities assistance to secure materials listed on Schedule A of PR 33 and List I of Direction 8 to PR 33 which are required for use in the Veterans' Housing Program. Among these items is softwood plywood. This direction provides that the manufacturers of softwood plywood shall produce a percentage of their total production in construction and door panel grades and reserve a percentage of those grades for certified orders from prefabricators, distributors, cabinet manufacturers, stock door manufacturers and housing contractors. It provides that the softwood plywood reserved and the product into which it is incorporated, may only be sold on certified orders or HH rated orders.

(b) *Definitions for the purpose of this direction.* (1) "Softwood plywood" means laminated veneers of any species of softwood united with a bonding agent to produce board.

(2) "Construction plywood" means plywood of one or more softwood panels, 12 feet and shorter and without external sealer treatment of the following grades: Interior (moisture resistant) type as follows: ¼" wallboard; ⅜" wallboard; ¼" sound one side plypanel; ⅜" sound one side plypanel; 5/16" sheathing; ⅜" sheathing; ½" sheathing and ⅝" sheathing; and Exterior type ¼" sound one side plypanel and ⅜" sound one side plypanel.

(3) "Door plywood" means softwood plywood, Interior (moisture resistant) and Exterior type without external sealer treatment of ¼" sound two sides door plypanel.

(4) "Plywood manufacturer" means a person engaged in the manufacture of softwood plywood.

(5) "Prefabricator" means a person engaged in the manufacture of prefabricated houses, panels or sections who has been granted priorities assistance on Form CPA-4415 to build prefabricated houses, panels or sections.

(6) "Housing contractor" means a builder (applicant) who has been directly assigned an HH rating by CPA, FHA or NHA. It also includes a general contractor who has been directly authorized by such a builder to use the HH rating for the whole job. It does not include a subcontractor authorized to use the HH rating for a part of the job.

(7) "Distributor" means a person who buys and stocks softwood plywood for resale as plywood at wholesale or retail.

(8) "Cabinet manufacturer" means a person who produces kitchen cabinets for built-in installation in housing.

(9) "Stock door manufacturer" means a person who consumes softwood plywood in the manufacture of standard house doors.

(10) "Square footage" means measurement on a ⅜" rough basis.

(11) "Certified order" means any order for the delivery of softwood plywood bearing the certificate prescribed in paragraph (j).

(12) "Person" means any individual, partnership, association, business trust corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

Plywood Manufacturers

(c) *Plywood manufacturers reserve production.* The following conditions will govern the amount of construction plywood and door plywood, plywood manufacturers shall produce and reserve for certified orders:

(1) Each softwood plywood manufacturer shall reserve in his total over-all production of softwood plywood in square footage for the month of April, 1946, and for each calendar month thereafter, time and supplies sufficient to produce and deliver within such month; (i) at least 45% of his expected monthly production of softwood plywood in the form of construction plywood of which not more than 20% of the construction plywood may be in exterior type; (ii) at least 5% of his expected monthly production of softwood plywood in the form of door plywood, for delivery on certified orders.

The CPA may from time to time change such percentages by amendments published in the Federal Register prior to the first day of any month.

(2) Every plywood manufacturer must reserve 60% of his total production of construction plywood in square footage beginning with the month of April, 1946, and in each calendar month thereafter, for delivery on certified orders. A plywood manufacturer must hold the 60% reserve production of construction plywood for certified orders from prefabricators, housing contractors, cabinet manufacturers and distributors and must accept and ship such certified orders in preference to all other orders (except orders rated AAA) to the extent that such certified orders do not require more than 60% of the total monthly production of construction plywood. Any quantities of construction plywood reserved for certified orders from prefabricators, housing contractors, cabinet manufacturers or distributors, which, by the 20th of any month in which production is reserved, are not required to fill certified orders received before that time, may be delivered by the plywood manufacturer as he may desire subject to all applicable orders and regulations of the CPA.

(3) A plywood manufacturer must reserve 40% of his total production of construction plywood in square footage beginning with the month of April, 1946, and for each calendar month thereafter for delivery on uncertified and unrated orders from distributors.

(4) A plywood manufacturer must hold his reserve production of door plywood for certified orders from door manufacturers or distributors and must accept and ship such certified orders in preference to all other orders (except orders rated AAA) to the extent that such certified orders do not require more than the monthly reserve production of door plywood. Any quantities of door plywood manufactured which, by the 20th of any month in which production is reserved, are not required to fill certified orders received before that time, may be delivered by the plywood manufacturer as he may desire subject to all applicable orders and regulations of the CPA.

Prefabricators

(d) The following provisions tell how prefabricators may place with a plywood manufacturer or distributor certified orders for construction plywood:

(1) A prefabricator may place certified orders with a plywood manufacturer or a distributor for construction plywood in the amount for which he has received priorities assistance on Form CPA-4415. A prefabricator must not specify delivery dates (at his plant or warehouse) on certified orders more than 30 days before the time the construction plywood is needed for incorporation into the prefabricated houses, panels, or sections. Furthermore, a prefabricator must not place certified orders for construction plywood in which is specified a delivery date later than during the third calendar month after the time when the purchase order is placed.

(2) A prefabricator must use construction plywood obtained on certified orders in the production of prefabricated houses, panels or sections to be sold on orders rated HH.

(3) A prefabricator may not apply or extend an HH rating for construction plywood.

Housing Contractors

(e) *Housing contractors.* The following provisions tell how a housing contractor may place certified orders or HH rated orders with a plywood manufacturer or distributor for contruction plywood.

(1) A housing contractor may apply the HH rating on orders for construction plywood to a distributor, but not to a plywood manufacturer, or a housing contractor purchasing in not less than carload lots, may place certified orders for mill shipment delivery each month starting with the month of April 1946, with a plywood manufacturer or a distributor, in an amount in square footage not in excess of the total construction plywood required to meet his construction schedule for housing for which he has received priorities assistance on Form CPA-4386. A housing contractor may not place HH rated or certified orders for construction plywood except for use in kitchen cabinets and bathroom and kitchen flooring. He may not apply the HH rating or use a certificate for an amount in excess of 300 square feet per house or apartment. If kitchen cabinets are purchased as millwork the total permissible amount of construction plywood must be reduced by the amount of plywood in the cabinets.

(2) A housing contractor must not specify delivery dates (at site or warehouse) on certified orders or HH rated orders, more than

30 days from the time that the construction plywood is needed for incorporation into the housing. Furthermore, the housing contractor must not place certified orders for construction plywood in which is specified a delivery date later than the third calendar month after the time when the purchase order is placed. A housing contractor may place certified orders for construction plywood only to the extent that HH rated orders have not been placed with a distributor.

(3) A housing contractor must use the construction plywood obtained on certified orders or HH rated orders on housing construction for which the HH rating was authorized.

Cabinet Manufacturers

(f) *Cabinet manufacturers.* The following provisions tell how a cabinet manufacturer may obtain authority to place certified orders with a plywood manufacturer or a distributor for construction plywood for use in drawer bottoms of built-in kitchen cabinets and how the cabinets must be sold:

(1) A cabinet manufacturer wishing to place certified orders with a plywood manufacturer or a distributor for construction plywood to be used in the manufacture of drawer bottoms for kitchen cabinets, shall apply to the CPA for authority to place such orders. A cabinet manufacturer must apply to CPA before May 10, 1946, unless already authorized, for the months of May and June, 1946, and for calendar quarters thereafter must apply at least 20 days before the first day of the quarter, by letter stating: (i) average monthly consumption of construction plywood in drawers for built-in kitchen cabinets in year 1940 (required in first application only); (ii) average anticipated monthly production of kitchen cabinets in units to be produced in the period for which authorization is requested, and (iii) total requirements in 3/8" basis of construction plywood for drawers for built-in kitchen cabinets in item (ii) above. Such application will be processed equitably. A cabinet manufacturer must not specify delivery dates (at plant or warehouse) on certified orders more than 30 days before the time the construction plywood is needed for incorporation into the kitchen cabinet drawers. Furthermore, the cabinet manufacturer must not place certified orders for construction plywood in which is specified a delivery date later than during the third calendar month after the time the purchase order was placed.

(2) A cabinet manufacturer must use the construction plywood received on certified orders in the production of built-in kitchen cabinets suitable for housing. The cabinets manufactured from the construction plywood must be held for sale as millwork and sold in conformity with paragraph (e) (2) of Direction 1 to PR 33 providing for the sale of millwork.

Door Manufacturers

(g) *Door manufacturers.* The following provisions tell how door manufacturers may place with plywood manufacturers or distributors certified orders for door plywood for the manufacture of standard house doors and how the doors must be sold.

(1) A door manufacturer may place certified orders for door plywood for delivery in each month beginning with the month of April, 1946, with the plywood manufacturer or a distributor for an amount in square footage not in excess of 10% of the amount in square footage of door plywood consumed by him in the manufacture of standard house doors in the year 1940.

(2) A door manufacturer must use each month, all the door plywood received on certified orders in the manufacture of standard house doors. The doors so manufactured must be held for sale as millwork and sold in conformity with paragraph (e) (2) of Direction 1 to PR 33 providing for the sale of millwork.

Distributors

(h) *Distributors.* The following provisions tell how distributors may place orders for construction plywood, and how the construction plywood may be sold:

(1) A distributor may place uncertified and unrated orders for delivery each month, starting with the month of April, 1946, for construction plywood, with the plywood manufacturer. A distributor must hold 75 per cent of the construction plywood received after May 1, 1946 for sale only on certified orders or orders rated HH or AAA. Any quantities of construction plywood which at the end of a period of 60 days after receipt, are not required to fill all certified orders or HH or AAA rated orders received before that time, may be delivered by the distributor as he may desire, subject to all applicable orders and regulations of the CPA.

(2) A distributor who has received a certified order for construction or door plywood may place the certified order with a plywood manufacturer to get the construction or door plywood which will be delivered direct to consumer subject to the applicable inventory regulations. A distributor may not place a certified order with a producer for replacement of inventory.

(i) *Newcomers.* (1) A person who in the year 1940 was not established as a cabinet manufacturer or a door manufacturer, and who wants to place monthly certified orders for construction plywood for use in kitchen cabinets or for door plywood for use in standard house doors, may apply to CPA for authorization to place certified orders for a calendar quarter. Authorization will be issued on a quarterly basis and application by letter must be filed at least 10 days before the first day of the calendar quarter for which authorization is asked. The letter should state: (i) location of plant; (ii) amount of equipment and its production capacity to manufacture kitchen cabinets or house doors; (iii) line of kitchen cabinets to be produced; (iv) anticipated monthly production of house doors or kitchen cabinets in which plywood is required; (v) total requirements on a 3/8" basis of plywood for house doors or kitchen cabinets for the next current quarter. Such application will be processed in an equitable manner.

(2) A person receiving authorization to place a certified order under paragraph (i) (1) above, must hold kitchen cabinets or doors manufactured for sale in conformity with the provisions of paragraph (f) (2) and (g) (2) above, respectively.

Certification

(j) *Certification.* To certify an order for construction plywood or door plywood under this direction, the following certificate must be endorsed on or attached to the purchase order, or sales ticket. Certification must be signed manually or as explained in PR 7. However, the standard form described in that regulation may not be used in place of the certificate described in this direction. The certificate described in this direction may not be waived by paragraph (f) under PR 7. The serial number must be inserted by persons holding authorizations on Form CPA-4386 or Form CPA-4415 in the place provided in the certificate.

Prefabricators, housing contractors, cabinet manufacturers, door manufacturers and distributors who place certified orders calling for delivery of construction plywood or door plywood, must use a certificate reading substantially as follows:

The undersigned certifies to the supplier and to the CPA that he is a ------ (prefabricator, housing contractor, cabinet manufacturer, door manufacturer, or distributor) and that the quantities of construction plywood or door plywood covered by this order (together with all other certified orders for construction plywood or door plywood for delivery in the months specified in this order) do not exceed the amount he has been allowed under Direction 1A of PR 33 with the provisions of which he is familiar.

Miscellaneous

(k) *Miscellaneous.* The following provisions generally affecting plywood manufacturers, prefabricators, housing contractors, cabinet manufacturers, door manufacturers and distributors should be carefully read:

(1) *Validation of orders.* Any prefabricator, cabinet manufacturer, door manufacturer or housing contractor who has placed an uncertified order with a plywood manufacturer and is later authorized to place a certified order may validate the order by giving the plywood manufacturer the certificate that he is entitled to use. Any order that is validated subsequent to April 1, 1946, should be treated as though the order was placed on the date that the certificate was received by the plywood manufacturer.

(2) *Applicability of regulations.* Except as otherwise required by this direction Priorities Regulations 1 and 3 govern the use of ratings and the acceptance, scheduling and filling of orders placed with distributors. All other applicable regulations and orders of the Civilian Production Administration must be observed.

(3) *Extension of HH rating.* The HH rating may not be applied or extended to a plywood manufacturer for plywood. However, any person who has received an HH rated order for the delivery of construction plywood may extend the HH rating to his suppliers (except to a construction plywood manufacturer) to get plywood which he will deliver on that order subject to applicable inventory regulations. If a person has made delivery of construction plywood on an HH rated order, he may extend the HH rating to his suppliers (except to a plywood manufacturer) to replace the amount in his inventory subject to the applicable inventory regulations. A millwork manufacturer who has received a HH rated order for millwork or who has delivered millwork on an HH rating, may not extend the HH rating for construction plywood for incorporation into millwork.

(4) *Violations.* Any person who willfully violates any provisions of this direction, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Reports.* Every person shall file with the Civilian Production Administration, or any other federal agency, through which the Civilian Production Administration may distribute plywood, such reports and questionnaires as the Civilian Production Administration or such other agency may from time to time require subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(6) *Appeals.* Any appeal from the provisions of this direction shall be made by mailing a letter in triplicate to the Civilian Production Administration, Forest Products Division, Washington 25, D. C., Ref.: Direction 1A to PR 33 stating the particular provision appealed from and stating fully the grounds for the appeal.

(7) *Communications.* All communications unless otherwise directed must be addressed as follows: Civilian Production Administration, Forest Products Division, Washington 25, D. C.

PART 3290—TEXTILES, CLOTHING AND LEATHER

[Limitation Order L-99, as Amended May 1, 1946]

OPERATION OF LOOMS FOR COTTON BROAD WOVEN FABRIC PRODUCTION

The fulfillment of requirements for the defense of the United States has created a shortage in the production of cotton broad woven fabrics and materials for making cotton broad woven fabrics for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.46 *Limitation Order L-99*—(a) *Operation of looms for cotton broad woven fabric production*—(1) *Purpose.* This order controls the operation of looms for the production of cotton woven fabrics of more than 12" in width.

(2) No person shall, regardless of the presentation of rated orders, operate looms contrary to the provisions in the schedules of this order.

(3) No person shall operate looms formerly operated in the production of cotton broad woven fabrics and which were acquired by him after June 30, 1944, except as specifically authorized in writing by the Civilian Production Administration. The term "acquired" refers not only to the direct purchase of looms but also to obtaining operating control over looms by obtaining control of the corporation which owns them. Application for authorization may be made by letter to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L-99, stating all facts, including the type of fabric he wishes to produce, the name of the person who formerly owned or controlled the looms, and the fabric formerly produced on them.

(b) *Minimum quantities to be produced.* Each person in the business of producing in any calendar quarter after March 31, 1946 any broad woven cotton fabric item marked with an asterisk on Schedule A, or any item in the "May Produce Only" column of Schedule B, must produce in that quarter at least as much yardage of the items within the same group as the greater of the following:

(1) Ninety percent of the linear yardage of such items which he produced in the second quarter of 1944, increased or decreased in inverse proportion to any change in pick he has made since then, or

(2) The linear yardage which can be produced by operating each loom producing such items for at least as many hours as any other loom in his mill is operated.

(c) *Exemptions.* (1) *Special looms.* Jacquard and box looms, and looms which were Dobby head looms on March 8, 1946, are exempt from the provisions of paragraphs (a) and (b) of this order and from Schedules A and B.

(2) *Temporary exemption in certain cases pending appeal action.* Any person who files an appeal for exemption from changing over any looms to produce any item required by Schedule B, may postpone production of the required Schedule B item on these looms until he receives notice by telegram or letter from the Civilian Production Administration of the action taken on his appeal. This temporary exemption applies only to appeals filed on or before April 13, 1946 by registered mail with return receipt requested or by telegraph, and does not apply to any reappeal from action taken on the initial appeal.

(d) *Reports and records.* All persons operating looms for the production of cotton textiles of any kind shall file with the Civilian Production Administration at the times specified in the reporting forms, reports on Forms CPA-658-A, B, and C giving the information therein required. All persons affected by this order shall keep and preserve for a period of not less than two years, accurate and complete records concerning inventories, production and sales. The reporting requirements of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(e) *Appeals.* (1) Any appeal from the provisions of this order shall be made by filing a letter in triplicate addressed to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L-99, referring to the particular provisions appealed from and stating fully the grounds of the appeal. However, in order to qualify under paragraph (c) (2) above for exemption pending appeal from Schedule B requirements, the appeal must be filed on or before April 13, 1946 by registered mail with return receipt requested or by telegraph. Any person who wishes to produce Schedule B items but is not permitted to do so under the terms of Schedules A or B, need specify only the number of looms, the constructions currently produced on them, and the number of looms proposed to be transferred to each different Schedule B construction.

(2) All appeals granted under this order before March 8, 1946 are revoked effective April 13, 1946.

(3) In cases of appeal for suspension of the requirements of paragraphs (a) or (b) on the ground that compliance will result in production at a loss, an application for price relief on that ground must first be filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy filed with the CPA appeal. If the CPA appeal is granted, the requirement of these paragraphs for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(f) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the Civilian Production Administration, as amended from time to time.

(g) *Violations.* Any person who willfully violated any provision of this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(h) *Communications to the Civilian Production Administration.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L-99.

Issued this 1st day of May 1946.

SCHEDULE B

NOTE: Groups 11B, 15B, 16B, 30B and 54 of Schedule B changed by May 1, 1946 amendment.

(1) Looms which at any time during the period March 1, 1942 through February 28, 1946, inclusive, produced any item listed in the "Did Produce" column of Schedule B shall not produce any item now listed in the "Did Produced" column on March 8, 1946 (or the last prior date when the looms were in production) subject to the following requirement:

(i) Upon the applicable Group Number in the "Did Produce" column.

(ii) This requirement is effective on and after April 15, 1946 except that the effective date is April 30, 1946 in the case of looms which make changes to a different step, and is May 15, 1946 in the case of looms which make changes in warp or filling count.

(2) If a loom was covered on March 8, 1946 by an item listed in more than one Group Number of Schedule B it may be selected. A loom may be reassigned at any time from the production of the permitted item to the production of any other item permitted for that loom.

Chapter XI—Office of Price Administration

PART 1380—HOUSE AND SERVICE INDUSTRY MACHINES

[RMPR 86, Amdt. 2]

DOMESTIC LAUNDRY MACHINES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 86 is amended in the following respects:

1. A new section 5a is added to read as follows:

SEC. 5a. *"Additional OPA industry adjustment" of manufacturers' ceiling prices.* This section authorizes an "additional OPA industry adjustment" by manufacturers of their ceiling prices for washing and ironing machines previously established under this regulation. Unless a manufacturer is directed otherwise by an order issued by the Office of Price Administration under this section, every manufacturer of washing and ironing machines may adjust his ceiling price to purchasers other than ultimate consumers determined in accordance with section 3 or section 7 or established before April 30, 1946 by orders issued under sections 9 and 10 of this regulation, by 6.8% of that price. The increase granted in this section is hereby designated as the "additional OPA industry adjustment". Orders will be issued under this section denying a manufacturer permission to adjust his ceiling price by all or part of the increase allowed by this section when it appears to the Price Administrator on the basis of the manufacturer's production reports as filed under Supplementary Order No. 146 and other information available to the OPA, that the manufacturer has discontinued production of his low-end model or has decreased the proportion of low-priced to high-priced models which he manufactures so that his present production is not representative of his production in that respect of those machines during the year July 1, 1940 through June 30, 1941. The average price at which the manufacturer's production of each type of machine will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

The 6.8% "additional OPA industry adjustment" may be made and collected by the manufacturer only if he has complied with the notification requirements of section 19a and the preticketing requirements of section 19 of this regulation.

2. Section 7 (a) (4) is amended to read as follows:

(4) Find your markup factor by dividing the ceiling price of the comparable model (exclusive of the manufacturer's "additional OPA industry adjustment" under section 5a of this regulation) by its current unit direct cost. You must use your ceiling price to the class of purchasers (distributors, dealers, mail order houses, etc.) who buy from you in the greatest volume.

3. Section 7 (a) (5) is amended to read as follows:

(5) Multiply the unit direct cost of the model being priced by that markup factor. The result is your ceiling price (exclusive of the "additional OPA industry adjustment" under section 5a) to the class of purchaser used in paragraph (4). Your ceiling price to any other class of purchasers for the model being priced must be calculated on the basis of the percentage differential which you customarily had in effect for sales to that class of purchaser.

4. Section 15 is amended to read as follows:

SEC. 15. *Distributors' ceiling prices.* A distributor's ceiling price for sales of a particular model of drier to a particular class of purchaser is that established for his sale by an order issued under Section 14.

A distributor's ceiling price for a washing or ironing machine purchased by him at a price which does not include any of the "additional OPA industry adjustment" is the ceiling price fixed for his sales before April 30, 1946, under this regulation, or by orders under this regulation or under Supplementary Orders No. 119 or 133.

A distributor who purchases a washing or ironing machine at a price which includes any of the "additional OPA industry adjustment" shall recompute his ceiling prices fixed before April 30, 1946 for such a machine in accordance with Rule 5 of this section.

A distributor recomputing his prices in this manner, in determining the percentage of the total dollar margin he should receive, may use, instead of October 1–15, 1941 prices, the manufacturer's ceiling price to him in effect on April 29, 1946 for the same model, his own ceiling price on that date for sales of the same model to dealers, and the retail ceiling price under this regulation in effect on that date for the same model. He shall determine his dollar-and-cent markup by applying the percentage so determined to the total dollar margin between the manufacturer's ceiling price to him including the "additional OPA industry adjustment" and the retail ceiling price in his zone (determined in accordance with section 15a of this regulation). His new ceiling price is the sum of his invoice cost for the machine and the dollar-and-cent markup so determined.

NOTE: To assist the distributor in making this computation, a manufacturer who sells washing or ironing machines at ceiling prices which include the "additional OPA industry adjustment" is required to notify the distributor, at the time of, or prior to, the first invoice covering such sales, of the retail ceiling prices which he has determined for those machines under the provisions of section 15a of this regulation.

Example: A distributor who sold Model Q produced by manufacturer A during the period April 2, 1946 to April 29, 1946 at a ceiling price which the distributor determined during that period under either Rule 5 or 6 computes his ceiling price as follows:

Retail ceiling price in distributor's zone for Model Q	$79.50
Manufacturer's ceiling price f. o. b. factory for sales to distributor on April 15, 1946	$39.50
Gross dollar margin	$40.00
Distributor's ceiling price to dealers on April 15, 1946	$47.50
Amount of total dollar margin received by distributor	$8.00
Percent of gross dollar margin	20%
Manufacturer's ceiling price adjusted under section 5a	$42.19
Retail ceiling price under section 16a	$79.50
Total dollar margin	$37.31
Portion taken by distributor (20% of $37.31)	$7.46
Distributor's new ceiling price	$49.65

If a distributor cannot determine his ceiling price under the preceding paragraphs of this section, and if no ceiling price has been established for the particular sale by an order under section 14, he shall determine his ceiling price under the first applicable rule of the following contained in this section:

Rule 5. A distributor's ceiling price for sales in each zone of each model to each class of purchaser shall be the price which will yield the distributor the same percentage of the total dollar margin between the manufacturer's price to him (not exceeding the manufacturer's ceiling price to him) and the dealer's price for resale to ultimate consumers in that zone as he received during the period October 1–15, 1941 in connection with the sale of the most "comparable" model sold by him to the same class of purchaser. To be "comparable", a model must be one produced by the same manufacturer.

Rule 6. If a distributor cannot determine his ceiling price for sales of a particular model to a particular class of dealer under Rule 5, his ceiling price for that sale is the ceiling price established under Rule 6 for the same sale by the "closest seller of the same class" who has so determined a ceiling price. A distributor's "closest seller of the same class" is a distributor who (a) has established a ceiling price for sales of the identical model of washing or ironing machine or drier to the same class of purchaser, and (b) is the same general type of seller, and (c) is located in the same zone and is nearer to the seller than any other seller who meets requirements (a) and (b) of this rule.

Rule 7. If the distributor cannot otherwise find his ceiling price for a particular sale, his ceiling price for that sale is the price established by the Office of Price Administration in an order under this section.

An application under this rule shall state the name of the manufacturer of the machine being priced, its model designation, the classes of purchaser to whom the applicant proposes to sell the machine, the ceiling prices he proposes for such sales, and a statement of the reasons he cannot use the other rules in this section.

5. Section 16 is deleted from the regulation.

6. Section 16a is added to read as follows:

SEC. 16a. *Dealers' ceiling prices—(a) Driers and "private brand" washing and ironing machines.* A dealer's ceiling prices for sales of a particular model of drier or "private brand" washing or ironing machine to consumers is that established for his sales by an order issued under section 14 of this regulation. For purposes of this regulation "private brand" means any article covered by this regulation not offered for sale as the regular brand of the manufacturer but manufactured by him for a particular person or persons other than another manufacturer whether or not such person's name or brand appears thereon.

(b) *Washing and ironing machines other than "private brands".* Notwithstanding the provisions of any orders issued under section 14 of this regulation before April 30, 1946, the retail ceiling price for a washing or ironing machine other than "private brands" is the price properly calculated in accordance with this section. Every manufacturer of washing or ironing machines other than "private brands" is required to calculate the retail ceiling prices of every such machine under the first applicable rule of the following contained in this section:

Rule 8. If the dealers' ceiling price for sales of a particular model to a consumer in Zone 1 established by an order issued before April 30, 1946, under section 14 of this regulation is 182% or less of the manufacturer's ceiling price to distributors f. o. b. factory, exclusive of all adjustments except the 9.5% increase allowed by section 5 of this regulation, the dealer's ceiling price for sales of that model to consumers in Zone 1 is the sum, rounded to the nearest 25 cents, of the following:

(1) The retail ceiling price previously established by the order under section 14 for sales in Zone 1 and

(2) The dollar-and-cent amount of any part of the "additional OPA industry adjustment" included in the manufacturer's f. o. b. factory price under this regulation for sales of the same model to distributors.

Dealers ceiling prices for sales of the same model to consumers in zones other than Zone 1 shall be determined by adding to the Zone 1 retail ceiling price determined under this rule the dollar-and-cent amount of the previously established differential between retail ceiling prices in Zone 1 and in each of the other zones in effect on the same model.

Rule 9. If the dealer's ceiling price for sales of a particular model to consumers in Zone 1, established by an order under section 14 of this regulation prior to April 30, 1946, is more than 182% of the manufacturer's ceiling price to distributors, exclusive of all adjustments except the 9.5% increase allowed by section 5 of this regulaton, the dealer's ceiling price for sales of the model in Zone 1 shall be the higher of the following amounts:

(1) The ceiling price in effect prior to April 30, 1946, or

(2) The sum, rounded to the nearest 25 cents, of the following:

(i) 182% of the manufacturer's f. o. b. factory ceiling price to distributors, exclusive of all adjustments except the 9.5% increase allowed by section 5 of this regulation, and

(ii) The dollar-and-cent amount of any part of the "additional OPA industry adjustment" included in the manufacturer's f. o. b. factory price to distributors under this regulation.

Dealers' ceiling prices for sales of the same model to consumers in zones other than Zone 1 shall be determined by adding to the Zone 1 retail ceiling price determined under this rule, the dollar-and-cent amount of the previously established differential between retail ceiling prices in Zone 1 and in each of the other zones in effect on the same model.

Rule 10. If no retail ceiling prices have been established before April 30, 1946 for sales of a particular model whose f. o. b. factory ceiling price to distributors has been established under sections 5 or 7, the retail ceiling price of the model is the price determined by the manufacturer according to the following formula:

(1) He shall find the model of washing or ironing machine in his line for which he has a Zone 1 retail ceiling price, which is "comparable" to the machine being priced. The "comparable" model is the one which is most like the machine being priced in design, construction, and operation and which has an f. o. b. factory ceiling price to distributors exclusive of all adjustments except the 9.5% allowed by section 5 which is closest to that of the machine being priced.

(2) He shall find his mark-up factor by dividing the retail ceiling price in Zone 1 of the comparable model by its ceiling price (exclusive of all adjustments except the 9.5% allowed by section 5) for sales to distributors f. o. b. factory.

(3) He shall multiply the ceiling price f. o. b. factory (exclusive of all adjustments except the 9.5% allowed by section 5) to distributors of the model being priced by that mark-up factor. Treating the result of this computation as if it were the Zone 1 retail ceiling price before April 30, 1946, of the model being priced, he shall then determine the retail ceiling prices for the model by applying to that figure either Rules 8 or 9, whichever is applicable.

Rule 11. If the manufacturer cannot determine dealers' ceiling prices for sales of a particular model of washing or ironing machine, he may apply under this rule for the establishment of dealers' ceiling prices for that particular model. Orders will be issued under section 14 of this regulation establishing dealers' ceiling prices for such machines in line with the level of ceiling prices established under this regulation. An application under this rule shall state the name of the manufacturer, the model designation of the machine being priced, and a statement of the reason why the applicant cannot determine dealers' ceiling prices for the machine under the other rules in this section.

7. Section 17 is amended to read as follows:

SEC. 17. *Zones.* For purposes of this regulation the zones referred to in sections 15, 16a, and 19 are those defined for each manufacturer in orders issued under section 14 of this regulation or under Supplementary Orders Nos. 119 or 133.

8. Section 19 is amended to read as follows:

SEC. 19. *Labeling.* Unless an order issued under this regulation provides otherwise:

(a) On and after October 14, 1945 a manufacturer may not ship any machine covered by this regulation to a distributor or dealer unless there is securely attached to the machine an "OPA Ceiling Price Label" which plainly states the OPA retail ceiling price in each zone, a statement of the area contained in each zone, the manufacturer's name or brand name, the model designation of the machine, and a statement that the label may not be removed until after the machine is sold and delivered to a consumer. This label may not be removed until after the machine has been sold and delivered to the consumer.

The label shall be attached as follows:

(1) To the inside of the tub in the case of a wringer or spinner type washing machine.

(2) To the outside of the tub or cabinet in the case of a cylinder type washing machine.

(3) To the mechanism housing in the case of an ironing machine.

(4) To the outside of the cabinet in the case of a drier.

(b) No person may display, offer to sell, sell or deliver to a consumer any machine covered by this regulation unless a label, provided by the manufacturer, is attached to the machine in the place designated in paragraph (a) above which contains all the information required by that paragraph.

(c) The retail ceiling prices which appear on the label attached to a machine which the manufacturer has sold at a price adjusted under section 5a of this regulation shall be the retail ceiling prices computed in accordance with section 16a.

9. Section 19a is added to read as follows:

SEC. 19a. *Notification.* A manufacturer who sells washing or ironing machines at ceiling prices adjusted in accordance with section 5a of this regulation shall, at the time of or prior to the first invoice of each purchaser for resale purchasing machines at prices so adjusted, notify the purchaser of the retail ceiling prices in each zone determined under section 16a for each model of machine covered by the invoice.

10. Section 19b is added to read as follows:

SEC. 19b. *Reporting.* Every manufacturer who determines or redetermines the retail ceiling prices for his washing or ironing machines in accordance with section 16a of this regulation must send a report to the Office of Price Administration, Washington 25, D. C., containing the model designation and retail ceiling price in each zone of every model which he sells or offers to sell at prices which include any part of the "additional OPA industry adjustment". This report must be filed within 15 days after the particular model is first sold or offered for sale by the manufacturer at a price so adjusted.

NOTE. All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective on the 30th day of April 1946.

Issued this 30th day of April 1946.

PAUL A. PORTER,
Administrator.

PLUMBING SERVICES AND SALES OF INSTALLED PLUMBING MATERIALS AND EQUIPMENT IN COLORADO

Revised Order No. G-2 under Revised Maximum Price Regulation No. 251. Construction services and sales of installed building materials. Maximum prices for plumbing services and sales of installed plumbing materials and equipment in the State of Colorado. Docket No. 7-251-9-3 Rev.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Regional Administrator of Region VII of the Office of Price Administration by sections 9 and 20 of Revised Maximum Price Regulation No. 251; it is ordered:

SECTION 1. *What this order does.* (a) This order fixes maximum prices for plumbing services and sales of installed

plumbing materials and equipment and certain other permitted charges by any person, hereinafter called the seller, to any person, hereinafter called the purchaser, in connection with a residential building, structure or construction project at a fixed site in the State of Colorado.

(b) *Definitions.* As used in this order, the term:

(1) "Plumbing" means water, steam, gas, and oil distribution and waste removal systems in a residential building, structure or construction project at a fixed site.

(2) "Plumbing services" means the services required to install, alter, repair, maintain or remove plumbing materials or equipment in or from a residential building, structure or construction project at a fixed site but not including the cleaning of cesspools, grease traps, and septic tanks which services are covered by Maximum Price Regulation No. 165.

(3) "Sales of installed plumbing materials and equipment" means a transaction in which the seller furnishes plumbing materials and equipment, together with the services required to incorporate such materials or equipment in a residential building, structure or a construction project at a fixed site.

(4) "Residential building, structure or construction project" means any building, structure or construction project, or part thereof, used entirely or principally for living or dwelling purposes (including houses, apartments, hotels, and all other properties used for living or dwelling purposes), and all other buildings or structures in connection therewith or adjacent thereto at the same site, such as garages, barns, milk houses, sheds, granaries, and other out-buildings.

(5) "Maximum labor charge" means the amount charged for labor of a specified type or class for plumbing services, made either at a flat rate per hour so as to include a margin for administrative and over-head costs and profit, or as a percentage of the seller's labor cost, which resulting maximum labor charge is also deemed to include a margin for administrative and over-head costs and profit.

(6) "Labor cost" means the seller's actual labor cost based on the wage rates in effect on October 3, 1942 for the same class of laborers, or the seller's actual labor cost based on the wage rates which have been subsequently approved by a Federal wage or stabilization agency. Additional payments for Federal old-age benefits, unemployment compensation, unemployment compensation taxes, workmen's compensation and public liability insurance shall be regarded as being part of such labor cost.

(7) "Master plumber" means any person who, as owner or supervisor, renders plumbing services and is licensed as a master plumber under the laws of the State of Colorado.

(8) "Journeyman plumber" means any person who renders plumbing services and who is licensed as a journeyman plumber under the laws of the State of Colorado.

(9) "Apprentice plumber" means any person, other than a master plumber or a journeyman plumber, who pursuant to an apprenticeship agreement, is engaged in learning the plumbing trade and who as his principal occupation renders plumbing services; and

(10) "Helper", "common laborer", or "drain layer" means any person other than a master plumber, journeyman plumber or apprentice plumber who renders plumbing services.

SEC. 2. *Geographical applicability.* This Revised Order No. G-2 applies only to the State of Colorado.

SEC. 3. *Relationship of this order to Revised Maximum Price Regulation No. 251.* This order supersedes sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to services and sales covered by this order and any maximum prices heretofore approved therefor by the Regional Administrator of Region VII or by the Denver District Director under section 6 (b) or sections 8 and 9 of Revised Maximum Price Regulation No. 251 are hereby terminated and superseded by this order. All other sections of Revised Maximum Price Regulation No. 251, together with all amendments thereto that have been or may be issued shall, except to the extent they are inconsistent with the provisions of this order, apply to all sales and services covered by this order.

SEC. 4. *Maximum prices of plumbing services and sales of installed plumbing materials and equipment and other permitted charges.* The maximum prices for plumbing services covered by this order shall be a maximum labor charge based on the hourly wage rates as set forth in sub-section I of this section, and the maximum prices for sales of installed plumbing materials and equipment covered by this order shall be the sum of the plumbing services involved and the maximum prices of the plumbing materials and equipment and certain other permitted charges as set forth in sub-section II of this section.

Whenever plumbers are required to pay a drain layer extra wages for the installation of pipe of more than six inches in diameter (inside measurement) an extra charge of not more than 25¢ per hour may be made for his services for the time he spends in installing such pipe, notwithstanding the limitations set forth in Column B of this paragraph and an additional charge of 15¢ per hour may be made for motor vehicle expense if the drain layer furnishes his own transportation to and from the job.

(2) *Measurement of hours.* The number of hours which may be charged against any plumbing job consuming one day or less shall be counted from the time the workman leaves the seller's shop or the previous plumbing job (whichever is later) until he completes the job or proceeds to another job or until he returns to the seller's shop if he proceeds there directly. Whenever any job extends into more than one day, the time in transit to or from the job may be charged only once. The hours for which charges are made shall not exceed those shown in the records which the seller is required to keep under section 9 of this order.

(3) *Overtime.* (a) When work is performed at the purchaser's request after 12: 01 p. m. on Saturday and between the hours of 5 p. m. and 8 a. m. of any other day except Sundays, legal holidays, and on emergency night calls, the maximum labor charge per hour for work during such hours may not be in excess of 150% of the straight time rate authorized in this order.

(b) Where work is performed at the purchaser's request on Sundays, legal holidays designated by the laws of the State, and emergency night calls, the maximum labor charge may not be in excess of 200% of the straight time rate authorized by this order.

(4) *Minimum charges.* If a plumbing job requires less than one man hour the maximum labor charge may be for one man hour. If any plumbing job takes only three hours or less of any class of labor for completion of a job, a separate charge of not more than 25¢ may be made for the use of an employer's motor vehicle in going to and from the job.

(5) *Self-employed plumber.* A self-employed plumber who performs plumbing services himself, either alone or with his employees, and is licensed under the laws of the State of Colorado as a master plumber or a journeyman plumber may take as his labor cost the labor cost applicable to a master plumber or a journeyman plumber in the local area where the services are being performed, otherwise, he may charge for his services not more than the hourly rate charged by him as of the effective date of this revised order but not in excess of the maximum labor charge which would be permissible to be charged for the services of a journeyman plumber in the local area where the services are being performed.

(6) *Maximum labor charges for combination work.* The maximum labor charge for any combination of master plumber, journeyman plumber, apprentice plumber, helper, common laborer, drain layer or other employee may not exceed the total of the maximum hourly rates of each of the types or classes of labor for which maximum charges are provided in this order.

II. *Maximum prices of plumbing materials and equipment and other permitted charges.* (1) The maximum prices which may be charged by any seller of plumbing materials and equipment, which for the purposes of this order also include all items known as plumbing fixtures and specialties, shall not be in excess of the seller's cost plus the percentage herein specified. (The seller's cost of materials and equipment shall be deemed to be the wholesale net price lawfully charged the plumbing trade for limited quantities of such materials and equipment by established wholesale plumbing supply firms nearest his place of business, based on their published price lists, together with the actual transportation charges paid therefor by the seller but not in excess of the common carrier rate from the nearest point of supply. If the materials and equipment being sold are marked by a manufacturer's label containing the approved OPA retail ceiling price for sales of the commodity by a seller, a seller of such materials and equipment under this order may charge the price marked on the label in lieu of the stated percentage markup herein specified but in no event may the seller charge more than the price marked on the label.

PERCENTAGE MARKUPS ON SALES OF INSTALLED PLUMBING MATERIALS AND EQUIPMENT

	Plumbing jobs of $350 or less [1]	Plumbing jobs of more than $350 and not over $750
(a) Plumbing equipment and fixtures including all items such as bath tubs, lavatories, water closets, kitchen and wash sinks, laundry tubs and other such items, excepting water heating equipment	*Percent* 40	*Percent* 33⅓
(b) Water heating equipment, including hot water tanks, electric, gas, and oil burning automatic, semi-automatic or manually operated water heaters	50	40
(c) Plumbing materials and specialties including all items used in repairing or installing plumbing equipment or fixtures or water heating equipment such as pipe, pipe fittings, valves, hangers, lead and similar materials and specialties	60	45

[1] On plumbing jobs of $350 or less, whenever the unit cost of any plumbing materials or specialties (including pipe supplies in lengths of 12 inches or less) is not more than $1.50, a markup of not to exceed 100% may be made but the permitted markup shall not apply to pipe made of copper, steel, brass, lead, wrought iron or cast iron, clay or asbestos cement, or to cast iron soil pipe or soil pipe fittings.

(2) *Subcontracted work.* Where work such as drain laying, excavating, pipe covering, sheet metal ducts, and similar work is subcontracted by a seller under this order, the seller may charge the purchaser the cost of such subcontracted work plus a markup of not more than 10% but the charge to the purchaser may not exceed the price which the seller may lawfully charge if he had done the work himself.

(3) *Power driven and other special plumbing equipment.* If, during March, 1942, the seller made an extra charge for the use of power driven and other special plumbing equipment, but not including the motor vehicle in which the equipment is transported, the maximum prices per hour for such use upon and after the effective date of this order shall not be in excess of the highest price per hour he charged therefor or other maximum charges during March, 1942. If the seller acquired such power driven and other special plumbing equipment after March 1942 but prior to the effective date of this order and thereafter established maximum prices per hour or other maximum charges for such uses under the applicable maximum price regulation, he may continue to charge such established prices. In either case, the seller must have records available to substantiate the charging of such prices and such prices must be filed with the District Office of Price Administration pursuant to section 9 of this order. If a seller commences the use of power driven and other special plumbing equipment after the effective date of this order he shall establish his maximum hourly prices therefor or other maximum charges under the applicable maximum price regulation and file such prices with the District Office within 10 days.

(4) *Out of town travel expenses.* A seller who furnishes men on an out of town plumbing job covered by this order shall be reimbursed to the extent of the amount he shall have to pay for travel expense at not to exceed 5¢ per mile for travel beyond the city limits and subsistence where the job necessitates the men being away from their homes. This item shall be explained to the purchaser prior to commencing the job and shall be invoiced separately. Travel expenses and subsistence may not be collected unless the seller actually pays the employee therefor.

(5) *Transportation.* If a seller uses his truck to transport materials, equipment, and men to and from a job beyond the city limits he may charge not more than 7¢ per mile to and from the job for such travel and similarly if other means of transportation are used.

(6) *Charges for permits.* Whenever a seller subject to this order is required to pay a permit fee to a municipal or other authority with respect to services or installations under this order he may make an additional charge to the purchaser in an amount not more than the actual fee paid to the municipal or other authority.

SEC. 5. *Maximum prices of plumbing services and sales of installed plumbing materials and equipment in excess of $750.00.* The maximum prices of plumbing services and sales of installed plumbing materials and equipment for plumbing jobs in excess of $750.00 shall be calculated under Section 7 of Revised Maximum Price Regulation No. 251.

SEC. 6. *Guaranteed price.* A seller may offer to sell a plumbing job covered by this order on the basis of a guaranteed price but such guaranteed price shall not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order: *Provided, however,* That if the guaranteed price is offered with respect to a plumbing job of $350.00 or less then the guaranteed price shall not be more than 10% higher than the maximum price figured in accordance with the pricing methods and requirements of this order.

SEC. 7. *Related and incidental construction work.* If on any plumbing job any installed building materials are furnished or any construction services are performed by the seller for which maximum prices are not fixed by this order, such materials and services shall be separately priced and billed on all invoices and sales slips. The maximum prices for such related and incidental work shall be determined under Revised Maximum Price Regulation No. 251 or as fixed by any applicable area pricing order issued by the Regional Administrator of Region VII.

SEC. 8. *Notification*—(a) *Furnishing of statements.* Each seller making a sale covered by this order shall, upon completion of the work, furnish to the purchaser a statement and keep a copy thereof at his principal place of business showing the following:

(1) The names and addresses of the seller and purchaser.
(2) The location of the job.
(3) The date the job was completed.
(4) A description of the work performed and the total charged for the job, including plumbing services and sales of installed plumbing materials and equipment and other permitted charges, and a separate statement of the related and incidental construction work performed as provided in section 7 of this order.

(b) *Furnishing of further statements upon request.* If requested by the purchaser, the seller shall furnish the purchaser an itemized statement showing the information contained in subparagraphs (1), (2), and (3) of paragraph (a) of this section, together with an itemized statement showing the maximum labor charges for plumbing services for each type or class of labor performed and the hourly rates charged therefor, together with an itemized statement of the installed plumbing materials and equipment, and other permitted charges, and the quantities and prices of each, and a separate itemized statement of any related and incidental construction work performed, as provided in section 7 of this order. A copy of any such statements so furnished shall be kept by the seller at his principal place of business.

(c) *Order available for inspection.* Each seller making a sale covered by this order, if requested by the purchaser shall make available to the purchaser a copy of this order and a copy of Revised Maximum Price Regulation No. 251. Copies for this purpose may be obtained from

the office of the Regional Administrator or from the District Office of the Office of Price Administration.

SEC. 9. *Records.* Each seller must keep and retain at his principal place of business so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records concerning each sale covered by this order showing the following:

(1) The name and address of the purchaser.
(2) The location of the job.
(3) A copy of any and all contracts pertaining to each sale.
(4) The time the job was commenced and completed.
(5) A description of the plumbing services and installed plumbing materials and equipment involved, and other permitted charges, and the quantities and prices of each.
(6) The hours worked and labor charges by types and classes of labor.
(7) A separate itemized statement of any related and incidental construction work and the prices charged for such work.

SEC. 10. *Filing and reporting of maximum prices.* (a) Each seller subject to this order shall within 30 days after the effective date of this order, or within 10 days after any increase in labor cost is put into effect, or in the case of new sellers within 10 days after first entering business, file with the Denver District Office of the Office of Price Administration the following information.

(1) The "maximum labor charge" as that term is defined in section 1 (b) (5) of this order in terms of the straight time hourly rate to be charged the purchaser for plumbing services covered by this order for each class of workmen employed by him.

(2) The "labor cost" as that term is defined in section 1 (b) (6) of this order in terms of the straight time hourly rate applicable to each class of workmen by the seller.

(3) A statement that the prices charged by the seller for the sale of installed plumbing materials and equipment and the other permitted charges covered by this order will not exceed the maximum percentage markups and other charges permitted by section 4 of this order, and a statement that the maximum charge to the purchaser for plumbing services sub-contracted by the seller will not exceed the maximum price which the seller may lawfully charge under this order if he had rendered the services directly.

(4) A description and list of all power driven and other special plumbing equipment and the maximum hourly charges therefor which were in effect in March 1942 or which were thereafter established pursuant to the applicable maximum price regulation.

(5) The hourly rate charged by a self-employed plumber as of the effective date of this order pursuant to section 4 I (5) of this order or in the case of a new self-employed plumber the proposed hourly rate to be charged but not in excess of the maximum charge which would be permissible to be charged for the services of a journeyman plumber in the local area where the services are performed or are to be performed.

(b) Whenever a new seller files the information required by this section, the District Director may by order approve, disapprove or revise any maximum prices proposed so as to make it in line with the level of maximum prices established by this order. If the District Director fails to act within 20 days after the date of the filing, the proposed prices shall be deemed to be in effect.

(c) If a seller subject to Order No. G–2, Plumbing Services and Sales of Installed Plumbing Materials and Equipment in the State of Colorado, issued November 26, 1945 and effective December 1, 1945, has complied with the provisions of section 10 (1) and (2) of that order and the same maximum labor charges and labor costs except for slight variances in the table given in section 4 II (1), of this order, are in effect as of the effective date of this Revised Order No. G–2, it shall be unnecessary for the seller to re-file or report under the provisions of this section. Each seller shall, however, comply with the provisions of this section with respect to its other filing and reporting provisions and also if there have been any changes in his maximum labor charges and labor costs not heretofore filed and reported to the Denver District Office.

SEC. 11. *Prohibitions against sales at higher than maximum prices.* On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell or offer to sell plumbing services or plumbing materials and equipment on an installed basis, or both, covered by this order at prices higher than the maximum prices established by this order: *Provided,* That plumbing services performed or installations made not more than 30 days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

SEC. 12. *Evasions.* (a) Any practice, scheme, or device which results in a higher price to the purchaser of plumbing services or installed plumbing materials and equipment than is permitted by this order shall be deemed a violation of this order and subjects the seller to all the civil liabilities and the criminal penalties provided by the Emergency Price Control Act of 1942, as amended and extended.

(b) No seller shall as a part of the consideration or as a condition of a sale of any of the plumbing services or installed plumbing materials and equipment covered by this order, secretly or otherwise receive, either directly or indirectly any side payment, commission, fee, consideration or other thing of value whatsoever nor shall the seller, either directly or indirectly acquire or receive in addition to the maximum prices established by this order the benefit of any services, transportation agreements or other valuable thing, materials or property.

(c) No seller shall eliminate or reduce in any form or manner any maintenance or repair service customarily offered or performed as a part of plumbing services or installed plumbing materials and equipment nor shall the seller lower the quality of the materials and equipment below that called for by the specifications or agreement.

(d) No seller shall by any of the foregoing plans, schemes or devices, or by any other plan, scheme or device, receive or acquire or attempt to receive or acquire anything of value, service, valuable right, property or property right, money or other consideration whatsoever in addition to the maximum prices established in this order for the sale of any plumbing services or installed plumbing materials and equipment.

SEC. 13. *Less than maximum prices.* Prices lower than the maximum prices for sales covered by this order may, of course, be charged and paid.

SEC. 14. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Board, Federal Security Agency

[Regs. 3,[1] Further Amended]

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE

SERVICES FOR INTERNATIONAL ORGANIZATIONS

Regulations No 3, as amended (20 CFR, Cum. Sup., 403.1 et seq.), are further amended as follows:

1. The following subdivision is added at the end of § 403.1 (b) (1):

§ 403.1 *Chronological description of pertinent statutes and regulations* • • •

(b) *Title II of the Social Security Act, as amended effective January 1, 1940, and regulations of the Social Security Board thereunder*—(1) *Statutes.* • • •

The act approved December 29, 1945 (59 Stat. 669) adds paragraph (16), excepting from employment service performed in the employ of an international organization, to section 209 (b); and also prohibits any payment under title II of the act with respect to any such service rendered prior to January 1, 1946.

2. Immediately preceding $403.301, the following is inserted:

Section 5 (b) of the act approved December 29, 1945 (59 Stat. 669)

• • • No payment shall be made under title II of the Social Security Act with respect to services rendered prior to January 1, 1946, which are described in paragraph (16) of section 209 (b) of such act, as amended.

3. The following paragraph is added at the end of § 403.301, preceding the example:

§ 403.301 *Primary insurance benefit defined.* • • •

In the computation of benefits there will not be included any sums paid as wages for services performed prior to January 1, 1946, in the employ of an international organization as defined by section 209 (b) (16) of the act as amended (see § 403.826a).

4. The last paragraph of § 403.302 is amended to read:

§ 403.302 *Average monthly wage.* • • •

"Total wages" means all the wages paid to the individual before the quarter in which he died or became entitled (on his last application for benefits or recomputatiton for benefits—see (§ 403.704 (c)) to primary insurance benefits, whichever occurred first, except wages for services performed in the employ of an international organization as defined by section 209 (b) (16) of the act prior to January 1, 1946 (see § 403.826a). (All wages paid for services performed before such individual attained the age of 22 are included in his total, but remuneration for services performed by such individual after he attained the age of 65, and prior to January 31, 1939, is excluded, since such remuneration is not wages under section 209 (a) of the act (see §§ 403.824 and 403.827)).

5. The statutory provisions preceding § 403.801 are amended by deleting paragraphs 14 and 15 of section 209 (b) and substituting the following:

(14) Service performed by an individual in (or as an officer or member of the crew of a vessel while it is engaged in) the catching, taking, harvesting, cultivating, or farming of any kind of fish, shellfish, crustacea, sponges, seaweeds, or other aquatic forms of animal and vegetable life (including service performed by any such individual as an ordinary incident to any such activity), except

[1] 5 F.R. 1849.

(A) service performed in connection with the catching or taking of salmon or halibut, for commercial purposes, and (B) service performed on or in connection with a vessel of more than ten net tons (determined in the manner provided for determining the register tonnage of merchant vessels under the laws of the United States);

(15) Service performed by an individual under the age of eighteen in the delivery or distribution of newspapers or shopping news, not including delivery or distribution to any point for subsequent delivery or distribution; or

(16) Service performed in the employ of an international organization entitled to enjoy privileges, exemptions, and immunities as an international organization under the International Organizations Immunities Act. (As amended by section 5 (a) of the Act approved December 29, 1945, 59 Stat. 669, adding paragraph (16) effective January 1, 1946.)

6. The following statutory provisions are added immediately following § 403.826:

SECTION 209 (b) (16) OF THE ACT.

The term "employment" means . . . any service, of whatever nature, . . . by an employee for the person employing him . . . except:

(16) Service performed in the employ of an international organization entitled to enjoy privileges, exemptions, and immunities as an international organization under the International Organizations Immunities Act. (As amended effective January 1, 1946, by section 5 (a) of the Act approved December 29, 1945, 59 Stat. 669.)

SECTION 1 OF THE ACT APPROVED DECEMBER 29, 1945 (59 Stat. 669)

For the purposes of this title, the term "international organization" means a public international organization in which the United States participates pursuant to any treaty or under the authority of any Act of Congress authorizing such participation or making an appropriation for such participation, and which shall have been designated by the President through appropriate Executive order as being entitled to enjoy the privileges, exemptions, and immunities herein provided. The President shall be authorized, in the light of the functions performed by any such international organization, by appropriate Executive order to withhold or withdraw from any such organization or its officers or employees any of the privileges, exemptions, and immunities provided for in this title (including the amendments made by this title) or to condition or limit the enjoyment by any such organization or its officers or employees of any such privilege, exemption, or immunity. The President shall be authorized, if in his judgment such action should be justified by reason of the abuse by an international organization or its officers and employees of the privileges, exemptions, and immunities herein provided or for any other reason, at any time to revoke the designation of any international organization under this section, whereupon the international organization in question shall cease to be classed as an international organization for the purposes of this title.

7. A new § 403.826a is added to follow the statutory material immediately preceding:

§ 403.826a *International organization.* Services performed after December 31, 1945, by an employee in the employ of an organization of the class specified in section 209 (b) (16) of the act are excepted. For an organization to be within the statutory classification the following conditions must be met:

(1) It must be a public international organization in which the United States participates pursuant to treaty or authority of an act of Congress authorizing, or making an appropriation for, such participation;

(2) It must have been designated by executive order to be entitled to enjoy the privileges, exemptions, and immunities provided in the International Organizations Immunities Act;

(3) The designation must be in effect, and all conditions and limitations thereof must be met.

Such services will not be excepted if any of the foregoing conditions are not met. Nor will they be excepted after such designation is withheld or withdrawn by executive order from the employing organization.

In pursuance of section 205 (a) (53 Stat. 1368; 42 U.S.C. 405 (a)) and 1102 (49 Stat. 647; 42 U.S.C. 1302) of the act, the foregoing regulations this day adopted by the Board are hereby prescribed this 26th day of April 1946.

A. J. ALTMEYER,
Chairman.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter B—Estate and Gift Taxes

[T. D. 5512]

PART 81—REGULATIONS RELATING TO ESTATE TAX

TRANSFERS INTENDED TO TAKE EFFECT AT OR AFTER DECEDENT'S DEATH

Section 81.17 of Regulations 105 (26 CFR, Cum. Supp., Part 81) is amended by changing the heading and the first paragraph to read as follows:

§ 81.17 *Transfers intended to take effect at or after the decedent's death.* A transfer of an interest in property by the decedent during his life (other than a bona fide sale for an adequate and full consideration in money or money's worth) is "intended to take effect in possession or enjoyment at or after his death," and hence the value of such property interest is includible in his gross estate, if:

(a) Possession or enjoyment of the transferred interest can be obtained only by beneficiaries who must survive the decedent, and

(b) The decedent or his estate possesses any right or interest in the property (whether arising by the express terms of the instrument of transfer or otherwise).

The decedent shall not be deemed to possess a right or interest in the property if his right or interest consists solely of an estate for his life. (For regulations concerning the separate provision of the statute dealing directly with the case of a life estate retained in property transferred by the decedent, see § 81.18.) Where possession or enjoyment of the transferred interest can be obtained by beneficiaries either by surviving the decedent or through the occurrence of some other event or through the exercise of a power, paragraph (a) of this section shall not be considered as satisfied unless, from a consideration of the terms and circumstances of the transfer as a whole, the power or event is deemed to be unreal, in which case such event or power shall be disregarded. Except as provided in the last paragraph of this section, the value of the property so transferred is includible without regard to the date when the transfer was made, whether before or after the enactment of the Revenue Act of 1916.

Example (1). The decedent at 90 years of age transferred property in trust, providing for an estate for life in his granddaughter, 22 years of age, and a remainder to a child of the granddaughter. It was further provided that the estate in remainder would revest in the decedent if he survived the life tenant. Since the property may revert to the decedent and since the beneficiary taking the remainder must survive the decedent in order to obtain possession or enjoyment of the property, the value of the estate in remainder is includible in the decedent's gross estate. The value of the outstanding life estate is not so includible, since the life tenant need not survive the decedent in order to obtain possession or enjoyment thereof.

Example (2). The decedent, during his life, transferred property in trust, giving the income therefrom to his son for life and the remainder to his son's surviving issue. If no issue survived the life tenant, the property was to revert to the decedent or his estate. This transfer does not satisfy requirement (a) of this section, since the life tenant's surviving issue need not survive the decedent in order to obtain possession or enjoyment of the property. Accordingly, no portion of the property is includible in the gross estate under this section.

Example (3). The decedent, during his life, transferred property in trust, giving the income to his wife for her life and the remainder to his father if living at the wife's death. If not, the property was to revert to the decedent if living, and if not, it was to pass to the decedent's issue and their heirs. If the father's death occurs first followed by the death of the decedent, it would appear at the moment immediately prior to the latter's death that possession or enjoyment of the remainder interest can be obtained only by beneficiaries who must survive the decedent. And since the property may revert to the decedent, requirements (a) and (b) of this section are both satisfied, and the value of the estate in remainder is includible in the decedent's gross estate.

Example (4). The decedent, during his life, transferred property in trust, providing for payment of the income to his son until the latter reached the age of 25, at which time the son would receive the corpus. If the son died before reaching 25, the corpus was to revert to the decedent if living; and if not, it was to pass to his son's heirs. No portion of the property is includible in the decedent's gross estate. Although the property may revert to the decedent, his son can obtain possession or enjoyment of the remainder interest even though the decedent is living. Thus, the first requirement is not satisfied.

Example (5). The decedent transferred property in trust retaining a life estate and giving a succeeding life estate to another, with the remainder to such succeeding life tenant's issue who survived both the decedent and the life tenant. The decedent also retained the power to designate who shall take the remainder in case the succeeding life tenant died without surviving issue. Here, possession or enjoyment of the property can be obtained by the succeeding life tenant and by the succeeding life tenant's issue only if they survive the decedent; thus satisfying requirement (a) of this section. Requirement (b) of this section is also satisfied with respect to the interests of both beneficiaries since the decedent retained a right in the entire property, i. e., a contingent power of appointment. The entire value of the property, including the value of the succeeding life estate and the remainder is, therefore, includible in the decedent's gross estate.

Example (6). The decedent transferred property in trust, reserving a life estate and providing succeeding life estates in his wife and son. Upon the death of the son, the principal was to be paid to the son's wife; if the son's wife did not survive her husband, to the son's issue; and if there were no issue, to the decedent's next of kin. In this case, the decedent has parted with every right or interest in the property and hence requirement (b) of this section is not satisfied. Accordingly, no part of the property is includible in the decedent's gross estate.

Example (7). The decedent transferred property in trust to pay the income to his son during decedent's life, and at decedent's death to pay the principal to his son if living; if not, to his son's issue surviving both the son and the decedent. In this case, the property may revert to the estate of the decedent if neither his son nor his son's issue survives him. Moreover, neither the son nor the latter's issue can obtain possession or enjoyment of the property unless they survive the decedent. The entire value of the estate in remainder is, therefore, includible in the latter's gross estate.

Example (8). The decedent, during his life, transferred property in trust providing for payment of the income to his daughter during the life of the survivor of himself and his wife, and the remainder to his daughter or her issue. The wife was given the unrestricted power to alter, amend or revoke the trust. At the decedent's death, his wife is still living. Here, although it appears immediately prior to the decedent's death that the property may revert by operation of law to the decedent's estate in the event that the daughter and her issue should predecease the decedent and his wife, the first requirement is not satisfied, since the wife can obtain possession or enjoyment of the property during the decedent's lifetime through the exercise of her power to alter, amend or revoke. No part of the property is, therefore, includible in the decedent's gross estate. If the wife had predeceased the decedent, requirement (a) of this section would be satisfied, since it would appear immediately prior to the decedent's death that neither his daughter nor her issue, the remaining beneficiaries, could obtain possession or enjoyment of the property unless they survived the decedent. Under these circumstances, the value of the remainder would be includible in the gross estate.

PART 3293—CHEMICALS

[Limitation Order L-355, as Amended May 2, 1946]

ETHYL FLUID

The fulfilment of requirements for the defense of the United States has created a shortage in the supply of lead and tetraethyl lead, both imported and domestic, for defense, for private account and for export; and the following order is deemed necessary and appropriate to the public interest and to promote the national defense:

§ 3293.662 *Limitation Order L-355*—(a) *Definitions.* For the purposes of this order:

(1) "Ethyl fluid" is a mixture of tetraethyl lead and other ingredients designed to raise the octane number of gasoline. It includes: (i) "Motor ethyl fluid" which is ethyl fluid containing organic chlorides and bromides designed for use in motor gasoline for land- and sea-going engines; and (ii) "Aviation ethyl fluid" which is ethyl fluid without organic chlorides designed for use in aviation gasoline.

(2) "Use" means to blend ethyl fluid with gasoline or any component of gasoline or with any other material that can be blended with gasoline.

(b) *Restrictions on delivery.* (1) No producer of ethyl fluid shall deliver to any person in any calendar month more than 27% of the aggregate quantity of motor ethyl fluid delivered to such person in the months of November, December, 1945 and January, 1946, except that when a person certifies to a producer that he used more motor ethyl fluid than the quantity he received in the base period, the producer may deliver to such person in any month a quantity not in excess of 27% of the quantity of motor ethyl fluid certified to have been used in the base period.

(2) No producer of ethyl fluid may export outside the United States, its territories or possessions, in any calendar month, more motor ethyl fluid than 27% of the aggregate quantity exported in the months of November, December, 1945 and January, 1946 except on special authorization by the Civilian Production Administration.

(3) No person shall accept delivery of motor ethyl fluid at any one blending point if his inventory of motor ethyl fluid at that point is or will by virtue of such delivery become more than he needs in the succeeding 30 days on the basis of his current or scheduled rate of operations. Persons normally receiving deliveries of motor ethyl fluid by tank car or tank truck shall not maintain any inventory except in scale tanks for blending motor ethyl fluid with gasoline.

(4) Nothing in this paragraph shall prevent the delivery and receipt of a minimum tank car, tank wagon or drum carload by any person whose inventory of motor ethyl fluid is less than 30-days' supply.

(c) *Restrictions on use.* (1) No person shall in any month beginning with April, 1946 use more than 27 percent of the aggregate quantity of motor ethyl fluid which he used in the production of motor gasoline in the three months of November, December, 1945 and January, 1946.

(2) No person shall use aviation ethyl fluid in the production of motor gasoline or any component thereof, or use any gasoline component containing aviation ethyl fluid in the production of motor gasoline.

(3) No person shall use ethyl fluid to produce motor gasoline having higher than 80 octane (ASTM-D-357-45) for use in motor-propelled vehicles, trucks, tractors or boats or to produce aviation gasoline of 100 octane (A&N grade 100-130) or higher, except on special authorization from the Civilian Production Administration.

(d) *Exceptions.* Nothing in this order shall prevent the delivery, receipt and use for laboratory purposes of ethyl fluid in containers of one litre or less.

(e) *Newcomer's quota.* Any person who was not a user of ethyl fluid in November or December, 1945 or January, 1946 and who wishes to have a quota established for him to receive or use ethyl fluid in any calendar month, may apply by letter to the Civilian Production Ad-

ministration, Chemicals Division, Washington 25, D. C., Ref.: L–355.

(f) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the Civilian Production Administration, as amended from time to time.

(2) *Appeals.* Any appeals from the provisions of this order shall be made by filing with the Civilian Production Administration, Chemical Division, Washington 25, D. C., Ref.: L–355, a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(3) *Violations.* A person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment.

(4) *Communications to Civilian Production Administration.* Communications concerning this order, shall, unless otherwise directed, be addressed to: Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref.: L–355.

Issued this 2d day of May 1946.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[VHP–1, Supp. 1]

FIXTURES AND EQUIPMENT

§ 4700.2 (a) *What this supplement does.* Veterans' Housing Program Order 1 restricts construction and alterations of buildings and certain other structures, including alterations incidental to the installation of equipment. It also restricts the installation of fixtures and mechanical equipment, whether or not alterations to the structure are involved. The installation of other machinery and equipment is not restricted by the order. Paragraph (b) (3) of VHP–1 defines a fixture as "any article attached to a building or structure and used as a part of the building or structure", and defines mechanical equipment as "any equipment which is used to operate a building or other structure". Several specific articles are listed in paragraph (b) (3) of VHP–1 as coming within these terms and certain other items are listed as not being covered by these terms. This supplement lists these and other specific items, indicating whether or not they are fixtures and mechanical equipment under VHP–1. It also explains other provisions of VHP–1 applying to these installations.

(b) *Fixtures and mechanical equipment.* (1) The following articles are considered fixtures and mechanical equipment if they are attached to a building or structure by nails or screws, if they are connected with the plumbing or other piping system of the structure, if they are connected to the lighting system of the structure (except by connection to an existing outlet without installing new wires or a new outlet), if a base or foundation is built for the item, or if the item is cemented to the building or structure:

Air conditioning equipment (except when used for humidity or temperature control in industrial processing or as refrigeration equipment in a cold storage warehouse or a frozen food locker plant and except self-contained individual units with no duct systems).
Bars.
Bookcases.
Booths.
Counters.
Furnaces and furnace burner or boiler burner units.
Heating equipment.
Kitchen cabinets.
Lighting equipment.
Marquees.
Panelling.
Partitions, wood or metal.
Plumbing equipment.
Signs, electric and other.
Show cases.
Soda fountains.
Ventilating equipment.
Any other article falling within the definitions of fixture and mechanical equipment stated in paragraph (a) of this supplement.
(None of the above items include any item specifically listed in paragraph (b) (2) of this supplement.)

(2) the following articles are never considered fixtures or mechanical equipment:

Air conditioning equipment where required to provide humidity or temperature control for industrial processing and self-contained individual units with no duct systems.
Airport equipment such as cargo and passenger handling equipment, signalling equipment, obstruction marking equipment and equipment used for lighting runways or for signalling.
Altars, choir stalls and church pews.
Automatic fire protection sprinkler systems.
Barn equipment such as milking machines, hay or litter conveyors, stanchions and stalls.
Blast furnaces.
Control or testing equipment used for industrial or utility purposes or in a laboratory or hospital.
Conversion oil or gas burners.
Conveyors.
Desks, chairs and cafeteria and gymnasium equipment in a school or college.
Escalators, elevators and dumb waiters.
Food warming, dishwashing and food preparation equipment in a restaurant or institution.
Furnaces for heat treating or similar industrial purposes.
Hospital equipment such as X-ray machines and operating tables.
Lighting equipment for flood lighting airports, railroads or other outdoor operations.
Machine tools.
Post-office equipment such as letter boxes and letter drops.
Power generating or transmitting equipment such as boilers, generators, and transformers (except where the primary purpose of the equipment is to provide electricity or steam for lighting or heating the building in which they are installed).
Projection and sound equipment.
Radio towers and other transmitting and receiving equipment.
Refrigeration equipment, such as compressors, in a cold storage warehouse or a frozen food locker plant.
Refrigerators (except where built as an integral part of the building).
Scales.
Service station equipment such as gasoline pumps, hydraulic lifts, battery chargers.
Stokers.
Storm windows, storm doors, screens and awnings.
Stoves.
Theatre seats.
Washing machines or dryers in a commercial laundry.
Other processing machinery and equipment.
Other machinery and equipment installed to provide a special service in a structure and not installed merely to operate the structure.

(c) *Cost of an installation of fixtures or mechanical equipment.* If any item covered by paragraph (b) (1) of this supplement is being installed in or on a building or other structure covered by the order, the cost of the job for the purpose of determining whether it is under the applicable allowance given in paragraph (d) (1) of VHP–1 must include the cost or value of the item (unless it has been previously used), in addition to the cost of new materials, the cost of paid labor engaged in the work and the amount paid for contractor's fees. The cost or value of previously used mechanical equipment and previously used fixtures need not be included in the cost of the job for this purpose. Paragraph (d) (3) of VHP–1 contains additional provisions prohibiting the splitting of a job for the purpose of coming within the exemptions of paragraph (d) (1) of the order.

(d) *Repairs to mechanical equipment.* Paragraph (b) (2) of VHP–1 provides that greasing, overhauling, repairing, or installing replacement parts in existing mechanical equipment in all types of structures, where no change in the structure is made, is not covered by the order, regardless of whether the cost of the job is within the applicable allowance under paragraph (d) (1) of the order, and the cost of such work need not be included in the cost of a job for the purpose of determining whether the job is within the applicable allowance under that paragraph. This provision applies to plumbing, heating, ventilating and lighting equipment. This provision covers the replacement of parts in a piece of mechanical equipment when the present parts are no longer serviceable but does not cover the replacement of an entire piece of equipment. For example, it is permissible, under this provision, to replace the grates in a furnace but not to replace the entire furnace; to replace the tubes in a boiler but not to replace the entire boiler, unless the total cost of the replacement is within the applicable job allowance under paragraph (d) (1) of VHP–1.

(e) *Installation of exempt machinery and equipment.* VHP–1 does not restrict the installation of machinery and equipment other than mechanical equipment. Paragraph (b) (2) of this supplement explains what equipment may be installed without regard to the provisions of the order. VHP–1 does, however, restrict the making of alterations to a building or other structure covered by the order in connection with the installation of such exempt machinery and equipment. For example, if a foundation is built inside a building to receive the equipment, or if partitions or new walls are installed to separate a machine from the rest of the plant, the cost of these building alterations must be computed in accordance with paragraph (d) (2) of VHP–1 and if the cost exceeds the applicable allowance for the building involved under paragraph (d) (1) of VHP–1, authorization must be obtained for the work. In computing the cost of the building alterations, the cost of new materials and paid labor and the amount paid for contractor's fees for the building alteration must be counted (together with the cost of any new fixtures or new mechanical equipment covered by paragraph (b) (1) of this supplement which may be installed at the same time), but the cost of the exempt machinery or equipment, whether new or used, need not be included nor need the cost of labor engaged in assembling the exempt machinery or equipment or in setting it in place and connecting it up. For example, in installing elevators which are listed in paragraph (b) (2) of this supplement, it would be necessary to count toward the cost of the job, the cost of new materials and paid labor and contractor's fees involved in preparing the shaft, in strengthening the building to support the elevator and in constructing a penthouse or bulkhead on the roof of the building or a room in the basement to enclose the motors. It would not, however, be necessary to include in the cost of the job the cost of the elevator car, the guide rails between which the car runs, the sheaves, the motors, the cables or the doors or frames to the elevator shaft or the cost of labor engaged in assembling and installing this equipment.

(f) *Installation of equipment outside and not attached to a building.* Under paragraph (b) (1) of VHP–1, the installation of any kind of equipment outside of and not attached to a building or other structure covered by the order is not restricted by the order. This exemption applies to mechanical equipment such as a fuel oil tank installed in the ground outside of a house or any other kind of machinery or equipment which is installed outside of and not attached to a building. The exemption is applicable whether or not a foundation must be built for the piece of equipment and whether or not the equipment is connected to a building by pipes or pipe lines, wires, or the like. The following items are examples of equipment exempt completely from the order if installed outside of and not attached to a building:

This order shall be issued not later than seven days from the date the request for approval is filed with the OPA, or from the date all required information is filed with the OPA. In each order authorizing maximum resale prices there shall be stated maximum resale prices for all classes of resellers. These maximum resale prices shall reflect reseller's initial margins over their invoice costs, adjusted to reflect any absorption factor which OPA determines shall be applied uniformly to prices for sales at distributive levels.

2. The last sentence in section 8 (c) (2) (iii) is amended to read as follows: "Nor shall it include any increase which is not an approved wage increase under Executive Order 9697."

3. The references in section 8 (f) to "OPA Form 6085–2559" are amended to read "OPA Form 6085–2558".

4. Section 9a (b) is amended to read as follows:

(b) *Method*—(1) *Manufacturers' prices.* You shall establish a manufacturer's maximum price under this section by increasing or decreasing, whichever the case may be, your maximum price of the automobile or extra, special or optional equipment, prior to modification, by the amount which represents the net difference (which may be a minus amount) between its direct labor and direct materials costs prior to the change and such costs after the change. This net difference shall be determined in accordance with section 5 (c).

(2) *Resale prices.* When a manufacturer's maximum price shall have been adjusted under subparagraph (1) above, you shall adjust corresponding maximum resale prices by including or subtracting from the applicable resale prices the net amount of the manufacturer's adjustment, plus the percentage margin over reseller's invoice cost included in the resale prices on November 1, 1941.

5. A new subparagraph (6) is added to section 9a (c) to read as follows:

(6) Where maximum resale prices prior to modification are specific dollars and cents prices for each class of reseller, furnish the adjusted resale prices for the modified automobile or extra, special or optional equipment.

6. Section 9a (d) is amended to read as follows:

(d) *Action by OPA.* OPA shall approve or disapprove proposed manufacturers' and resellers' maximum prices or establish different maximum prices in accordance with this section. This action shall be taken by order except as provided in the following paragraph.

In each of the following instances, proposed maximum prices may be approved by letter from the Price Executive, Automotive Branch, OPA National Office, or a person authorized to act in his capacity. However, proposed maximum prices in the following instances shall be considered approved by OPA when not disapproved within ten days from the date the application is received by the Automotive Branch, OPA National Office, Washington, D. C. But when additional information is requested, the ten days shall run from the date the last additional information is filed. These instances are:

(1) When the units are to be sold by you, the manufacturer, direct to a user.

(2) When the units are to be sold by you, the manufacturer, to purchasers outside the United States or its territories and possessions.

(3) When less than a total of 25 units are to be resold through all resellers in the continental United States or its territories and possessions.

(4) When the units are to be resold by a reseller in a one-time sale to the United States Government or a state or municipal government.

In instance (3) or (4), you, the manufacturer, shall notify applicable resellers of proposed resale prices approved as maximum prices by letter to you or because they were not disapproved within the ten-day period.

6a. Paragraph (e) of section 9a is amended to read as follows:

(e) *When proposed maximum prices may be charged and collected.* Maximum prices proposed for approval in accordance with paragraph (c) of this section may be charged and collected in accordance with the following provisions:

(1) *Proposed maximum prices which must be approved by order.* Proposed manufacturers' maximum prices which must be approved by order may be charged on and after the date of mailing of the application but may not be collected in whole or in part until approved by OPA. Proposed resellers' maximum prices which must be approved by order may not be charged or collected until approved by OPA.

(2) *Proposed maximum prices which may be approved by letter or by ten day provision*—(i) *Manufacturers' proposed prices.* Proposed manufacturers' maximum prices which may be approved by letter or by OPA not acting on an application within ten days after receiving it, the application, may be charged and collected on and after the date of mailing of the application. If the maximum price approved is lower than the maximum price proposed, then the manufacturer shall refund to the purchaser the difference between the adjustment proposed and the adjustment allowed.

(ii) *Resellers' proposed prices.* Proposed resellers' maximum prices which may be approved by letter or by OPA not acting on an application within ten days after receipt of the application may be charged and collected on and after the date the reseller receives notification from the automobile manufacturer of the resale prices which have been proposed to the OPA for approval. Resellers shall refund to purchasers the difference between the adjustment in resellers' prices proposed by the manufacturer and the adjustment which is allowed.

7. Section 10 is amended by including the numeral "6" in the second sentence following the word "section" and before the phrase "7, 8 or 9".

8. Section 15 is amended to read as follows:

SEC. 15. *Certificate of transfer.* Every reseller, when he sells a new passenger automobile, except in the case of a sale at wholesale by a reseller to another reseller in accordance with a franchise agreement, shall prepare a Certificate of Transfer, Appendix C, in accordance with the instructions in that appendix, sign it, and turn in the original to his price control board not later than five days from the date of sale, give a copy to the purchaser at the time of sale, and keep a copy in his files for OPA inspection when so required by section 17 (a) (2).

PART 1389—APPAREL

[2d Rev. MPR 578,[1] Amdt. 5]

MAXIMUM PRICE FOR CERTAIN ESSENTIAL LOW PRICED GARMENTS

A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.

2d Revised Maximum Price Regulation 578 is amended in the following respects:

1. Section 4(b) is amended to read as follows:

(b) *Exception for certain sellers.* On sales by a retail seller, 80% or more of whose total 1944 dollar sales volume of all articles of clothing and apparel except furs consisted of sales (1) in which a down payment was made at the time of sale and an unpaid balance was paid in installments extending over a period of six weeks or more from the date of sale without any separately stated finance or credit charge and (2) for which pursuant to an order issued by or at the direction of any agency of the United States, no down payment was required on such installment sale and payment was required within a period of less than six weeks without any separately stated finance or credit charges, the retail ceiling price for the sale of a garment covered by this regulation is the sum of the price for that garment as calculated by the use of the appropriate table in paragraph (a) and 17% of that price. No credit or finance charges of any kind may be added to this ceiling.

(1) However, no seller may sell a garment at a price in excess of the ceiling price established in paragraph (a) unless he has:

(i) Filed with the District Office of the Office of Price Administration in the district where his selling establishment is located two copies of a written statement signed by an officer or a duly authorized agent showing:

(*a*) His total dollar sales volume of all articles of clothing and apparel except furs for the year 1944.

(*b*) His dollar volume of sales of clothing and apparel except furs for the year 1944 both (*1*) for which a down payment was made at the time of sale and an unpaid balance was paid in installments extending over a period of six weeks or more from the date of sale without any separately stated finance or credit charge and (2) for which pursuant to an order issued by or at the direction of any agency of the United States, no down payment was required on such installment sale and payment was required within a period of less than six weeks without any separately stated finance or credit charges, and

(ii) Received from the Office of Price Administration a written acknowledgment of the receipt of the statement specified in subdivision (i).

(2) Moreover, no seller may sell a garment pursuant to this section at a price in excess of the ceiling price established in paragraph (a) unless the garment bears a ticket showing as the retail ceiling price the sum of the appropriate figure in column 2 of Table II or Table III (as the case may be) and 17% thereof. If a credit seller, who has qualified as such under the provisions of section 4 (b) (1), receives a garment from his supplier not ticketed with the proper installment credit ceiling price, the credit seller must, if he wishes to sell the garment at a price in excess of the retail ceiling price calculated pursuant to paragraph (a), have the garment marked with a ticket or tickets showing both the retail ceiling price so calculated and the installment credit price determined in accordance with paragraph (b).

(3) Each such seller must keep in his place of business for inspection by OPA a copy of the statement specified in subparagraph (1) (i) above, the written acknowledgment therefor, and the records substantiating the statement as filed. Where a retailer maintains more than one selling establishment, he shall keep the substantiating records in his principal office, and in addition thereto, shall keep a copy, (certified by the seller to be such), of the acknowledgment referred to above, in each of his selling establishments.

2. Section 6 (a) (3) is amended as follows: By changing the period at the end of subdivision (iii) to a comma and adding the word "or" and adding a new subdivision (iv) as follows:

(iv) OPA Installment Credit Price:
$ ------

3. Section 6 (b) (1) (iv) is amended by changing the period to a semi-colon and adding the following preceding the example: "excepting that where the sale is to a retailer who has qualified as a credit seller under section 4 (b), the manufacturer may mark the garment with the OPA retail ceiling price found in (iii), increased by 17%. However, no manufacturer may ticket a garment with a price including this 17% unless he shall have received from the retailer-purchaser and shall have in his files for inspection by the OPA an exact copy, certified to be such by the retailer-purchaser, of the acknowledgment referred to in section 4 (b) (1) (ii)."

4. A new paragraph (4) is added to section 6 (b) as follows:

(4) *Garments sold by a wholesaler to a credit retailer.* Where a garment is being sold by a wholesaler to a retailer who meets the qualifications of a credit seller stated in section 4 (b), the wholesaler may mark the garment with the OPA ceiling price found for that garment as calculated under section 4 (a) plus 17% thereof and may remove any marking from the garment which is in conflict therewith. However, no wholesaler may ticket a garment with a price including this 17% unless he shall have received from the retailer-purchaser and shall have in his files for inspection by the OPA an exact copy, certified to be such by the retailer-purchaser, of the acknowledgment referred to in section 4 (b) (1) (ii).

This amendment shall become effective May 6, 1946.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Issued this 1st day of May 1946.

Administrator.

PART 1305—ADMINISTRATION

[SO 131,[1] Amdt. 22]

REVISED MAXIMUM PRICES FOR CERTAIN COTTON TEXTILES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 4 of Supplementary Order No. 131 is revised in the following respects:

1. Paragraph (jj) is amended to read as follows:

(jj) *Cotton bedspreads.* (1) As used herein "cotton bedspreads" means bedspreads subject to Maximum Price Regulation No. 118.[2] "Previous ceiling price" means the highest maximum price which the bedspread had or would have had under Maximum Price Regulation No. 118 prior to June 30, 1945.[3]

(2) The maximum prices established by § 1400.118 (d) (22) of Maximum Price Regulation No. 118 for cotton bedspreads are increased by the percentages appearing below:

Type of bedspread	Previous ceiling price[4] (per bedspread)	Percentage increase for cotton bedspreads consisting 95% or more of cotton	
		Band B	Band A
		Percent	*Percent*
Bleached dimity	Up to $1.50[5]	45	50
Dobby, plain and crinkle	Up to $1.50	35	40
Jacquard, hobnail, boxloom, and homespun	Up to $2.75	[6] 30	[6] 35
	From $2.751 to $4.50	[7] 26	[7] 30

[4] Any person who has a previous ceiling price in excess of any price bracket set forth in this column may avail himself of the highest adjusted ceiling price which he would be entitled to charge if his previous ceiling price had been within that bracket.

[5] Styles computed on 72 x 90 inch bedspreads.

[6] This percentage is for cotton bedspreads consisting 95% or more of cotton by weight after finishing. For bedspreads subject to MPR 118 containing a lesser percentage of cotton, subtract 3% for each 10% (or major fraction thereof) of cotton content less than 100%. For example, the percentage increase applicable to jacquard bedspreads which had a previous MPR 118 price up to $2.75 containing 70% cotton and 30% rayon would be 26% for Band A and 21% for Band B.

2. Paragraph (kk) is amended to read as follows:

(kk) *Table napery.* (1) As used herein "cotton table napery" means table cloths, table napkins, and table cloth fabrics subject to Maximum Price Regulation No. 118.[2] "Previous ceiling price" means the highest maximum price which the napery had or would have had under Maximum Price Regulation No. 118 prior to June 30, 1945.[3]

(2) The maximum prices established by Maximum Price Regulation No. 118 for cotton table napery are increased by the percentages appearing below:

Type of napery	Previous ceiling price[4] (per square yard)	Percentage increase for napery consisting 95% or more of cotton[8]	
		Band B	Band A
		Percent	*Percent*
Table cloths and fabrics	Up to $0.30	26	30
	From $0.301 to $0.45	21	25
	From $0.451 to $0.75	16	20
Napkins	Up to $0.40	26	30
	From $0.401 to $0.55	21	25
	From $0.551 to $0.85	16	20

[4] Any person who has a previous ceiling price in excess of any price bracket set forth in this column may avail himself of the highest adjusted ceiling price which he would be entitled to charge if his previous ceiling price had been within that bracket.

[8] This percentage is for table napery consisting 95% or more of cotton by weight after finishing. For napery subject to MPR 118 containing a lesser percentage of cotton, subtract 5% for each 10% (or major fraction thereof) of cotton content less than 100%. For example, the percentage increase applicable to a tablecloth which had a previous MPR 118 price up to $0.30 containing 70% cotton and 30% rayon would be 21% for Band A and 17% for Band B.

3. Paragraph (ll) is amended to read as follows:

(ll) *Woven decorative fabrics.* (1) As used herein "woven decorative fabrics" means (a) those defined in and subject to Maximum Price Regulation No. 39[9] which consists of 50% or more of cotton by weight after finishing, and (b) grey goods subject to Maximum Price Regulation No. 118[2] (i) which are specifically designed for upholstery or drapery use and (ii) which are not lighter than 6 ounces per square yard and (iiia) are woven on a jacquard loom or (iiib) are woven on a loom with a dobby head in a pattern requiring 16 harnesses or more (if not of a pattern requiring a dobby head with 16 or more harnesses, then if during July 11 to September 10, 1941 they were designed and sold exclusively for upholstery, drapery and slipcover use and fabrics which were priced "in line" to such fabrics under § 1400.101 (b) (2) (ii) of Maximum Price Regulation No. 118 and are designed and sold exclusively for upholstery, drapery and slipcover use). "Previous ceiling price" means the highest maximum price which the fabric had or would have had under Maximum Price Regulation No. 39 or Maximum Price Regulation No. 118 prior to June 30, 1945.[3]

(2) The maximum prices established by Maximum Price Regulation No. 39 and Maximum Price Regulation No. 118 for woven decorative fabrics are increased by the percentages appearing below:

[1] 10 F.R. 13114.

[1] 10 F.R. 11296, 11890, 12116, 13269, 13812, 14504, 14657, 14779, 13268, 15004, 15383; 11 F.R. 532, 1771, 1888, 2635, 2972.

[2] 8 F.R. 12186, 12934; 9 F.R. 401, 10088, 10925, 14211, 14383, 14676; 10 F.R. 705, 857, 1492, 2025, 3875, 8134, 8979, 10310, 14063, 15472.

[3] It is to be noted that an item has a "previous ceiling price" even if it was determined on an in-line basis or was specially authorized by the Administrator and, moreover, even if the item was first produced after June 30, 1945. If an item was first priced on an in-line or authorized basis in the period between November 30, 1946 (the effective date of Amendment 7 to SO 131) and May 2, 1946, the "previous ceiling price" should be determined by deducting from such price the percentage of increase over June 30, 1945 ceilings specified in Amendment 7 to SO 131 for the classification of goods within which the item falls.

[9] 9 F.R. 14067; 10 F.R. 4662, 11663, 14063, 14659.

Type of Fabric	Previous ceiling price [1] (per square yard)	Percentage increase for decorative fabrics consisting 95% or more of cotton [2]	
		Band B	Band A
		Percent	*Percent*
I Fabrics subject to MPR 39	Up to $0.90	30	35
	From $0.901 to $1.67	21	25
	From $1.671 to $2.50	14	17½
	From $2.501 to $3.67	7	10
II Grey fabrics described in paragraph (11) (l) (b)	Up to $0.45	30	35

[1] Any person who has a previous ceiling price in excess of any price bracket set forth in this column may avail himself of the highest adjusted ceiling price which he would be entitled to charge if his previous ceiling price had been within that bracket.

[2] This percentage is for woven decorative fabrics consisting of 95% or more of cotton by weight after finishing. For woven decorative fabrics subject to MPR 39 and grey upholstery and drapery fabrics subject to MPR 118 containing more than 50% cotton but less than 95%, subtract the following amounts:

Where the increases are 35% or 30% and 25% or 21%, subtract 3% for each 10% (or major fraction thereof) of cotton content less than 100%; and where the increases are 17½% or 14% and 10% or 7%, subtract 1% for each 10% (or major fraction thereof) of cotton content less than 100%.

For example, the percentage increase applicable to a decorative fabric subject to previous MPR 39 price up to $0.90 containing 70% cotton and 30% rayon would be 26% for Band A and 21% for Band B. For determining the appropriate percentage increase mohair shall be considered cotton when it occurs in an all mohair yarn or in a mohair and cotton twist yarn but not otherwise.

This amendment shall become effective May 2, 1946.

Issued this 2d day of May 1946.

[Order 6]

FEDERAL INTERAGENCY COMMITTEE ON MIGRANT LABOR

ESTABLISHMENT OF COMMITTEE

1. *General statement*—(a) *Purpose.* The purpose of this order is to provide for the establishment of a committee which will be representative of those Federal agencies directly interested in questions relating to living and labor conditions of migrant workers in industry, transportation and agriculture. Reconversion accentuates the problem as workers shift to peacetime reemployment. The traditional conditions under which permanent migrants have worked—irregular recruitment and employment, low wages and their attendant effects, child labor, lack of educational opportunity, poor health and low living levels—are a denial of those American standards which all workers should enjoy. Solution of these problems will contribute to more productive employment in the migrant labor field.

2. *Organization of the Committee.* Pursuant to Title III, section 302, of the War Mobilization and Reconversion Act of 1944 (Public Law 458, 78th Congress), a committee to be known as the Federal Interagency Committee on Migrant Labor is hereby established. This Committee will consist of a Secretary designated by the Administrator of the Retraining and Reemployment Administration and of representatives from the interested Bureaus in each of the following agencies of the Federal Government:

Department of Agriculture.
Department of Labor.
Federal Security Agency.
National Housing Agency.
Railroad Retirement Board.

Representatives of the agencies named will qualify for membership on the Committee upon designation as such by the head of the respective agency and approved by the Administrator. One alternate may be named for each member and, upon qualifying in like manner, such alternate may act in place of his principal. The Administrator, or one designated by him for such purpose, will preside as Chairman of the Committee. The Committee will meet upon call of the Chairman.

3. *Functions of the Committee.* The Committee will review existing legal authority and administrative machinery of the various Government agencies to determine how living and labor standards of migrant workers in industry, transportation and agriculture can be developed and improved. The Committee will submit appropriate recommendations to the Administrator as to the necessary corrective action. It may cooperate and consult with public and private agencies at Federal, State and community levels concerned with various aspects of the migratory labor problem.

Major General, U. S. M. C.,
Administrator.

REROUTING TRAFFIC ON SOUTHERN PACIFIC COMPANY

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 30th day of April A. D. 1946.

It appearing, that due to congestion which interferes with the operation of the Southern Pacific Company at Los Angeles and Long Beach, California, that carrier is unable to transport the traffic offered to it for delivery at those points; the Commission is of opinion an emergency exists requiring immediate action in that section of the country to best promote the service in the interest of the public and the commerce of the people: It is ordered, that:

(a) *Congestion; rerouting of freight traffic.* The Southern Pacific Company is hereby directed to forward all carload freight traffic routed over its lines originating at or east of Colton, California, destined Los Angeles or Long Beach, California, via the Pacific Electric Railway from Colton to Los Angeles Harbor or Long Beach or via the Pacific Electric Railway to connecting line for proper delivery at those two destinations, to expedite its movement and prevent congestion, without regard to the routing thereof made by shippers or by carriers from which the traffic is received, or to the ownership of cars, and that all rules, regulations, and practices of said carriers with respect to car service are hereby suspended and superseded only insofar as conflicting with the directions hereby made; *Provided,* That the billing covering all cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Rates to be applied.* Inasmuch as the routing of traffic pursuant to the order is deemed to be due to carriers' disability, the rates applicable to traffic routed pursuant to this order shall be the same as would have applied had the shipments moved as originally routed.

(c) *Division of rates.* In executing the orders and directions of the Com-

mission provided for in this order, the common carriers involved shall proceed without reference to contracts, agreements, or arrangements now existing between them with reference to the divisions of the rates of transportation applicable to said traffic; such divisions shall be, during the time this order remains in force, voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(d) *Application and exemptions.* (1) This order shall not apply to carload traffic billed to stop in transit if such diversion or rerouting will preclude the movement of the shipment via the named transit point;

(2) This order shall not apply to carload traffic which is of such size, design, construction or weight that clearance regulations require the movement over a designated route;

(3) This order shall not apply to carload traffic consisting of supplies or equipment of troops when accompanying such troops on the same train, or to War Department carload traffic moving under MTX, MI or GS symbols;

(4) The railroad diverting or rerouting traffic under this order shall maintain a record of all cars diverted or rerouted thereunder, and shall be responsible for the reporting of such diversions, including advice to the shipper and consignee, in the same manner as though the shipments had been diverted under its regular diversion and rerouting practices;

(5) Railroads making diversions under this order shall report each day to the Director, Bureau of Service, the number of cars diverted, and the total number of cars diverted to date.

(e) *Effective date.* This order shall become effective at 12:01 a. m., May 1, 1946.

(f) *Expiration date.* This order shall expire at 11:59 p. m., August 31, 1946, unless otherwise modified, changed, suspended, or annulled by order of this Commission. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 49 U.S.C. 1 (10)–(17))

It is further ordered, That copies of this order and direction shall be served upon the Southern Pacific Company and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

RADIO RECEIVER AND ALLIED SPECIAL PURPOSE TUBES

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 31 of Revised Maximum Price Regulation 136, *It is ordered:*

(a) *Definition*—(1) *Radio receiver tubes.* For the purposes of this order, the term "radio receiver tubes" shall mean all electron tubes of the types which are designed and used for radio receiving equipment, prices for which have been filed with the Office of Price Administration under the provisions of Revised Price Schedule 84 or Revised Maximum Price Regulation 136, or may hereafter be filed under the provisions of Revised Maximum Price Regulation 136.

(2) *Allied special purpose tubes.* For the purposes of this order, the term "allied special purpose tubes" shall mean all electron tubes of the types which are designed and used for radio receiving equipment, but are used for hearing aids, audio amplifications, public address systems and inter-communication circuits, prices for which have been filed with the Office of Price Administration under the provisions of Revised Price Schedule 84 or Revised Maximum Price Regulation 136, or may hereafter be filed under the provisions of Revised Maximum Price Regulation 136.

(3) *Tubes.* Wherever used in this order, the word "tubes" shall be deemed to include both radio receiver tubes and allied special purpose tubes.

(4) *Current prices.* For the purposes of this order, the phrase "current prices" shall mean the prices established under section 7 or computed under sections 8, 9 or 10 before the application of any increase for individual adjustments to an individual manufacturer or any increase heretofore authorized for radio tubes under the provisions of section 19 of Revised Maximum Price Regulation 136.

(5) *Sales by manufacturers.* For the purposes of this order, the phrase "sales by manufacturers" shall mean the first sale by a manufacturer as defined in Revised Maximum Price Regulation 136 (except a sale at retail as hereinafter defined), whether or not that sale is made to a manufacturer of electron equipment, to a wholesaler or a retailer, who is not, in any manner, financially controlled by a manufacturer, or to a wholesaler or retailer who is either financially controlled by the manufacturer or is a separate division of the manufacturer, operating as a wholesaler or retailer.

(6) *Sales at retail.* For the purposes of this order, the phrase "sales at retail" shall mean sales by anyone to the ultimate consumer, except consumers who are industrial, commercial, institutional or governmental users.

(7) *Sales at wholesale.* For the purposes of this order, the phrase "sales at wholesale" shall mean all sales which are not either sales by manufacturers or sales at retail.

(b) *Maximum prices for sales by manufacturers of new tubes.* (1) The maximum prices for sales by manufacturers of new tubes to any resellers shall be the current prices increased by 20%.

(2) The maximum prices for sales by manufacturers of new tubes to manufacturers of electron equipment shall be the current prices increased by 27.5%.

(c) *Maximum prices for sales at wholesale of new radio receiver tubes*—(1) *Radio receiver tubes listed in paragraph (d).* The maximum prices for sales at wholesale (inclusive of the manufacturer's Federal excise tax) of new radio receiver tubes listed in paragraph (d) are listed in the table below:

Column I of the table arranges in ascending order all the maximum retail prices which are set forth in paragraph (d).

Columns II, III, IV, V and VI list the corresponding maximum wholesale prices for all the tubes to which the Column I retail prices apply. The quantity which determines the applicable wholesale price column is the total quantity of tubes of all types involved in the sale.

These maximum wholesale prices are f. o. b. point of shipment, and are subject to a discount of 2% if paid in ten days, net thirty days. The seller is required to continue the same guarantee on sales of tubes during March 1942. If the seller was not in business during March 1942, he is required to give the same guarantee or guarantee allowance extended by his most closely competitive seller of the same class to the same class of purchaser.

(2) *Radio receiver tubes not listed in paragraph (d).* To determine the maximum price for a new radio receiver tube not listed in paragraph (d), the wholesaler shall find the suggested retail price from the manufacturer's price list last filed with the Office of Price Administration, in which the tube is listed. The wholesaler shall then take the nearest maximum retail price shown in Column I of the table above and shall determine his maximum wholesale price in accordance with subparagraph (1) of this paragraph.

(d) *Maximum prices for sales at retail of new radio receiver tubes*—(1) *Radio receiver tubes listed in the table in this paragraph. Standard radio receiver tubes are guaranteed against defects for a period of ninety (90) days from the date of sale. No extra charge for testing detached radio tubes. Maximum charge of $.50 for testing all radio tubes in a set if they can be removed from the radio without detaching the radio mechanism from the cabinet. Maximum charge of $1.00 for testing all radio tubes in a set if the radio mechanism must be removed from the cabinet to test the tubes. These maximum charges apply to portable or table model radios or phonographs brought to the seller's establishment.

(2) *Tubes not listed in the table in subparagraph (1) of this paragraph (d).* The maximum price, inclusive of the manufacturers' Federal Excise Tax, for a sale at retail of a radio receiver tube not listed in subparagraph (1) of this paragraph (d), whether sold separately or in connection with the servicing of a radio or phonograph, shall be the suggested retail price shown in the manufacturer's price list last filed with the Office of Price Administration.

(e) *Allied special purpose tubes.* The maximum prices for sales at wholesale and sales at retail of allied special purpose tubes shall be computed as follows:

(1) On sales at wholesale, the maximum prices shall be the manufacturer's list prices last filed with the Office of Price Administration, less the following discounts and any discount for cash which the resellers had in effect on the base date rounded off to the nearest whole cent. The quantity which determines the applicable discount is the total quantity of tubes of all types covered by this order invoiced in the sale.

Quantities:	Discounts (percent)
1–5	34
6–49	39
50–100	43
101–500	46
Over 500	48

(2) On sales at retail, the maximum prices shall be the manufacturer's list prices last filed with the Office of Price Administration.

(f) *Service charges.* The maximum prices for service charges established by this paragraph, supersede the provisions of Revised Maximum Price Regulation No. 165*. No charge may be made for testing tubes brought to the seller's establishment by a customer. A maximum charge of $0.50 may be made for removing, testing, and replacing all of the tubes contained in the electron equipment brought to the seller's establishment by the customer, if the tubes can be removed, tested, and replaced without detaching the chassis mechanism from the cabinet. A maximum charge of $1.00 may be made for removing, testing and replacing all of the tubes contained in the electron equipment brought to the seller's establishment by the customer, if the chassis mechanism must be detached from the cabinet before the tubes can be removed, tested, and replaced. All other service charges remain under Revised Maximum Price Regulation No. 165.

(g) *Guarantee.* The maximum price for a sale to an ultimate consumer of a tube, shall include the standard guarantee against defects extended by the manufacturer of that tube. In no case shall the guarantee be for a period less than 90 days from the date of sale. If a tube subject to guarantee cannot be replaced within a reasonable period of time, the retailer shall give the consumer full credit, or refund the purchase price.

(h) *Federal, State and local taxes.* Federal excise taxes levied after April 1, 1944, and State and local taxes imposed upon the sale of tubes may be added to the maximum prices established under this order, provided they are separately stated and collected.

(i) *Posting.* A seller offering tubes for sale at retail shall post and keep conspicuously posted, at the place in his business establishment where tubes are offered for sale, whether offered separately or in connection with the servicing of electron equipment, a copy of the table of maximum prices contained in paragraph (d) of this order, together with the statement of guarantee and service charges contained therein.

(j) *Sales slips, receipts, and invoices.* Every person making a sale at wholesale of a tube shall furnish the purchaser with a sales slip, receipt, invoice, or other similar written evidence of purchase showing the name and address of the seller and the purchaser, the date of sale, the quantity, types, and prices charged for the tubes. This sales slip, receipt, or invoice or other written evidence of purchase shall be kept by the purchaser, and a carbon copy of it kept by the seller for inspection by the Office of Price Administration.

(k) *Credit charges for sales at retail.* (1) Charges for the extension of credit may be added to the maximum (ceiling) retail prices established by this order, only to the extent permitted by and subject to the requirements of this paragraph:

(i) Sellers who, in March 1942, collected a separately stated additional charge for the extension of credit on sales of tubes may collect a charge for the extension of credit on sales under this order not exceeding such charge in March 1942 on a similar sale or similar items to the same class of purchaser.

(ii) Sellers who did not so state and collect an additional charge may collect a charge for the extension of credit only on instalment-plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale or similar terms to the same class of purchaser in March 1942, by the seller's closest competitor who made such a separately stated charge.

(2) An instalment-plan sale, as used in the above paragraph, means a sale where the unpaid balance is to be paid in instalments over a period of either (i) six weeks or more from the date of sale in the case of weekly instalments, or (ii) eight weeks or more in the case of other than weekly instalments.

(3) All charges for the extension of credit shall be quoted and separately stated. Any charge which is not quoted and stated separately, or which otherwise does not conform to this paragraph shall, for the purposes of this order, be considered to be part of the price charged for the article sold or services rendered.

(4) No seller may require as a condition of sale that the purchaser must buy on credit.

This order shall become effective May 2, 1946.

NOTE: All record-keeping and reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 2d day of May 1946.

[Rev. SR 11, Order 1 Under Order 1]

TOWING RATES

ADJUSTABLE PRICING

Application has been made on behalf of twenty-two companies engaged in performing towing services in New York Harbor for an increase in their maximum towing rates. The rate increase is sought on the basis of wage negotiations now pending, which, if granted, may be retroactive in effect. Because of the substantial nature of wage costs in total operating expense, the impact of a retroactive wage adjustment will probably be substantial. Accordingly, the issuance of an adjustable pricing order is necessary to promote distribution or production. Such action will not be inimical to the purposes of the Emergency Price Control Act, as amended.

Therefore, under authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and applicable Executive orders, and pursuant to subparagraph (d) of Order 1 under Revised Supplementary Regulation 11. It is ordered:

(a) A seller of towing services which are subject to Order No. 1 under Rev. SR 11 may perform towing services at prices not more than the maximum price currently established under the General Maximum Price Regulation or Rev. Supplementary Regulation 11 at the time the towing service is performed. Such a seller may, however, after the effective date of this order, with the consent of the buyer, furnish such towing services subject to an upward adjustment in price if an upward adjustment is later authorized by the Office of Price Administration.

(b) This order shall be automatically revoked upon the establishment by the Office of Price Administration of increased maximum prices based on the current wage proceeding or it may be revoked by order of the Administrator.

(c) This order shall become effective May 1, 1946.

Issued this 1st day of May 1946.

Administrator.

[MPR 188, Rev. Order 3]

HAND LAWN MOWERS

ADJUSTMENT OF CEILING PRICES

Order No. 3 under § 1499.159e of Maximum Price Regulation No. 188 is amended, revised and redesignated, Revised Order No. 3, to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. (a) *Purpose of this order.* Hand lawn mowers have been found to be a reconversion product in accordance with the standards set forth in § 1499.159e of Maximum Price Regulation No. 188. This order is issued under that section and permits manufacturers to increase their October 1941 prices, by a specified price increase factor. It also contains provisions governing wholesalers' and retailers' ceiling prices. It applies only to hand lawn mowers shipped by the manufacturer on and after May 1, 1946. It does not cover articles for which a manufacturer has determined his ceiling price under Order 4332 under Maximum Price Regulation No. 188.

(b) *Definition.* As used in this order:

(1) The terms "wholesalers" and "retailers" respectively refer to persons making sales at wholesale and retail as defined in the General Maximum Price Regulation.

(2) "Chain store" means a store which is one of a group of ten or more retail stores under common ownership or control which, as a group, had combined sales of over $1,000,000 for the year 1944.

(3) "Mail order house", means an establishment selling at retail which makes offerings through catalogs or printed price lists, receives orders by mail, and makes deliveries by mail, railroad, express or other common carriers.

(4) "Hand lawn mower" means a lawn mower which is designed to be pushed by hand and which does not have any motor or engine for rotating, revolving or reciprocating the blades and/or propelling the mower.

(5) "Manufacturer's price" for the purpose of calculating retail ceiling prices in accordance with section 5 of this order means the manufacturer's f. o. b. factory ceiling price to the specified class of purchaser as provided by section 2 of this order, or his selling price to that class of purchaser if it is lower than his ceiling price.

SEC. 2. *Manufacturers' ceiling prices.* (a) A manufacturer's ceiling price for a sale of a hand lawn mower to each class of purchaser is the highest of the following:

(1) 128% of his highest price to each class of purchaser, other than ultimate consumers, in effect between October 1 and October 15, 1941.

(2) 109.4% of his ceiling price to each class of purchaser established under the third or fourth pricing method of Maximum Price Regulation No. 188, prior to May 1, 1946. However, in the case of an article priced under the third pricing method this increase may be charged only when the maximum prices of the comparable articles were no higher than the manufacturer's highest prices in effect to the same class of purchaser between October 1 and October 15, 1941.

(3) His maximum price to each class of purchaser otherwise established under Maximum Price Regulation No. 188, except under Order No. 4332.

(4) His adjusted ceiling price to each class of purchaser authorized under the provisions of Supplementary Orders 118, 133, 148 or Revised Supplementary Order 119.

(b) Regardless of any higher price computed in accordance with paragraph (a) above, a manufacturer's ceiling price to a dealer must allow the dealer a margin on the retail ceiling price fixed by this order of no less than 27%.

(c) If during any calendar quarter the net average price per unit of the hand lawn mowers delivered by a manufacturer is greater than 34% of the net average price per unit of the mowers which he delivered during the corresponding quarter of 1941, the Administrator may issue an order under this section, denying in whole or in part the manufacturer's authority to sell at prices adjusted by all or part of the increases authorized by this section. The average price at which the manufacturer's products have been sold will be considered in determining how much, if any, of the increases will be granted to such a manufacturer.

SEC. 3. *Manufacturers' reports, catalogs and price lists.* Every manufacturer of hand lawn mowers shall, within 10 days after first offering a model for sale to the trade, file a report with the Office of Price Administration, Washington, D. C., giving the model designation, his ceiling prices to each class of purchaser, and an explanation of the method by which he determined each ceiling price. In addition, every manufacturer shall file, with the District Office of the Office of Price Administration having jurisdiction over the area in which his principal place of business is located, three copies of every catalog, price list, and price notification to the trade, etc., in accordance with the provisions of § 1499.159d of Maximum Price Regulation No. 188.

SEC. 4. *Wholesalers' ceiling prices.* The ceiling price for the sale of a hand lawn mower by a wholesaler who ships from his own stocks shall be the retail selling price of that mower for sales in the zone in which the wholesaler's place of business is located less 27%. This price is for sales in the smallest quantities for which the wholesaler has an established ceiling price. It is subject to his established delivery terms, discounts, conditions of sale, and other price differentials as provided by section 11 of this order. The wholesaler's ceiling prices for sales in other quantities or under terms and conditions of sale other than those which can be determined by applying to the price established by this section the wholesaler's customary differentials for such sales, shall be established by application under the provisions of section 11.

SEC. 5. *Retailers' ceiling prices.* Manufacturers are required to calculate the retail ceiling prices of all hand lawn mowers, according to the rules in this section, and to provide tags showing the retail ceiling price for all mowers except those which they sell to a mail order house.

(a) *Chain stores and mail order houses.* The retail ceiling price for a hand lawn mower sold by a manufacturer to a chain store or a mail order house is 150% of the "manufacturer's price" to the class of chain store or mail order house to which he sells in the largest volume.

(b) *Other retailers.* (1) The retail ceiling price for a hand lawn mower for which a manufacturer has a ceiling price to a wholesaler and which he sells to a wholesaler or to a retailer, other than a chain store or mail order house, is 170% of the "manufacturer's price" to the class of wholesaler to which he sells in the largest dollar volume.

(2) The retail ceiling price for a hand lawn mower which a manufacturer sells to a retailer, other than a chain store or mail order house, and for which the manufacturer does not have a ceiling price to wholesalers, shall be fixed, pursuant to an application by the manufacturer, by an order of OPA under this section. Retail ceiling prices fixed under this section will be in line with the level of retail ceiling prices fixed by this order.

A manufacturer applying under this section shall state his ceiling prices for sales of each mower to each class of purchaser, his "manufacturer's prices" to each class of purchaser and his published retail list prices, if any, during October 1941.

(c) *Zone differentials.* (1) The retail ceiling prices determined in accordance with the foregoing provisions of this section are for retail sales in Zone I. The retail ceiling price in Zone II is the retail ceiling price of the same hand lawn mower for a sale in Zone I by the same type of retail seller plus 45¢ per mower.

(2) For the purpose of this section "Zone I" is that area of the following two in which a hand lawn mower is manufactured. The other area is Zone II.

(i) One area consists of the States of Arizona, New Mexico, California, Washington, Oregon, Idaho, Nevada, Colorado, Wyoming, Montana and Texas.

(ii) The other area consists of all the other States in the United States and the District of Columbia.

(d) *Adjustment.* Retail ceiling prices calculated in accordance with the foregoing provisions may be adjusted to the nearest five cents.

(e) *Alternative retail ceiling prices—*
(1) *Who may apply.* The Office of Price Administration may, upon application by a manufacturer, establish ceiling prices for retail sales other than those determined in accordance with the preceding provisions of this section whenever it appears that:

(i) The article was sold at retail at substantially uniform prices prior to April 1, 1942;

(ii) The article is identified by a brand or company name;

(iii) The price requested for the article is no higher than the level of retail ceiling prices fixed by this order.

An order may be issued under this section establishing uniform ceiling prices for all retail sales of an article which shall apply in place of the retail ceiling price that would otherwise have been determined under this section. Except as may be provided by such an order, all other provisions of this order remain in effect.

(2) *What the application must contain.* A manufacturer requesting establishment of uniform ceiling prices under this paragraph (e) must file an application with the Office of Price Administration, Consumer Goods Price Division, Washington 25, D. C. In the application the manufacturer shall state the following:

(i) His business name and address.

(ii) A complete identification of the article for which the price is sought including:

(a) The name identifying the article and its style or lot numbers.

(b) His own ceiling prices to all classes of purchasers.

(c) His "manufacturer's prices" and terms to wholesalers and retailers.

(d) His suggested retail price prior to April 1, 1942.

(e) A list of the names and addresses of his retail and wholesale customers to whom he delivered the article prior to April 1, 1942 in substantial quantities. (Applicant may request OPA to accept a specific part of this list as representative).

(iii) The uniform retail ceiling price which he requests for the article. Different prices may be proposed for sales in each zone.

SEC. 6. *Tagging.* (a) On and after June 1, 1946 no manufacturer shall ship a hand lawn mower to a purchaser for resale, other than a mail order house, unless he provides a retail price tag or label. That tag or label shall state the properly determined retail ceiling price for sales in each zone or in the zone in which the mower will be sold at retail, the manufacturer's name or the brand name, and the model designation.

(b) On and after November 15, 1945, retailers other than mail order houses, may not display, offer for sale, sell or deliver a hand lawn mower at retail which was shipped by the manufacturer prior to May 1, 1946 unless it bears the tag or label provided by the manufacturer as required by this section, as in effect prior to May 1, 1946.

(c) On and after June 1, 1946, retailers other than mail order houses, may not display, offer for sale, sell, or deliver a hand lawn mower at retail, which is shipped by the manufacturer on or after May 1, 1946 unless it bears the tag or label provided by the manufacturer as required by paragraph (a) of this section.

SEC. 7. *Credit charges on retailers' sales.* Charges for the extension of credit may be added to the retail ceiling prices established by this order or by any order issued under this order unless such order provides otherwise. No such credit charge may exceed that permitted by this section.

(a) Retailers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of hand lawn mowers, may collect a charge for the extension of credit on sales under this order, not exceeding such charge in March 1942 on a similar sale on similar terms to the same class of purchaser. Retailers who did not then so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale on similar terms to the same class of purchaser in March 1942 by the retailer's closest competitor who made such a separately stated charge.

An installment plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (1) six weeks or more from the date of sale in the case of weekly installments, or (2) eight weeks or more in the case of other than weekly installments.

(b) All charges for the extension of credit shall be quoted and stated separately. Any change which is not quoted and stated separately or which otherwise does not conform to this section, shall for the purpose of this order, be considered to be part of the price charged for the article sold.

(c) No retailer may require as a condition of sale that the purchaser must buy on credit.

SEC. 8. *Compliance with this order—*
(a) *No buying or selling at over ceiling prices.* Prices established by this order are ceiling prices. Prices lower than ceiling prices may be charged and collected at any time. However, regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any hand lawn mower at a price higher than the ceiling price fixed by this order or before the manufacturer has properly determined his ceiling price under this order.

If, in violation of this provision, a sale, offer to sell, or delivery of any hand lawn mower is made before its ceiling price has been properly established in accordance with this order, the ceiling price applicable to the sale, offer to sell or delivery shall be the correct ceiling price for the hand lawn mower properly determined in accordance with this order.

(b) *Certain practices forbidden.* It shall be a violation of this order to charge a price above the applicable ceiling price in connection with any sale of a hand lawn mower, either alone or in conjunction with any other consideration even though the price increase appears only indirectly.

The following is illustrative of the things a seller is not permitted to do: A seller is not permitted to require the purchaser, as a condition of the sale or transfer of a hand lawn mower, to make payment over a period of time; to require him to finance the purchaser through a particular lending agency; to require him to purchase any equipment, accessories, repairs, parts or services so as to increase the total compensation above the article's ceiling price; to require him to purchase any other commodity or service; or to make payment in whole or in part by exchanging, transferring, or trading in any other hand lawn mower, product or commodity. Where there is an exchange, transfer or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the hand lawn mower product or commodity exchanged, transferred or traded in, which is less than its reasonable value.

SEC. 9. *Notification.* At the time of, or prior to the first invoice to a purchase for resale of hand lawn mowers covered by this order, each manufacturer and wholesaler shall notify the purchaser of states and reseller's ceiling prices in each zone. These notices may be given in any convenient form.

SEC. 10. *Revocation of certain ceiling prices.* Regardless of any provisions of the General Maximum Price Regulation, Supplementary Orders 118, 133 and 148, and Revised Supplementary Order 119, Maximum Price Regulation No. 188, or any approval or order obtained or issued thereunder by the Office of Price Administration, except Order No. 4332 under Maximum Price Regulation No. 188, all ceiling prices heretofore or hereafter established by any seller under those regulations or orders do not apply to any sales or deliveries made after May 1, 1946, except those manufacturers' ceiling prices continued in effect by section 3 of this order.

This section does not affect ceiling prices established under this order prior to its revision effective May 1, 1946.

SEC. 11. *General provisions*—(a) *Delivery, terms, conditions of sale.* (1) The ceiling prices established by this order are subject to each seller's delivery terms, discounts, quantity differentials, conditions of sale and other price differentials in effect during March 1942 or thereafter properly established under OPA regulations.

The ceiling prices established by this order are subject to each seller's delivery terms, discounts, quantity differentials, conditions of sale and other price differentials in effect during March 1942 or thereafter properly established under OPA regulations.

In the case of a wholesaler or retailer who did not sell hand lawn mowers during March 1942, or whose delivery terms, discounts, quantity differentials, conditions of sale, and other price differentials have not been established under OPA regulation, the ceiling prices fixed by this order for his sales are subject to the same delivery terms, discounts, quantity differentials, conditions of sale, and other price differentials which his closest competitor who did sell hand lawn mowers during March 1942, is required to allow under the provisions of this order. If a wholesaler or retailer cannot ascertain the delivery terms, discounts, quantity differentials, condition of sale, and other price differentials which his nearest competitor is required to allow, he shall apply to the nearest District Office of the Office of Price Administration having jurisdiction over the area in which his principal place of business is located, for an order under this section establishing the conditions to which his ceiling prices are subject. Such application may be by letter and shall state the type of business he is operating (wholesale, retail, etc.,) when he started to sell hand lawn mowers, the hand lawn mower he desires to sell and the classes of purchasers to which he sells. An order will be issued under this section establishing terms, discounts, quantity differentials, conditions of sale, and other price differentials in-line with such conditions of sale, etc., generally fixed by this order.

If a wholesaler or retailer who did not sell hand lawn mowers during March 1942, does not allow the same delivery terms, discounts, quantity differentials, conditions of sale, and other price differentials allowed by his nearest competitor who did sell hand lawn mowers during March 1942, or does not file an application in accordance with the provisions of this section, or if he fails to provide the information required by this section, the Price Administrator may on his own motion, issue orders under this section fixing delivery terms, discounts, quantity differentials, conditions of sale, and other price differentials in-line with such conditions of sale generally fixed by this order. Conditions of sale so established will apply to all sales and deliveries made on and after May 1, 1946.

(b) *Resellers' ceiling prices not determined under other provisions of this order.* A wholesaler or retailer who cannot determine his ceiling prices under any of the preceding provisions of this order shall apply to the District Office of Price Administration having jurisdiction over the area in which his principal place of business is located, for an order under this section establishing his ceiling prices for his sales. Ceiling prices will be established in-line with the level of ceiling prices fixed by this order. The application filed under this provision shall give the information called for by paragraph (a) above in the case of an application for the establishment of terms, discounts, and other conditions of sale.

(c) *Definitions.* Unless the context requires otherwise, the definitions contained in § 1499.20 of the General Maximum Price Regulation and § 1499.163 of Maximum Price Regulation No. 188, whichever is applicable, shall apply to all terms used herein.

(d) *Relationship of this order to the General Maximum Price Regulation and Maximum Price Regulation No. 188.* The provisions of this order supersede the provisions of the General Maximum Price Regulation and Maximum Price Regulation No. 188, with respect to sales and deliveries for which ceiling prices are established by this order, only to the extent that they are inconsistent with the provisions of those regulations.

SEC. 12. *Delegation of authority.* Any Regional Administrator or District Administrator authorized by the appropriate Regional Administrator may issue orders under paragraphs (a) and (b) of section 11 of this order.

SEC. 13. *Modification of the provisions of this order.* The provisions of this order, as applicable to articles or persons subject hereto, may be modified by orders of general applicability issued under this section.

NOTE: All reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall become effective on the 1st day of May 1946.

Issued this 1st day of May 1946.

PAUL A. PORTER,
Administrator.

This revised order specifies a price increase factor to be used by manufacturers of this product; and it sets forth the specific pricing provisions which all sellers are to follow in calculating their maximum prices for sales of the product.

SEC. 2. *Articles covered by this revised order.* This revised order covers all innerspring mattresses made with Bonnell, Clip and Crimp Types (wire-tied) units, including but not limited to youth-bed and crib sizes. It does not cover innerspring mattresses made with Marshall Type (pocketed coil) units.

SEC. 3. *Manufacturers maximum prices*—(a) *Determination of maximum prices.* Manufacturers shall continue to determine their maximum prices for articles covered by this revised order under the same regulation and pricing provisions applicable before this revised order was issued.

(b) *Increase factor.* Manufacturers may increase, by 18 per cent, their maximum prices (exclusive of any permitted increases) properly established under Maximum Price Regulation No. 188 or the "comparability method" of Order No. 4332 under that regulation for sales to all persons except household consumers.

(c) *"Adjusted maximum price".* A manufacturer's "adjusted maximum price" is the highest of the following three amounts:

(1) His maximum price properly established under Maximum Price Regulation No. 188 or the "comparability method" of Order No. 4332 under that regulation increased by 18 per cent in accordance with paragraph (b) of this section.

(2) His maximum price properly established under Maximum Price Regulation No. 188 or Order No. 4332 under that regulation, plus any increases in that maximum price permitted by an OPA order,[1] other than this revised order, or Order No. 5 under Maximum Price Regulation No. 188.

A manufacturer may make sales and deliveries at or below his adjusted maximum price computed under this section.

(d) *"Unadjusted maximum price".* A manufacturer's "unadjusted maximum price" for his sale of an article covered by this revised order is 89 percent of his actual selling price for the article (before making discounts, allowances and other price differentials, including PMs—premium money payments).

SEC. 4. *Maintenance of normal production.* An order may be issued under this section denying a manufacturer permission to adjust his maximum prices by all or part of the increase factor specified in section 3 when it appears to the Price Administrator, on the basis of information available to the Office of Price Administration, that: (a) the manufacturer has discontinued production of the low-end models which he made and delivered during the period from July 1, 1940 to June 30, 1941; or (b) the manufacturer has decreased the proportion of low-priced to high-priced models which he made and delivered during the period from July 1, 1940 to June 30, 1941, so that his present or prospective production is not representative, in that respect, of his production during that period.

The average price at which the manufacturer's production of each article will be sold shall be a consideration in determining the amount, if any, of the increase which will be granted such a manufacturer.

SEC. 5. *Manufacturers' reports.* (a) Before delivering an article covered by this revised order, each manufacturer shall file a report with the Office of Price Administration, Washington 25, D. C., which report shall set forth the following:

(a) The date of the report.

(b) The manufacturer's name and address.

(c) The model designation of the article.

(d) The specifications of the article.

(e) The manufacturer's "adjusted maximum price" for sales of the article to each class of purchaser (as defined in section 3 of this revised order).

(f) The manufacturer's terms, discounts, allowances, and other price differentials in effect during March 1942 or thereafter properly established under the applicable OPA regulation.

The report must be filed by every manufacturer whose maximum price has been established under Maximum Price Regulation No. 188, or under Supplementary Order No. 118; or has been adjusted under Revised Supplementary Order No. 119, or under Supplementary Order No. 118, 133, or under Order A-2 under Maximum Price Regulation No. 188, or under this revised order, or under Order No. 5 under Maximum Price Regulation No. 188.

NOTE: Section 10 sets forth additional information required with respect to "branded articles."

(b) No manufacturer may sell an article covered by this revised order at a price higher than 89 percent of his adjusted maximum price for the particular sale (as defined in section 3), unless the report specified in (a) has been filed.

SEC. 6. *Maximum prices for sales at wholesale; or to commercial and institutional users*—(a) *Sales covered by Maximum Price Regulation No. 590.* This paragraph (a) modifies the pricing provisions of Maximum Price Regulation No. 590 with respect to articles covered by this revised order. Unless the context otherwise requires, the definitions in Maximum Price Regulation No. 590 apply to the terms used in this paragraph.

(1) *Adjusted maximum price.* The adjusted maximum price of a wholesaler whose sales are covered by Maximum Price Regulation No. 590, for sales to each class of purchaser of an article covered by this revised order is the "net cost" of the article (based on his supplier's unadjusted maximum price) plus 80 percent of the dollar-and-cent difference between his supplier's unadjusted maximum price and the wholesaler's actual invoice cost, multiplied by the wholesaler's appropriate "category markup". For the purposes of this subparagraph (1) "supplier's unadjusted maximum price" and "wholesaler's actual invoice cost" refer to those amounts as they appear on his supplier's invoice after all discounts except cash discounts.

(2) *Unadjusted maximum price.* The "unadjusted maximum price" of a wholesaler whose sales are covered by Maximum Price Regulation No. 590 is the price determined by multiplying the "net cost" of the article (based on his supplier's unadjusted maximum price) by the wholesaler's appropriate "category markup".

However, if the wholesaler's selling price for the article is below the "unadjusted maximum price" computed in this way, the "unadjusted maximum price" which must appear on the wholesaler's invoices for that article is the same as the wholesaler's selling price.

If, in accordance with section 4 or 7 of Maximum Price Regulation No. 590, a wholesaler elects to sell an article at his "highest price charged during March 1942," instead of at the price found by applying his "category markup" to his "net cost," the "unadjusted maximum price" which must appear on the wholesaler's invoice for that article is the same as his selling price.

If, in accordance with section 3a of Maximum Price Regulation No. 590, a wholesaler adopts as his own the manufacturer's maximum prices to a particular class of purchaser, the "unadjusted maximum price" which must appear on his invoice for the article is the same as the manufacturer's "unadjusted maximum price" for sales of that article to the same class of purchaser.

(b) *Sales not covered by Maximum Price Regulation No. 590; and sales to commercial and institutional users.* This paragraph (b) sets forth the methods by which persons making sales at wholesale which are not covered by Maximum Price Regulation No. 590, shall determine their maximum prices. A person who purchases a wire-tied innerspring mattress from the manufacturer, and resells it to a hospital, hotel, or any other commercial or institutional user, shall also determine his maximum price under this paragraph.

(1) *Adjusted maximum prices.* (i) A seller who must determine his maximum price under this paragraph (b), who delivered or offered for delivery during March 1942, an article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall find his adjusted maximum price according to the method and pro-

[1] This refers to Supplementary Order No. 118, and to orders issued under Revised Supplementary Order No. 119, or Supplementary Order No. 133, and Order No. A-2 under Maximum Price Regulation No. 188.

cedure set forth in that section by adding the same markup which he had on that comparable article to the total of:

His supplier's unadjusted maximum price, as it appears on his purchase invoice; and

80 percent of the dollar-and-cent difference between his supplier's unadjusted maximum price and the seller's actual invoice cost.

The seller may make sales covered by the General Maximum Price Regulation, at prices at or below his adjusted maximum price computed in this way.

The determination of a maximum resale price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620–759, with regard to how he determines his maximum resale price. These records shall be kept available for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(ii) If the seller cannot determine his adjusted maximum price under (i), he shall apply to the Office of Price Administration for the establishment of his adjusted maximum price under § 1499.3 (c) of the General Maximum Price Regulation. The application shall, in addition to the information specifically required by that section, also give the following information:

(*a*) His supplier's unadjusted maximum price as it appears on his purchase invoice.

(*b*) His actual invoice cost.

An adjusted maximum price established in this way will be in line with adjusted maximum prices established generally under section 6 of this revised order.

(2) *Unadjusted maximum prices.* (i) A seller who must determine his maximum price under this paragraph (b), who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall find his "unadjusted maximum price" according to the method and procedure set forth in that section by adding the same markup which he had on that comparable article to his supplier's unadjusted maximum price as it appears on his purchase invoice.

(ii) If the seller cannot determine his unadjusted maximum price under (i), he shall, at the time he applies for an adjusted maximum price to the Office of Price Administration under paragraph (b) (1) (ii) of this section also, apply for the establishment of an unadjusted maximum price. Unless such an unadjusted maximum price is established, he may not make sales of the article even though his adjusted maximum price is properly established.

SEC. 7. *Invoice to purchasers for resale.* (a) Every person who delivers an article covered by this revised order to a purchaser for resale (except a retailer making a "cross-stream sale" covered by section 9 (b) of Maximum Price Regulation No. 580) shall furnish to the purchaser an invoice or other written evidence of sale, containing the following:

(1) The name and address of both the seller and purchaser, and the date of sale.

(2) The name, number, or other identification of each article sold.

(3) The quantity of each article sold.

(4) The seller's unadjusted maximum price for each article sold.

(5) The actual selling price of each article sold.

(6) The nature and amount of any additional charges.

(7) The terms of sale.

(b) No article covered by this revised order may be sold at a price higher than 80 percent of the seller's adjusted maximum price for the particular sale, unless the information specified in items (4) and (5) of the preceding paragraph is separately stated on the invoice or other written evidence of sale, and unless the seller's unadjusted maximum price is so identified.

(c) The seller shall retain a copy of such invoice or other written evidence of sale, for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(d) A retailer making a cross-stream sale to another retailer must furnish the purchaser with the proper invoice required by section 9 (b) of Maximum Price Regulation No. 580. If the cross-stream sale is made in accordance with section 9 (b) (1) of Maximum Price Regulation No. 580, the seller must also state on his sales invoice his supplier's unadjusted maximum price for each article covered by this revised order which appears on the invoice.

NOTE: The provisions of this section are modified by section 10 with respect to transactions involving "branded articles".

SEC. 8. *Notification to purchases for resale.* At the time of, or prior to, the first invoice to each purchaser for resale showing a maximum price adjusted in accordance with this revised order, the seller shall notify the purchaser in writing, that:

(a) If he is a wholesaler he must determine his maximum resale prices for articles covered by this order under section 6 of Revised Order No. 5 under § 1499.159e of Maximum Price Regulation No. 188.

(b) If he is a retailer he must determine his maximum resale prices for articles covered by this order under section 9 of Revised Order No. 5 under § 1499.159e of Maximum Price Regulation No. 188; or, if the article is a "branded article", under section 10 of that revised order; or if his sale is to a commercial or institutional user, under section 6 of that revised order.

SEC. 9. *Retailers' maximum prices—(a) Retailers whose sales are covered by Maximum Price Regulation No. 580.* If the retailer determines his maximum price under Maximum Price Regulation No. 580, he shall calculate his maximum price following the rules set forth in that regulation, by using a "net cost" based on his supplier's "unadjusted maximum price" as it appears on his purchase invoice.

(b) *Retailers whose sales are covered by the General Maximum Price Regulation.* If the retailer determines his maximum prices under the General Maximum Price Regulation, his maximum price for sales of an article covered by this revised order shall be computed as follows:

(1) A retailer who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall determine his maximum resale price by adding to his supplier's unadjusted maximum price (as it appears on his purchase invoice) the same markup which he had on that comparable article, according to the method and procedure set forth in that section.

(2) The determination of a maximum resale price under (1) need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620–759, with regard to how he determines his maximum resale price. These records shall be kept available for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(3) If a retailer cannot determine his maximum resale price under (1), he shall apply to the Office of Price Administration for the establishment of his maximum resale price under § 1499.3 (c) of the General Maximum Price Regulation. The retailer's application shall, in addition to the information specifically required by that section, also give the following information:

(i) His supplier's unadjusted maximum price.

(ii) His actual invoice cost.

(iii) A retailer's maximum price established under this subparagraph (3) will be in line with retailer's maximum prices established generally under this revised order.

NOTE: If the article being priced is a "branded article" its retail ceiling price is fixed by section 10.

SEC. 10. *"Branded articles."* This section sets forth the changes and additions to the other provisions of this revised order, applicable to transactions involving "branded articles."

(a) *Definition.* An article covered by this revised order is a "branded article" if:

(1) It was advertised at a uniform retail price, during or prior to March 1942; and

(2) It is identified by a brand or company name; and

(3) During or prior to March 1942, it generally was sold at retail at the advertised uniform retail price.

(b) *Retail ceiling price.* (1) The maximum price for sales of a branded article by a retailer to an ultimate consumer is the retail ceiling price which the manufacturer has calculated, and has properly stated on the tag attached to the article.

(2) Each manufacturer shall calculate the retail ceiling price of his branded article in the following manner: He shall multiply by 172 percent his highest f. o. b. factory or f. o. b. warehouse l. c. l. maximum price for sales of the particular article to retailers, after deducting cash discounts, rounding the result to the nearest twenty-five cents.

(c) *Manufacturers' reports.* Before first offering a branded article covered by this revised order, for sale after the effective date of this order, each manufacturer shall file a report with the Office of Price Administration, Washington 25, D. C., which report shall set forth the information specified in section 5 (a), and also:

(1) The brand name of the article.

(2) The retail ceiling price of the article.

(d) *Invoices to purchasers for resale.* (1) If the branded article is sold by a manufacturer to a retailer, the invoice required by section 7 (a) of this revised order shall set forth all the information required by that section, except that it shall not set forth the manufacturer's unadjusted maximum price but shall instead state the retail ceiling price of the article in the following form (with the blank properly filled in).

OPA Retail Ceiling Price—$———.

(2) If the branded article is sold to a wholesaler the invoice required by section 7 (a) of this revised order shall, in addition to the information set forth in that section also state the retail ceiling price in the following form (with the blank properly filled in).

OPA Retail Ceiling Price—$———.

(3) If the branded article is sold by a wholesaler to a retailer, the invoice required by section 7 (a) of this revised order shall set forth all the information required by that section, except that it shall not set forth the seller's unadjusted maximum price.

(4) If the branded article is sold by a retailer to another retailer (cross-stream sale) the seller shall furnish the purchaser only with the proper invoice required by section 9 (b) of Maximum Price Regulation No. 580.

(e) *Tagging by manufacturers.* On and after January 1, 1946, no manufacturer shall deliver any branded article unless it has attached to it a durable tag or label which shall state in clearly readable print, the brand name of the article; and the following statement with the amount properly filled in:

OPA Retail Ceiling Price—$———

This Tag May Not Be Detached Until After Delivery To the Consumer

SEC. 10a. *Credit charges.* Charges for the extension of credit may be added to the maximum (ceiling) retail prices established by this revised order only to the extent permitted by this section.

(a) Sellers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of any article covered by this revised order, or similar types of articles may collect a charge for the extension of credit on sales under this regulation, not exceeding such charge in March 1942 on a similar sale or similar terms to the same class of purchaser. Sellers who did not so state and collect an additional charge may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale or similar terms to the same class of purchaser in March 1942 by the seller's closest competitor who made such a separately stated charge.

An installment-plan sale, as used in the above paragraph, means a sale where the unpaid balance is to be paid in installments over a period of either (1) six weeks or more from the date of sale in the case of weekly installments, or (2) eight weeks or more in the case of other than weekly installments.

(b) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this section, shall for the purpose of this regulation, be considered to be part of the price charged for the article sold.

(c) No seller may require as a condition of sale that the purchaser must buy on credit.

SEC. 11. *Terms of sale.* Every seller of an article covered by this revised order must maintain all terms, discounts, allowances, and other price differentials (including PMs—premium money payments), in effect during March 1942, or which have been subsequently properly established under Office of Price Administration regulations or orders.

SEC. 12. *Relationship of this revised order to other orders or regulations—(a) Maximum Price Regulation Nos. 188, 580 and 590.* The provisions of this revised order supersede the provisions of Maximum Price Regulation Nos. 188, 580 and 590, only to the extent that they are inconsistent with the provisions of those regulations.

(b) *Revised Supplementary Order No. 119, Supplementary Order Nos. 118 and 133, or Order No. A–2 under Maximum Price Regulation No. 188.* Manufacturers may continue to adjust their maximum prices in accordance with the increase permitted under Revised Supplementary Order No. 119, Supplementary Orders Nos. 118 and 133 or Order No. A–2 under Maximum Price Regulation No. 188, instead of the increase factor specified in section 3. If a seller's maximum prices are adjusted under one of these orders instead of under this revised order, he must nevertheless comply with the invoicing, reporting, tagging, and notification provisions of this revised order. These provisions supersede any contrary provisions contained in any individual order issued to any seller.

SEC. 13. *Revision of maximum prices.* Any maximum price adjusted under this revised order may be revised by the Price Administrator whenever he determines that such adjusted maximum price is not in line with the level of October 1941 prices increased by 18 percent, giving due consideration to the manufacturer's customary price relation to other manufacturers in the industry.

SEC. 14. *Revocation or amendment.* This revised order may be revoked or amended by the Price Administrator at any time.

SEC. 15. *Effective date.* This revised order shall become effective on May 6, 1946.

NOTE: The reporting and record keeping provisions of this revised order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942, as amended.

Issued this 1st day of May 1946.

Administrator.

[MPR 571, Rev. Order 3]

RENTAL OF CERTAIN TYPES OF COMMERCIAL MOTOR VEHICLES ON CONSTRUCTION, ROAD MAINTENANCE AND HOUSING PROJECTS, IN THE UNITED STATES

Order No. 3 under MPR 571 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act, as amended, and section 14 of Maximum Price Regulation 571, it is hereby ordered:

(a) *Applicability of this order.* This order applies to all rentals of motor vehicles, trailers and accessorial equipment of the described types, whether leased on a "bare" basis, or on a "fully maintained and operated" basis with or without drivers, for use on or in connection with construction, road maintenance or housing projects (herein referred to as "construction") in any of the forty-eight States of the United States or the District of Columbia.

(b) *Relation of this order to other regulations and orders.* The maximum prices fixed by this order supersede any maximum price or pricing method previously established under the General Maximum Price Regulation, Maximum Price Regulation 165, as amended, Revised Maximum Price Regulation 165, Region 8 Order G-13, Maximum Price Regulation 571 and Orders 1, 2 and 3 under Maximum Price Regulation 571, with respect to the rental services covered herein.

(c) *Maximum rates for automotive equipment rentals*—(1) *"Bare" basis.* The maximum rates for the rental of motor vehicles, trailers and accessorial equipment or combinations thereof, for use on construction projects are set forth in "Schedule A."

(2) *"Fully maintained and operated" basis.* The maximum rates for the rental of motor vehicles, trailers and accessorial equipment, or combinations thereof, on a "fully maintained and operated" basis for use on construction projects are set forth in "Schedule B."

(3) *Combination charges prohibited.* In no event may any charge for a particular rental of a motor vehicle be based on a combination of "Schedule A" and "Schedule B" rates.

(d) *Less than maximum rates.* Nothing in this order prevents the charging, offering, or paying of rates lower than the maximum rates permitted by this order.

(e) *Modification of rates.* The Administrator may by order authorize rentals other than those provided in this order, either lower or higher, applicable to particular construction projects, where it is demonstrated that due to conditions peculiar to the project, the rates herein established are either higher or lower than would be generally fair and equitable, to either lessee or lessor.

(f) *Effective date of order.* As to any person who performed the same type of service on construction projects in March 1942, or who established a maximum rate under Maximum Price Regulation 165, as amended, or Revised Maximum Price Regulation 165 and properly reported to the Office of Price Administration, or whose maximum rate was previously adjusted, or established under Region VIII Order G-13, Maximum Price Regulation 571, Orders 1, 2 and 3 under Maximum Price Regulation 571, this order applies to all rentals on and after the effective date of this revised order. As to any person who has not so established rental rates for the same or similar rental services, the rates prescribed herein constitute a price determination under section 5 (a) of the regulation and apply to all rentals made on and after February 3, 1945, the effective date of Maximum Price Regulation 571.

(g) *Effect on applications under section 5 (a).* Any person subject to this order is exempt from the requirement of filing an application for approval of a maximum rate pursuant to section 5 (a) of Maximum Price Regulation 571.

This order may be amended or revoked by the Price Administrator at any time.

V. W., means the greatest weight of vehicle and load the manufacturer authorizes and guarantees the vehicle to accommodate with safety under normal conditions of operation. This rating involves the combined weights of chassis, cab, special equipment, body and body contents commonly called payload and of the largest tires with which the manufacturers will authorize the vehicle to be equipped.

The above conversion table shall not apply to army motor vehicles where the Secretary of War has established a rated capacity in tons for such Army "Standard Vehicles."

PART III—APPLICATION OF RATES

(a) The monthly rates established herein are based upon a usage of 240 hours per month. For actual use for more than 240 hours during one monthly period, the maximum additional rental price for each additional hour, or part of an hour, for such actual use shall be calculated upon the basis of 1/480 of the applicable rate per month shown in the foregoing schedule.

(b) If used for a part of a monthly period, the maximum rental rate for such part of the monthly period shall be calculated upon the basis of the higher of: (1) 1/30 of the applicable monthly rate for each daily period, or part thereof, of possession or (2) 1/240 of the applicable monthly rate for each hour, or part thereof, of actual use.

(c) All fuel and lubricants used in the operation of motor vehicles shall be furnished (or paid for) by the Lessee.

(d) Drivers' wages are excluded from all rates indicated hereon.

PART IV—DEFINITION AND GENERAL PROVISIONS

"Bare" basis refers to any lease, contract, or understanding, regardless of whether the same is denominated a rental agreement, or forms a part of another agreement, whereby one party undertakes to furnish another party with any of this equipment, without supplying any operating and maintenance services required therewith.

Rental rates set forth in this table are for "bare" motor vehicles or trailers, and do not include charges for drivers, mechanics, greasers, gasoline, fuel oil, lubricants, repairs, or maintenance (except that due to normal wear and tear) or any other charge which is properly a part of operating and maintenance service. The rental rates set forth in this table include an allowance for the cost of all repairs and overhauling required as a result of normal wear and tear of vehicles. This means that:

(a) When vehicles are on bare rental and break down as a result of normal wear and tear, lessor cannot charge lessee with the cost of repairs, or any rental for the time lost while repairs are being made.

(b) Where vehicles on bare rental break down as a result of any cause other than normal wear and tear, lessor can charge lessee with the cost of repairs and with rental for possession of vehicles during the time while repairs are being made.

(c) However, where vehicles are on bare rental, the lessee may at his own expense always make minor repairs, regardless of the cause of breakdown, where such repairs are necessary to keep the job going, but he may not charge the cost of such repairs to the lessor or deduct the time lost for making repairs from the rental period, without the lessor's consent.

(d) In any instance where there is a breakdown of vehicles on bare rental, the cause of such breakdown is a question of fact that must be determined between the lessor and the lessee.

(e) A bare rental contract may provide for the assumption by the lessee of the duty to make all repairs and replacements at his own cost and expense, including those resulting from normal wear and tear and including tire repair or replacement, provided that in such exent the rental shall not exceed 85% of the applicable maximum rental rate set forth in this table. By way of illustration but not limitation, such a lessee may be required to pay the entire cost of a repair or replacement necessitated by climatic conditions, fire, flood, tornado, etc., while the

vehicle is or was in his possession, and the normal wear and tear resulting from his use, and may be required to pay rental during the repair period. He may be required to pay a proportion of the cost of tires; for example, based upon his mileage use as compared with the normal mileage life of the tires. However, he shall not be required to pay for repair or replacement due to pre-existing or hidden defects, or to defective material, nor would he be required to pay rental during the repair period.

[SO 148, Order 4]

THE CANTON STAMPING AND ENAMELING CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to sections 3 and 5 of Supplementary Order No. 148, it is ordered:

(a) *Manufacturer's maximum prices.* The Canton Stamping and Enameling Company, Canton, Ohio, may increase by no more than 9.32 percent its maximum prices to each class of purchaser established by Maximum Price Regulation No. 188 for sales of porcelain enameled kitchen utensils in single coat gray ware and blue speckled ware and two coat white ware of its manufacture.

(b) *Maximum prices of purchasers for resale.* A purchaser for resale shall determine his maximum price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established maximum price. For this purpose, the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration, for the establishment of a maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or established under any applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale showing a ceiling price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the adjusted ceiling prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(e) *Relation between this order and Supplementary Order No. 153.* The provisions of Supplementary Order No. 153 shall not apply to sales of any of the articles covered by this order.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 1st day of May 1946.

Issued this 1st day of May 1946.

[Rev. Max. Import Price Reg. Order 363 Under Order 38]

NORWEGIAN SILD SARDINES

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the provisions of section (c) (5) of Order 38 under the Revised Maximum Import Price Regulation, it is ordered:

(a) *Purpose of this order.* The purpose of this order is to establish separate maximum prices at which imported Norwegian Sild Sardines (any brand) packed in refined herring oil, may be sold by importers to wholesalers, chain stores, independent retail stores, industrial and institutional users without having to make application to the Office of Price Administration for the issuance of an individual order.

(b) *Application of this order.* The maximum prices established by this order apply to importers' sales to the classes

of purchasers named herein, of imported Norwegian Sild Sardines (any brand) packed in refined herring oil.

(c) *Importers' maximum prices.* The maximum prices, above which no importer shall sell and no person buying from an importer shall purchase, on sales to the classes of purchasers named, for the following designated size of imported Norwegian Sild Sardines (any brand) packed in refined herring oil, shall be as follows:

Sales by importers to—	Per case of 100 33¾-ounce Norwegian sild sardines in refined herring oil	
	Aluminum containers	Tin containers
Wholesalers and chain stores	$15.31	$14.35
Independent retailers	16.12	15.11
Industrial and institutional users	16.80	15.75

The maximum prices authorized above are ex dock or ex warehouse any United States continental point or port of entry. For sales with delivery made at some other point, payment incurred for transportation from the dock or warehouse at the point or port of entry to such other point may be added. Such transportation payment, however, shall not include the expense of local hauling or drayage within the metropolitan area of the point or port of arrival.

(d) *Terms of sale.* The importer with respect to his sales of imported Norwegian Sild Sardines (any brand) packed in refined herring oil, for which maximum prices are established by this order, shall reduce such maximum prices by the discount for cash or prompt payment customarily granted on sales of Norwegian Sild Sardines (any brand) packed in refined herring oil, to purchasers of the same class.

(e) *Definitions.* A "wholesaler" is a person other than a chain store, an independent retail store, industrial or institutional user, who purchases and sells food products, generally, without materially changing their form.

A "chain store" is one of four or more retail stores under one ownership whose combined "annual gross sales" are $500,000 or more, and which purchases and re-sells food products, generally, without materially changing their form, to ultimate consumers other than industrial or institutional users.

An "independent retail store" is one that is not one of four or more stores under one ownership whose combined "annual gross sales" are $500,000 or more and which purchases and re-sells food products, generally, without materially changing their form, to ultimate consumers other than industrial or institutional users.

An "industrial user" is any person who, either for his own commercial use for resale, subjects an imported food item covered by this order, to a process that results in the production of a new and different article having a distinctive name, character or use; or who uses such food item as an ingredient or a component part of such an article.

An "institutional user" is a restaurant, hotel, club, hospital, or other similar establishment using an imported food item covered by this order, in preparation or service of meals to individual consumers.

(f) The total landed costs upon which the maximum prices in this order are based include duty in the amounts of $2.95 per case for the Norwegian Sild Sardines packed in aluminum containers and $2.75 per case packed in tin containers. If the duty actually paid is higher than set out above, the difference may be added to the maximum prices established in section (c). If the duty actually paid is lower than that set out above, the difference must be subtracted from the maximum prices established in section (c).

(g) *Relation of this order to Order 38.* Unless the context otherwise requires, the provisions of Order 38 under the Revised Maximum Import Price Regulation with the requirement of notice to purchasers as set out in paragraph (k) shall apply for the sale for which the maximum prices are established by this order.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective May 7, 1946.

Issued this 2d day of May 1946.

Administrator.

Standard Power and Light Corporation proposes to sell from time to time all or any part of the 1,160,000 shares of common stock of Standard Gas and Electric Company now owned by it, such sales to be either private sales for investment or to be made in the open or counter market as exempt transactions as defined in the Securities Act of 1933, in amounts and from time to time as may be determined by the Board of Directors of the Corporation, subject, if required, to authorization by the holders of common stock and common stock, series B.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said declaration (File No. 70-1265) shall not become effective except pursuant to further order of this Commission; and

Standard Power and Light Corporation having heretofore filed a declaration proposing to sell from time to time all or any part of the 1,160,000 shares of common stock of Standard Gas and Electric Company now owned by it, such sales to be made for cash on the New York Stock Exchange (File No. 70-731) and the Commission having issued a notice of filing and order for hearing (Holding Company Act Release No. 4338), hearings having been held on the issues presented in that declaration, evidence having been presented by the parties;

All persons desiring to be heard or otherwise wishing to participate in these proceedings shall notify the Commission in the manner provided in Rule XVII of the Commission's rules of practice on or before May 13, 1946.

It is further ordered, That the Secretary of this Commission shall serve notice of this order by mailing copies thereof by registered mail to Standard Power and Light Corporation, and that notice shall be given to all persons by publication thereof in the FEDERAL REGISTER.

Chapter IX—Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827 and Pub. Law 270, 79th Cong.: E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; E.O. 9638, 10 F.R. 12501; CPA Reg. 1, Nov. 5, 1945, 10 F.R. 13714.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Schedule I, as Amended May 3, 1946]

CRITICAL PRODUCTS

(a) *Introduction.* The table in this Schedule lists certain of the critical products which the Civilian Production Administration has determined to be in such tight supply that they are serious threats to the national economy. (This Schedule supersedes former Directions 1 through 5 and 7 through 12 to PR-28 covering critical products.) When effective assistance of other kinds is not practicable, the CPA may assign CC preference ratings under paragraph (e) of Priorities Regulation 28 for material which is needed to sustain or increase the production of these products. In addition to the rules explained in paragraph (b) below, the general rules in paragraphs (c) and (d) of Priorities Regulation 28 governing the application for and assignment of CC ratings are also applicable. Especially important is paragraph (d) (1) of Priorities Regulation 28, requiring a determination that the use of substitute and less scarce materials is not practicable, that reasonable efforts have been made to get the required item without a rating, and that a rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and available without a rating.

(b) *Explanation of table.*

Column I—Critical products. Column I lists the critical products for which CC ratings may be granted to sustain or increase production. When "specialized machinery" for another critical product is listed in Column I, it includes only machinery and equipment designed solely for the production of that critical product. It does not include general types of equipment suitable for other use even though a particular piece of equipment is designed and built expressly for a producer of the critical product.

Column II—Persons eligible. Column II states the persons who may apply for CC ratings. Where Column VI indicates that CC ratings may be assigned for construction, the builder or contractor may apply instead of the person listed.

Column III—Production materials. (1) If the word "yes" appears in Column III, the CPA may assign CC ratings to the person named in Column II to get production materials needed to make the item listed in Column I regardless of the applicant's minimum economic rate of operation. Where the applicant regularly sells materials as maintenance, repair or operating supplies for the item he makes, CC ratings may also be assigned to him for such supplies or for materials needed to make them. Applications for CC ratings for textile fabrics or yarns should be made under Priorities Regulation 28A, and CC ratings may be assigned under paragraph (d) of that Regulation in accordance with subpargaraph (d) (5) (i).

(2) If the word "no" appears in Column III, CC ratings will be assigned for production materials only as provided in Priorities Regulation 28. The same rule applies to any production materials expressly excluded from Column III.

Column IV—Capital equipment. (1) If the word "yes" appears in Column IV, the CPA may assign CC ratings to the person named in Column II to get capital equipment which either (i) will result in a substantial increase in production of the item listed in Column I, or (ii) is needed to replace present operating equipment which is in danger of imminent breakdown.

(2) Where the word "no" appears in Column IV, CC ratings will be assigned for capital equipment only as provided in Priorities Regulation 28. The same rule applies to any capital equipment expressly excluded from Column IV.

Column V—MRO. (1) If the word "yes" appears in Column V, the CPA may assign CC ratings to the person named in Column II to get maintenance, repair and operating supplies (MRO) which he needs to use in making the item listed in Column I.

(2) If the word "no" appears in Column V, CC ratings will be assigned for MRO only as provided in Priorities Regulation 28.

Column VI—Construction. (1) If the word "yes" appears in Column VI, the CPA may assign CC ratings to the person named in Column II, or to his builder, for material needed for incorporation in new plants or in expanded or modernized old ones where increased production of the item listed in Column I will result, or where the construction is necessary to prevent a loss of production.

(2) If the word "no" appears in Column VI, CC ratings will be assigned for construction materials only as provided in Priorities Regulation 28.

The aggregate value of all items in stock priced at the average maximum retail price shall not exceed the sum of the aggregate resale values of the individual items priced at their respective maximum prices.

SEC. 5. *Invoice of sale.* Every reseller of any of the articles covered by this order shall furnish purchasers, other than ultimate consumers, with an invoice of sale setting forth the selling price of the Government disposal agency or of the prime contractor or subcontractor selling the article as termination inventory.

PULPWOOD PRODUCED IN THE STATES OF MINNESOTA, MICHIGAN AND WISCONSIN

This compilation of Revised Maximum Price Regulation 257 includes Amendment 7, effective May 8, 1946. The text amended by Amendment 7 is underscored.

In the judgment of the Price Administrator the price of pulpwood has risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the price of pulpwood prevailing in the States of Minnesota, Michigan and Wisconsin between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. The Price Administrator has advised and consulted with representative members of the industry. In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said act. A statement of the considerations involved in the issuance of this regulation has been prepared and is issued simultaneously herewith.[2]

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

[Preamble amended by Supplementary Order No. 64, 8 F.R. 12554, effective 9-11-43]

[2] Statements of considerations are also issued simultaneously with amendments. Copies may be obtained from the Office of Price Administration.

SECTION 1. *Prohibitions.* (a) On and after October 15, 1945, in the continental limits of the United States, regardless of any contract, agreement, lease or other obligation, no person shall buy and no person shall sell, deliver or transfer pulpwood cut from the stump in the States of Minnesota, Michigan, or Wisconsin, at prices in excess of the maximum prices set forth in Appendix A hereof; and no person shall agree, offer, solicit, or attempt to do any of the foregoing: *Provided, however,* That for the purposes of this regulation, a sale to a wholly owned subsidiary of a consumer may be considered as a sale to the consumer, and, further, that the maximum prices established herein or in any other maximum price regulation shall not apply to pulpwood which is sold to a consumer by its wholly owned subsidiary.

For the purposes of this regulation, a "wholly owned subsidiary of a consumer" means any duly organized corporation whose entire capital stock on October 15, 1945, was owned by a consumer as defined in section 8 (a) (3) hereof. In the event that a consumer establishes a wholly owned subsidiary after October 15, 1945, and the subsidiary wants to enjoy the privilege provided in this section, such subsidiary shall file a request for this privilege with the Paper and Paper Products Branch of the Office of Price Administration, Washington, D. C. Such request must contain the name and address of the subsidiary, the nature of the subsidiary's business, the ownership of the capital stock and the area in which the subsidiary will operate. The Administrator may at any time revoke or deny such privilege to any company if he finds that an unwarranted diversion of wood products has resulted or will result, or that the operations of any subsidiary are inconsistent with the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250, 9328 and 9599.

[Paragraph (a) amended by Am. 5, 10 F.R. 12742, effective 10–15–45]

(b) *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollar-and-cents price is as much a violation of this regulation as an outright over-ceiling price.

(c) *Specific prohibited practices.* The following are among the practices prohibited:

(1) Up-grading, up-scaling or allowing a greater net scale than the actual scale content of the pulpwood;

(2) Increasing the price of pulpwood by failing to make an effort in good faith to collect monetary or other advances such as trucks, tires, or other equipment to producers. Any advance whatsoever to a producer is to be considered as part of the price of the pulpwood to be supplied by the producer.

SEC. 2. *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.

SEC. 3. *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment requires extended consideration, the Administrator, may upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

SEC. 4. *Evasion.* The price limitations set forth in this Revised Maximum Price Regulation No. 257 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to pulpwood produced in the states of Minnesota, Michigan, and Wisconsin, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other understanding, or otherwise.

SEC. 5. *Records and reports.* (a) Every person making a purchase or sale of pulpwood, for which a maximum price is established by this Regulation, shall make and shall preserve, for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942 shall be in effect, the same records of such purchases and sales as such person customarily made prior to the effective date of this regulation.

(b) Every person required to keep records by paragraph (a) of this section shall submit such reports as the Office of Price Administration, with the approval of the Bureau of the Budget, may from time to time require.

SEC. 6. *Enforcement.* Persons violating any provision of this Revised Maximum Price Regulation No. 257 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

SEC. 6a. *Licensing.* The provisions of Licensing Order No. 1,[4] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Sec. 6a added by Supplementary Order No. 72, 8 F.R. 13244, effective 10–1–43]

SEC. 7. *Petitions for amendment.* (a) Persons seeking any amendment of this Revised Maximum Price Regulation No. 257 may file petitions for amendment in accordance with the provisions of Revised Procedural Regulation No. 1[5] issued by the Office of Price Administration.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 2, Amdt. 6 to Rev. Supp. 3]

BARLEY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

1. The first two undesignated paragraphs of section 10 are amended to read as follows:

SEC. 10. *Maximum prices for sales by merchandisers.* With the exception of persons acting as producers or country shippers, all sellers who deliver barley in any manner other than as trucker-merchants or retailers, are "merchandisers" by definition.

This section sets forth the maximum prices for the ordinary "merchandiser" marketing transactions. If, however, your transaction is a sale and delivery of malting barley or pearling barley, you may add 1¼ cents per bushel to your maximum price which would otherwise apply under this section, but in that case you are subject to all the rules and restrictions set forth in section 2.7 of Food Products Regulation No. 2. This extra markup for malting barley and pearling barley is not subject to the limitation on markups provided in section 12 of this supplement, but all other markups provided in this section are subject to those limitations, except the markups as specified in paragraph (c) of this section. To these prices you may be entitled to add various charges which you may incur, or allowances for special handling of the barley, under the rules provided in section 13 of this supplement. Subject to such additions, the maximum prices per bushel, bulk, for sales by a merchandiser are as follows:

2. The last paragraph of Table I (a) of Appendix A entitled "Pearling Barley" is amended to read as follows:

Pearling barley. "Pearling barley", as defined in this supplement, may be sold, subject to all the provisions and restrictions of section 2.7 of Food Products Regulation No. 2 for sales of such special grains, at a premium of 15 cents per bushel.

This amendment shall become effective May 3, 1946.

Issued this 3d day of May 1946.

Acting Administrator.

NOTICE OF APPLICATION

MAY 2, 1946.

In the matter of United Fuel Gas Company, Huntington Development and Gas Company, Point Pleasant Natural Gas Company, and Warfield Natural Gas Company; Docket No. G-588.

Notice is hereby given that on April 24, 1946, United Fuel Gas Company (United), Huntington Development and Gas Company (Huntington), Point Pleasant Natural Gas Company (Point Pleasant), and Warfield Natural Gas Company (Warfield), all being subsidiaries of Columbia Gas & Electric Corporation, with their principal place of business in Charleston, West Virginia, filed a combined application for a certificate of public convenience and necessity under Section 7 of the Natural Gas Act, as amended, authorizing the purchase and operation by United and the sale by Huntington, Point Pleasant, and Warfield of their properties and other assets.

The application amends a prior application filed on March 1, 1945, wherein United sought approval for the acquisition of Central Kentucky Natural Gas Company and Cincinnati Gas Transportation Company along with the aforesaid companies. Huntington owns and operates natural gas production, transmission and distribution properties in the State of West Virginia. It sells natural gas produced and purchased in West Virginia to United for resale for ultimate public consumption in the States of Ohio and Kentucky. During the year 1944, Huntington sold 1,674,399 Mcf of natural gas, through its local distribution systems, Huntington, 1,626,388 Mcf, Kenova, 977 Mcf, Miscellaneous, 46,974 Mcf; and 69,265 Mcf of natural gas to a main line industrial customer; and 1,895,695 Mcf of natural gas to United, and 8 Mcf of natural gas to other miscellaneous customers.

Its entire gas supply in 1944 of 140,756 Mcf was purchased from United and received from the lines of the Ohio Fuel Ga Company through a gas exchange agreement between that company and United.

It is proposed that Huntington, Point Pleasant and Warfield convey to United all their properties and assets consisting of gas wells, lines, equipment, leaseholds, and assets of all kinds and in consideration thereof, United will assume all of the debts and obligations of Huntington, Point Pleasant and Warfield, and will issue 87,236 shares of its common stock, distributing 62,668 shares to Huntington, 500 shares to Point Pleasant and 24,068 shares to Warfield. No financing will be necessary, except as above indicated, and to accomplish this end United will increase its authorized common stock from 300,000 shares, $1 par value, all of which shares are now outstanding, to 400,000 shares, $1 par value.

It is the intention of United after the proposed acquisition, to continue the service as presently being rendered, under the same method of supervision and operation and at the present rates. It is stated that no other gas company will be affected in any way by the proposed acquisition, that no new facilities are involved in the transaction, that certain savings will result therefrom and that transactions between companies will be eliminated.

Any interested State Commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurring hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 18th day of May 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

[SO 133, Order 34]

CROWN POTTERIES CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133; it is ordered:

(a) *Manufacturer's maximum prices.* Crown Potteries Company of Evansville, Indiana may increase its maximum prices for sales and deliveries to jobbers and retailers of certain articles of semi-vitreous household chinaware, and for packing charges, as follows:

(1) Articles for which the maximum prices immediately prior to February 22, 1945 for sales to jobbers were at $6.25, $7.00, $7.25, $8.00, $8.50, $9.00, $9.50 and $10.00 per pound on the pound sterling price basis and for sales to retailers were at $6.75, $7.50, $8.00, $8.50, $9.00, $9.50, $10.00 and $10.50 per pound on the pound sterling price basis may be sold to jobbers and retailers at the price on the pound sterling scale, which price scale to the nearest quarter of a dollar pound sterling, equals 113.8% of the pound sterling price scale under which the article was sold immediately prior to February 22, 1945.

(2) Articles for which the maximum prices immediately prior to February 22, 1945 for sales to jobbers were at $10.50, $11.00, $11.50 and $12.00 per pound on the pound sterling basis and for sales to retailers were at $11.00, $11.50, $12.00 and $12.50 per pound on the pound sterling basis may be sold to jobbers and retailers at the price on the pound sterling scale, which price scale to the nearest quarter of a dollar pound sterling, equals 109.6% of the pound sterling price scale under which the article was sold immediately prior to August 30, 1945.

(3) Articles not included in the categories set forth in subparagraphs (1) and (2) above may be sold to jobbers and retailers at the price on the pound sterling scale, which price scale to the nearest quarter of a dollar pound sterling, equals 105.4% of the pound sterling price scale under which the article was sold immediately prior to the issuance of this order.

(4) Maximum prices for packing charges established by Maximum Price Regulation No. 116 as amended may be increased 5.4%.

(b) *Reseller's maximum prices.* Resellers of an article which the manufacturer has sold at an adjusted maximum price determined under this order shall determine their maximum prices as follows:

A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article", (exclusive of any adjustment) for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of purchaser.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the articles being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted under this order.

(5) Resellers' ceiling prices for articles covered by this order shall not be subject to the provisions of Supplementary Order No. 153.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Change in reseller's margins.* Reseller's maximum prices adjusted in accordance with this order are subject to further adjustments which may result from any change in reseller's margins which may be effected by the Office of Price Administration to obtain absorption by resellers of any industry-wide increase in manufacturers' maximum prices.

(e) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 3d day of May 1946.

Issued this 2d day of May 1946.

PAUL A. PORTER,
Administrator.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Order No. 4418 under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturers' maximum prices.* Henry Manufacturing Company of 421 Fifth Avenue South, Minneapolis, Minnesota, may sell and deliver to jobbers the Universal automobile seat covers referred to in its application dated January 19, 1946, at prices no higher than its maximum price for such sales in effect immediately prior to the issuance of this order, increased by $0.58.

(b) *Resellers' maximum prices.* (1) Each reseller shall calculate his maximum resale prices for articles covered by this order by adding to his invoice cost, the same percentage markup which he has on the "most comparable article" for which he has a properly established maximum price. For the purposes of this order, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a maximum price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called by OPA Form 620-759 with regard to how he determined his maximum price, for so long as the Emergency Price Control Act of 1942, as amended remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the suppliers prices as adjusted in accordance with this order.

(2) The provisions of Supplementary Order No. 153 shall not apply to sales of articles covered by this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials, in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation of amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 3d day of May 1946.

Issued this 2d day of May 1946.

Administrator.

[RSO 119, Order 191]

AMERICAN SEATING CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119; it is ordered:

(a) *Manufacturer's ceiling prices.* American Seating Company, 9th and Broadway, Grand Rapids, Michigan, may compute its adjusted ceiling prices for all articles of church furniture which it manufactures as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 12.7 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments authorized for him individually or for his industry.

The adjustment charge determined in accordance with this order must be separately stated by the manufacturer on each invoice to a purchaser for resale.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he had paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less the adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

The provisions of Supplementary Order No. 153 shall not apply to resale prices or articles covered by this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 2d day of May 1946.

Issued this 2d day of May 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

No. 88——5

[Region II 2d Rev. Order G-18 Under RMPR 122]

SOLID FUELS IN ROCHESTER, AND MONROE COUNTY, N. Y.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.269 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *What this order does*—(1) *Dealers' maximum prices: area covered.* If you are a dealer in solid fuels, this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" and for certain sizes, quantities and kinds of bituminous coal delivered to or at any point in the State of New York—Coal Area IV. That area consists of the following portions of Monroe County in the State of New York:

The City of Rochester: the towns of Irondequoit, Brighton, Chili, Gates and Greece: The following portions of the Towns of Pittsford, Perinton and Henrietta: bounded on the north by Penfield Road to and including the hamlet of Penfield; on the east by the Five-Mile Line Road, the easterly village line of the village of East Rochester, the Lincoln Marsh Road to and including the hamlet of Bushnell's Basin; on the south by Ballantyne Bridge-Pittsford-Jefferson Avenue and the South Pittsford-Victor Road, to the point where the Brighton-Henrietta town line runs into the Genesee River on the west. This area shall include the abutting property on each side of all boundary highways.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated kinds, sizes and quantities of coal delivered within Coal Area IV are set forth in Schedules I and II hereafter. Schedule I relates to sales of Pennsylvania anthracite (hereinafter called simply "anthracite"). Schedule II relates to sales of bituminous coal.

(3) *To what sales this order applies.* If you are a dealer in solid fuels, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area IV whether or not you are located in Coal Area IV.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy solid fuels of the kinds, sizes and in the quantities set forth in the Schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other devise by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) *Use the schedule which covers your sale.* (Schedule I contains a separate table of prices for "direct-delivery" sales, "yard sales" and "bagged coal" sales of anthracite. You will find Schedule I in paragraph (d). Schedule II contains a table of prices for "direct-delivery" sales and "yard sales" of bituminous coal. You will find Schedule II in paragraph (e)).

(2) Take the dollars-and-cents figure given in the applicable table of the applicable schedule, for the kind, size and quantity of solid fuel you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified therein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the schedules.

(5) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule does not provide a discount on the basis of the tonnage sold, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 75¢ per ton for cash payment, you shall deduct 56¢ for three-quarters of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-quarter ton, and the applicable schedule does not provide a service charge on the basis of the tonnage sold, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 75¢ per ton, you shall not add more than 56¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Coal Area IV. There is a separate table of prices for "direct-delivery" sales, "yard sales", and "sales of bagged coal".

(1) *Sales on a "direct-delivery" basis for sales of anthracite of the sizes and in the quantities specified:*

Provisions of this paragraph shall not apply to sales of solid fuels in less than ¼ ton lots, unless requested by the purchaser.

(4) On "delivered" and "yard" sales there may be added to the prices provided in Paragraphs (e) (1) and (e) (2) five cents per net ton on coal produced by the Pittsburgh Coal Company in District No. 2, from Mine Index Numbers 10, 29, 49, 62, 92, 150, 152 and 237.

(f) *Commingling.* If you sell one size or kind of coal, commingled with another size or kind of coal, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes or the least expensive kind of coal so commingled, whichever is lower, whether the sale be a "direct-delivery" sale, "yard sale", or "sale of bagged coal", except in the following situation. Where a purchaser requests that two or more sizes or kinds of coal be commingled in one delivery, then, in that event, if those sizes and kinds are separately weighed at the point of loading, or when bagged, the dealer may commingle those sizes and kinds in the truck or other vehicle, or in the bags, in which the delivery is made. The price for coal so commingled shall be calculated on the basis of the applicable per net ton price, or, in the case of bagged coal, on the basis of the applicable bagged price, for each size and kind in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size and kind in the combination.

(g) *Ex-parte 148—freight rate increase.* Since the ex-parte freight rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rate.

(h) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your suppliers' maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(i) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or any amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, you need not state this tax separately.

(j) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the coal has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(k) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(l) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provisions thereof, at any time.

(m) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are estab-

lished. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(n) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of solid fuels hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(o) *Posting of maximum prices: sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable Schedule or Schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of coal sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(p) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Buffalo District Office of the Office of Price Administration; or with the Price Panel of the Appropriate War Price and Rationing Board.

(q) *Definitions and explanations.* When used in this Second Revised Order No. G-18, the term:

(1) "Person" includes an individual, corporation, partnership, association or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political sub-divisions, or any agency or any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "Sale", "selling", "sold", "seller", "buy", "purchase" and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling coal of the kinds and sizes set forth in the Schedules herein, and does not include a producer or distributor making sales at or from a mine, a preparation plant operated as an adjunct of any mine, or a briquette plant.

(4) "Direct-delivery", except with respect to sales in 100 lb. lots, means delivery to the buyer's bin or storage space by dumping or chuting directly from the sellers truck or other vehicle or, where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck. "Direct-delivery" in 100 lb. lots shall mean depositing in buyer's bin or other storage space designated by buyer.

(5) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from the seller's truck or other vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which coal is discharged from the seller's truck in the course of "direct delivery".

(6) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

(7) "Pennsylvania anthracite" means all coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(8) The sizes of Pennsylvania anthracite described as broken, egg, stove, nut, pea, buckwheat, rice, barley and screenings shall refer to the same sizes of the same fuel as were sold and delivered in the State of New York—Coal Area IV, with such designation during December, 1941.

(9) "Delivered at dealer's yard" as applied to sales of bagged coal, means physical transfer at the dealer's yard to the purchaser's truck or other vehicle.

(10) "Delivered to retail stores" as applied to sales of bagged coal, means deposit in that part of the store designated by the purchaser.

(11) "Sales to ultimate consumer" as applied to bagged coal, means sales by dealers, other than sales at the dealer's yard, whether or not delivered to the consumer's premises.

(12) "District No." refers to the geographical coal-producing districts as defined in the Bituminous Coal Act of 1937, as amended, and as they have been modified as of midnight, August 23, 1943.

(13) "Low volatile bituminous coal" is produced in the low volatile sections of the producing districts specified herein.

(14) "High volatile bituminous coal" is produced in the high volatile sections of the producing districts specified herein.

(15) "Underground mine coal" means coal that is taken entirely from underground seams from which the overburden is not removed, and does not include coal from a mine which takes in coal from the ground by the stripping method.

(16) All designations in this order of sizes, classifications, etc., applicable to bituminous coal, refer to the sizes, classifications, etc., as set forth in the minimum price schedules for the various producing districts issued by the Bituminous Coal Division of the United States Department of the Interior, as in effect midnight, August 23, 1943. Where the minimum price schedules do not make specific mention of any size designated in this order, such size designations shall refer to the sizes of bituminous coal sold as such in State of New York, Coal Area IV during December, 1941.

(17) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(r) *Effect of order on Revised Maximum Price Regulation No. 122.* To the extent applicable this order supersedes Revised Maximum Price Regulation No. 122.

(s) *Effect of order on Revised Order No. G-18 as originally issued.* Revised Order No. G-18 under Revised Maximum Price Regulation No. 122, as issued on December 6, 1943, is hereby revoked in full as of the effective date of this Order.

(t) *Effect of Revised Order No. G-21, emergency sales of prepared bituminous coal to domestic consumers.* The maximum prices for sales of bituminous coal under Schedule II, paragraph (e) of this Second Revised Order shall not apply to emergency sales of "prepared bituminous coal" when sold as a substitute fuel in place of anthracite, within the coverage of Revised Order No. G-21 under Revised Maximum Price Regulation No. 122 as long as said Revised Order No. G-21 shall remain in effect. During that period, such emergency sales of prepared bituminous coal shall be priced in accordance with the provisions of Revised Order No. G-21.

NOTE: The record keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

The Second Revised Order No. G-18 shall become effective March 18, 1946.

[Newark Adopting Order 40 Under Basic Order 1 Under Gen. Order 68]

BUILDING AND CONSTRUCTION MATERIALS IN HUDSON, UNION, ESSEX, BERGEN, AND PASSAIC COUNTIES, N. J.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of Region 2 by the Emergency Price Control Act of 1942 as amended, by General Order No. 68 as amended, and by Revised Procedural Regulation No. 1, which authority has been duly delegated by such Regional Administrator to the District Director, Newark District Office, it is hereby ordered:

SECTION 1. *What this order covers.* This adopting order under Basic Order No. 1 as amended, under General Order No. 68 as amended, covers sales by all persons to ultimate users or to purchasers for resale on an installed basis, of certain building materials listed in Schedule A hereto annexed and generally known as "hard mason materials". All provisions of Basic Order No. 1 as amended, under General Order 68 as amended, are adopted in this order and are just as much a part of this order as if specifically set forth herein. If Basic Order No. 1 as amended, is further amended in any respect, the provisions of said order as amended, shall likewise without further action, become part of this order. All persons subject to this adopting order are also subject to Basic Order No. 1 as amended under General Order 68 as amended, and should be familiar with the provisions of said order.

SEC. 2. *Territory covered by this order.* The geographical area covered by this order is the counties of Hudson, Union, Essex, Bergen and Passaic, all in the State of New Jersey.

SEC. 3. *Maximum prices.* The maximum prices for the building materials covered by this order are set forth in Schedule A hereto annexed and made a part of this order. The prices fixed in Schedule A cover all sales in the territory covered by this order, regardless of the location of the place of business of the seller.

SEC. 4. *Discounts, allowances, and terms of sale.* Schedule A, annexed to and made a part of this order, fixes maximum yard prices and maximum delivered prices. The maximum delivered prices apply to all delivered sales of more than $10. On delivered sales of $10 or less, a delivery charge not in excess of 10% of the total amount of the sale, may be made. All prices are subject to customary trade discounts.

SEC. 5. *Relationship of this order to Basic Order No. 1 as amended, under General Order No. 68 as amended, and to General Maximum Price Regulation, and other maximum price regulations.* As previously stated, all provisions of Basic Order No. 1 as amended, are adopted by this order. The maximum prices fixed by this order supersedes any maximum price or pricing method previously established by the General Maximum Price Regulation, or by any other applicable regulation or order. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall remain applicable to sales covered by this order.

SEC. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each place of business within the area covered by this order.

SEC. 7. *Records and sales slips—(a) Required information.* The provisions of section (e) of Basic Order No. 1 as amended, covering sales slips and records are adopted in and applicable to this order, as it is specifically set forth herein, and also on any sale of $25 or more, each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

(b) *Maximum prices for insufficiently described items.* Where the seller's records or sales slip upon a sale of any commodity covered by this order in the area covered by this order, do not contain a sufficiently complete description to identify the exact nature, type, size, or quantity of the commodity, and thus determine the maximum price fixed by Schedule A of this order, the maximum price applicable to such sale shall be the lowest maximum price which can be computed under Schedule A of this order in accordance with the incomplete description.

SEC. 8. *Revocation or amendment.* This order may be revised, amended, revoked or modified at any time by the Office of Price Administration.

SEC. 9. *Effect of this order on former adopting orders.* This order supersedes as of the effective date of this order, Adopting Order No. 10 and Adopting Order No. 11 under Basic Order No. 1 as amended, under General Order 68 as amended, and said orders are revoked as of the effective date of this order. This revocation shall not operate to release or extinguish any penalties or liabilities incurred under said Adopting Orders No. 10 and 11, and such orders shall remain in full force and effect for the purpose of allowing or sustaining any proper suit, action, prosecution, or proceeding with respect to such penalty or liability.

This order shall become effective May 2, 1946.

Issued this 22d day of April 1946.

RICHARD J. TARRANT,
District Director.
